past. If the agreement had been broken in days gone by it was no excuse for them not acting up to it on the present occasion. He believed and feit sure that the great number of those present were with him that the agreement should be adhered to strictly. Should shey not do

most beneficial to the Northfield men, with whose hardships they all sympathized sin-cerely. They must decide whether they would be best able to help them by taking an arbitrary course or by fair measures. Mr. R. Booth alluded to the many advan-tages they had reaped by means of this very agreement. He said plainly that if they on their part took any unfair advantage, they must veasonably agreet the company to remust reasonably expect the company to retaliate. He spoke at some length of the condition of the miners on Vancouver Island claiming that it was only by maintaining loyal organization that they could ever hope or expect to obtain and keep the rights they considered theirs. He earnestly appealed to the men to maintain the agreement and to

do nothing rashly. Mr. Tully Boyce expressed the opinion that what was really needed at the present time was some arrangement by which the men of No 5 and Northfield might obtain a larger share of work. He did not consider the question of the 10 per cent, alvance as being of anything like as great importance as the equalization of work. With regard to the agreement, he claimed that the day it
