YOUR WHOLE BUSINESS.

You simply cannot carry, even the most important details of your business in your mind. But, as you are a good business man, you will insist on these details being always immediately available to you as to compare them with those of yesterday, last month, last year. The famous "Safe" method, originated by the Coler-Wernicke Co., makes your files a live index of your business and keeps every record quickly and surely accessible. Are you not interested in this more efficient, more economical system? MR. PERCIE JOHNSTON will be pleased to show you that this equipment will be of lifelong usefulness by arranging the record of your whole business right at your hand.

In Memoriam.

AUGUSTINE LUNDRIGAN.
After an illness of short duration, there passed to his everlasting reward February 27th, Augustine Lundrigan, of St. Bride's, being an only son his loss will be more keenly felt by his parents and his sisters, who sincerely loved him. Only two years ago God was pleased to take from them in death another son, Patrick, which makes the death of their son Augustine sadder. He was a model youth and gifted by nature with a beautiful voice, and many times assisted in the Church choir; but Faith can raise the veil which hides the Great Beyond from mortals and make us hear a new voice added to the heavenly choir which stings the eternal Sanctus. Scarcely 19 years, just commencing the budding beauty and flower of manhood, his example was always edifying, and he went before God to give an account of an innocent life. Augustine was the only surviving son of Anthony and Mary Lundrigan. His parents will miss a devoted and affectionate son, his sisters a fondly attached brother. He leaves five sisters Mrs. George Bambrick, of St. John's, Miss Katie school teacher at Curslet, and three St. Bride's. The Rev. D. O'Callaghan was constant in attendance on the dying youth whom he fortified with all the rites of Holy Church. On Sunday morning, March 1st, at 8 a.m. his body was placed in the church and mass celebrated for the eternal repose of his soul; Benediction immediately after. Rev. Fr. O'Callaghan preached his sermon which was timely and instructive, after which the remains were consigned to Mother earth in the cemetery of St. Bride's but his memory will live for life in the hearts of his bereaved parents.—R.I.P.

—P.F.
St. Bride's, March 8th, 1914.

HEALTHY AND UNHEALTHY LIGHTING

Gas, it may be said, vitiates the atmosphere. True. But it also helps purity. Its purifying power is greater than its vitiating power. Electricity does not viliate, nor does it purify. Hear what three eminent men have said:—
Much evidence has lately been adduced to show that gas is more useful than the electric light in promoting efficient ventilation of air. It is for this amongst other reasons that gas is being frequently substituted for the electric light. The latest example is, perhaps, the Society of Medical Officers of Health, which has recently installed gas on its premises, after experience with the electric light.—Dr. Jamieson D. Hurry.
He would merely add that no member who had experience of their meeting room under the old conditions could deny the improvement that had taken place since gas had been substituted for the electric light and the new system of heating and ventilation had been installed.—Dr. Reginald Dundfield, before the Society of Medical Officers of Health.
I have in my mind's eye, at the moment, a hall which, in the old days was lighted by gas, and in which a large audience could, with comfort, sit through an hour's lecture, or with pleasure through a three hours' dinner, but which, with the march of civilization, had its illumination changed from gas to electricity, the latter being applied with all the latest refinements to effect the lighting under the best conditions, with the result that any large gathering within its walls leads to a state little short of asphyxiation.—Vivian B. Lewes, Professor of Chemistry at the Royal Naval College, Greenwich.—nov8,14

By Hand and By Post.

A country vicar, who invited his flock once a year to supper in the schoolroom, entrusted his handyman with the delivery of the invitation cards. A day or two before the function his reverence found the faithful fellow sitting by the roadside in an advanced state of hilarity.
"Good gracious, Jenkins, what does this mean?"
"I—Im dud—dud—drunk, sir."
"So it seems. How did you get into this shocking state?"
"It's all along of them cards, sir. I takes 'em round, and this 'un asks me to drink summat, an' that 'un asks me to drink summat, and so I gets like this."
"Why, this is terrible! Are there no temperance people in the parish?"
"Lor', yes, sir, lots of 'em; but I send their cards by post."

Enjoy your meals by taking a teaspoonful of Stafford's Prescription "A" before eating. It cures Indigestion and Dyspepsia, etc.—jan22,14

STOP COUGHING

It's quite as foolish as it is annoying to keep on coughing since—
PHORATONE COUGH MIXTURE is sold all over Newfoundland and is guaranteed to soothe and heal the irritated parts at once, and to rapidly destroy the very cause of this aggravating nuisance. Hundreds of persons are complaining every day about the cough 't cold they have had for a long time, and are not able to get rid of it. Don't let a cough or cold hang on you day after day and run the risk of catching and developing the "cough" that is not easy to throw off. You will avoid all this worry (about the cough or cold you have) by obtaining
PHORATONE COUGH MIXTURE at once.
(Manufacturers also of Stafford's Liniment and Prescription "A")
Prepared only by
DR. F. STAFFORD & SON,
St. John's, Nfld.

Harbour Grace Notes.

The ice on the harbour is now getting very bad, but still thoughtless people will persist in crossing it. We hope we won't have anything more serious to report than some one getting a cold bath for their persistence.
We are pleased to see Constable Wm. Dooley on duty again after his recent illness. Dooley is one of our best public officers—courteous, diligent and efficient—and can see more at a glance than many men with bigger ideas would see with a whole look. He is a good, hard-working officer, and we hope to see his valuable services appreciated in the way of promotion.

The Rev. Mr. Sutherland, of St. John's, will be here on Sunday next, and officiate at the Kirk. The Sacrament of Holy Communion will be dispensed on that day at the forenoon service. The Rev. Mr. Magner, the pastor, will occupy the pulpit of St. Andrew's, St. John's.

The Ladies' of St. Andrew's Church are arranging for a Sale of Work and Tea on Wednesday of Easter Week. The Sale will take place at Victoria Hall and will commence at 4 o'clock. All their friends are assured of a good time on this date, if they keep it open for this event.

Mr. W. A. Munn, of St. John's, is now in town on one of his frequent visits and all his friends are pleased to see him.
Mr. William Smith, foreman carpenter at the New Public Building, leaves by this afternoon's train for his home in St. John's, the new building having been completed. He leaves behind him a careful reminder of his stay here in the excellent work he has accomplished at the building. Mr. Smith has made many friends since coming here, who regret that he cannot stay with them, but whose good wishes will follow him wherever his lot may be cast. As for ourselves, we say farewell friend Smith, and may all good fortune, prosperity, and above all good health, be with you and yours.

Mr. Geo. A. Moulton, of Carbonear, was in town a few hours yesterday, the guest of Mr. and Mrs. L. F. Chaffey. Mr. Moulton had many friends here who were pleased to see him.
CORRESPONDENT.
Harbour Grace, March 10, 1914.

A MODERN INSTANCE.

It was something like a ringworm on his head, or rather at the back of the neck, just below the hair, and seemed inclined to spread. Washing with antiseptic solutions, and the use of common ointments scarcely availed to prevent its getting larger. He was puzzled. Then he saw an advertisement of Zylex and Zylex Soap, and decided to use them. Procuring a box of Zylex and a cake of Zylex Soap he washed the part carefully, and applied the ointment freely. The result was marked almost from the first. In a few days the spot had disappeared, and everything was as well as ever. Now he uses Zylex Soap regularly and keeps a box of Zylex always handy.
Have you such spots? Then use Zylex. You will soon forget that you have had any skin troubles. At all druggists. Zylex, 60c a box; Zylex Soap, 25c a cake.—feb26, sod.14

AN ARREST MADE.—Yesterday afternoon, the police arrested at his residence on the Southside, the boy Parmiter, who is charged with stabbing a young man named Tapper. Particulars of the occurrence appeared in yesterday's Telegram.

Gossips.

The gossip bunch who play an ugly game; they'd leave the finest Walldorf lunch to mangle some one's fame. They're prone to injure all they touch, with their long tongues and jaws, and y e t they cannot hurt you much unless you give them cause. The man whose life is circumspect, who minds the Golden Rule, won't see his reputation wrecked by any prating fool. And those who suffer most from talk quite often are the guys who hear a tale and walk a block to put the neighbours wise. I often say, with Victor's tongue, "The gossip I abhor," and then I tell how Sandy Bung ran off with Mandy Dorr. The nervous deeds that others spring we rightfully despise, and then we do the self same thing, did but our pious eyes! We all are gossips more or less; with glee we trot along to tell about our fuka listers when some good man's gone wrong. On Smith and Jones we're keeping tabs, and if they make a break, we'll stand around the streets and gab until our windpipes ache. So when we roast the gossip vile who deep in scandal delves, 'twere well to pause a little while and just size up ourselves.

Magical Effect On Neuralgia Throbbing Pain Goes Quickly.

A YEAR'S SUFFERER CURED BY "NERVILINE."
No person reading this need ever again suffer long from Neuralgia. Nerviline will quickly cure the worst Neuralgia, and Mrs. G. Evans in her strong letter written from Russell post office, says:—"One long year of longest of my life, was almost entirely given up to treating dreadful attacks of Neuralgia. The agony I experienced treating some of the bad attacks was simply unmentionable. To use remedies by the score without permanent relief was mighty discouraging. At last I put my faith in Nerviline; I read of the wonderful pain subduing power it possessed and made up my mind to prove it valuable or useless. Nerviline at once eased the pain and cured the headache. Continuous treatment with this magic-working remedy cured me entirely and I have ever since stayed well."
Mrs. Evans' case is but one of hundreds that might be quoted. Nerviline is a specific for all nerve, muscular or joint pain. It quickly cures neuralgia, sciatica, lumbago, lame back, neuritis and rheumatism. Forty years in use, and to-day the most widely used liniment in the Dominion. Don't take anything but "Nerviline," which any dealer anywhere can supply in large 50c. family size bottles, or in a small 25c. trial size.

Sealers' Concert.

The attendance at the concert at the Institute last night was even greater than on previous occasions. An excellent programme consisting of moving pictures, solos, recitations and club swinging was gone through, in which the following ladies and gentlemen took part: Misses Garland and Jones; Messrs. Forbes, P. Cowan, W. H. Jones and Watson; while Miss J. Barnes acted as accompanist.
The different items were thoroughly enjoyed, and at the close, cheers were heartily given for Dr. Grenfell.
Mr. Jones announced that the flashlight photo taken on Tuesday night will be exhibited at this evening's entertainment.

Colleen Bawn.

On St. Patrick's Day.
St. Patrick's Day, the Casino Theatre will present that beautiful Irish love story, "Colleen Bawn." The play is well known in St. John's and the Casino is fortunate in being able to secure the films for that day. It covers three full reels and is intensely interesting. There will be three other subjects so that patrons are assured an enjoyable time. The "Colleen Bawn" is a picture which every one should see.

LAST NIGHT'S ARRESTS.—Four inebriates were arrested last night and appeared before court to-day.

Cure For Drink Habit.

New York, March 2.—Seven and a half years of total abstinence, from liquor instead of seven and a half years in jail, was the sentence imposed by Supreme Court Justice Davis, on Joseph A. Sheridan, President of the Independent Ice Dealers' Association, convicted of attempting to extort \$1,000 from the Knickerbocker Ice Company by threats to institute a newspaper campaign against the company.
"It is apparent," said Justice Davis, "that you are a victim of drink and it would be a good thing to send you away to get the liquor out of your system. I will suspend sentence, but if you drink or carry on in the way you have carried on, you will be brought before this court at any time within the next seven and a half years, when sentence will be imposed."

F. P. U. Invades Hr. Main.

At the request of a number of residents of Harbour Main for a branch of the F. P. U. to be formed there, the President, Mr. Cooker, commissioned Mr. Wm. Veitch, Secretary of the F. P. U. Council at Holyrood, to proceed to Harbour Main on Saturday to open up a Council there. The meeting was held at the residence of Mr. James Conran, merchant, and quite a number assembled there to assist in drafting the F. P. U. in ancient Harbour Main. Mr. James Conran called the meeting to order and introduced Mr. Veitch who gave an outline of the aims and objects of the Union and a brief account of its progress. Mr. Veitch who was assisted by Mr. W. Byrne, then asked all those who wished to become members to come forward and sign the roll and forty responded. After administering the obligation the election of officers followed and resulted as follows:—
Edward Fahey, Chairman.
John Wall, Deputy Chairman.
William Parsley, Secretary.
Charles J. Purry, Treasurer.
Joseph Peanny, Door Guard.
Each of the councillors addressed the meeting in happy speeches full of promises to promote the beneficial fruits of unionism in Harbour Main. The Council is to be complimented on the choice of its officers and as they are ardent unionists the F. P. U. will have a rapid growth in Harbour Main. Mr. Woodford told the people at his meetings last fall that F. P. U. principles were to set class against class and creed against creed. The five hundred unionists now under Cooker's banner in Harbour Main District and the 1,000 who will be enrolled before long will brand Woodford as a deceiver.
Yours truly,
UNIONIST.
Hr. Main, March 9th, 1914.

A swindler now under indictment in the United States advertised, "Throw away your glasses." Those who sent him five or ten dollars received in exchange a small box of tablets which the United States mail officials found could be manufactured for twenty-five cents per thousand. There is no medical, chemical or mechanical means of restoring to normal an eyeball which is irregular in shape for such is the condition in most cases when glasses are worn for constant use. Hypermetropia, myopia, and the various forms of astigmatism are simply cases where the cornea, or clear front portion of the eyeball, is not absolutely spherical, and there is no other known means of overcoming such defect excepting by adjusting glasses. It is to be hoped that none of our Newfoundland friends have been duped by the swindler referred to above. You are always safe in consulting R. H. Trappnell, Eyesight Specialist, St. John's, when your vision requires attention.—feb27, sod. 14

Silk cord is being used in the latest la valieres. If the cord is black, the pendant on it is apt to be of rhinestones and jet.
