ALBERNI MINES.

Mr. Henry Saunders Back From a Week's Visit to That District.

ant.

Yesterday Mr. Henry Saunders returned

from Alberni, where for the last week he has been visiting that promising gold mining | Court Vancouver, A.U.r., will pay a fraternal visit to Court Robin Hood, Vio. district. He comes back more than ever toria West, this evening. It is probable McQuillan & Childs going ahead with the development of their fine placer claim the Duke of York. They are sinking to bed Creek. They made the trip with Frank with them. McQuillan to see the glories of the King Solomon mine, and climbed to the top of the mountain, 5,000 feet high, to see the magnion with good results. Several fine specimens of quartz covered with coarse gold had been found recently among the gold the dust and brought it back with him. It is splendid coarse gold with good-sized pieces amongst it. Sluicing work is going on at present and ground is being prepared

for hydraulicing. A little further up Mineral creek Gleason is sinking a shaft on his placer claim and expects to reach bed-rock this week. At the time of Mr. Saunders' visit he was down thirty-five feet. The indications on this claim are very good. At the head of Mineral creek is the Champion-Missing Link quartz claim belonging to Brown & Comerford. This is a grey, free-milling quartz At present an open cut is being run for the face of a tunnel here. A trial of the waste with a pan was made by Mr. Saunders out of curiosity, and showed up good prospects. The Alberni mine, adjoining, has three or four men at work putting ore on the dump, Nine horses were employed packing this ore to Alberni for shipment to Tacoma. Three and made a most attractive setting for the

Jones is now prospecting it. The next move was back again to the head of China creek to visit the Golden of the opportunity afforded to sit in the cozy parlors and chat and listen to the going right over the top of the mountain music. and down the other side. A quartz mill and capital are all that are required to make it a great gold producer.

Yellowstone creek, across the summit at the and officer Carter were somewhat roughly head of Mineral creek. It flows into Cam. handled in a battle with two husky sailors eron river and crosses the Alberni trail four miles from the wagon road, The crowd seemed to enjoy the "sport," making it only nine miles from Alberni itself. refusing to give assistance, and had it not The finds already made show it to be as been for the fortunate appearance of Fred good as or better than Mineral Creek. THE CITY MARKETS.

Since the beginning of the present month here has been some improvement in local business, but the change being common is not particularly noticeable. The principal feature of the week is the commencement of the Northern halibut fishing, but it will be some time before the first consignments arrive. There have been a number of changes in quotations during the week, afin the season, and the recent drop from light cents to a cent, and even less per pound, is probably as low as they will reach. Later dered in the past by the lady well wishers dered in the past by the lady well wishers Eggs has been gradually rising, until they have now reached the uncertain mark of 35 cents per dozen. This is the price paid for the Island product; imported eggs have advanced correspondingly. Plums are in superabundance, the supply being greatly ing arrested Christopher Moody at his home in excess of the demand. Saanich plums here, charging him with theft. Moody is a lead the demand, being cheaper and of equally good quality with the other varieties. The figure is exceptionally low, cheaper perhaps than ever known in British Columbia-a fact suggestive of the development of the fruit industry. Apples are becoming moderate in price for the first time in a year. Following are the current retail quotations FLOUR-Ogilvie's (Hungarian) per bbl....\$ 5.50 Lake of the Woods (Hungarian).....\$ 5.50 Victoria....\$ 5.00

Mong Kow active members is long enough to provide BRICK PAVEMENT FOR STREETS. and he was set ashore on the island. states that he knew Choy Wan's father contestants for races without number. The fellows may be seen putting out from the boathouse for practice spins. The favorite without a stop. Some of the coachers have experienced no little difficulty in initiating the novices into the mysteries of "reaching, sliding and recovery." The work among the different crews has steadily improved, and some of the fours row in splendid style, giving the impression of ease and finish. The course for the lapstreaks will be threequarters of a mile straightaway from a

was ever ill treated, as she had only been point beyond Coffin Island, past Sehl's point to the boat house. The distance for single scull events will be a mile straightaway. It will be necessary to have seven heats to dowson (stroke), J. W. Wilson, W. J. Mo-Kay and J. Aden (bow) The prize for the senior single race is a handsome cup presented by Dr. J. D. Helmcken. Sullivan is the present holder of the trophy, but this year he will have to work hard to retain it against such veterans as Scott, Aden, Haines, F. Mallandaine, jr., F. Mallandaine time she preferred to marry and live in this and George Watson. For the junior single sculls the trophy is the Mallanscullers have entered for this event, including Pope, Jesse, Finlaison, Young, Geiger,

Bailey and Schultz There will be nearly a half dozen starters in the double dingy race with lady coxswains. The dingy race for veterans will be one of the best on the list. Some of Vicbe one of the best on the list. Some of violations of brick per year, and the industry is still past regattas will be to the fore, and show that they have not lost their process with they have not lost their process with the regation of brick per year, and the industry is still rapidly expanding. Paving brick is now used in eight cities in the State of Michigan; boro pances, which was so interesting last

year, will be a welcome number among the day's attractions. The regatta will start at 2 o'clock, and arrangements have been perfected to have the various crews at the starting point precisely at the times fixed for the various fecting flur, rolled oats, potatoes, eggs, apples and plums. The first of these conraces, so that there will be no delay. cerns Ogilvie's and Lake of the Woods Hun-week fixing preliminaries, so that the many

> of Victoria's energetic boating institution.
>
> The activity of the members of the J.B. A.A. this summer is particularly worthy of mention. A determined effort will be made next year to win the senior four event-at the association regatta at Vancouver. The fact that everyone is taking such great interest in the club regatta this fall augurs well for next season's record, as there will be any number of "eligibles" to represent Victoria in a worthy manner. Victoria has always won enviable honors in the sphere of athletics, and it is safe to say, with the present enthusiasm among the members of the J.B.A.A., that our crews will be able to hold their own against all comers.

THE WREEL.

PROMISE OF A RACE There is a prospect of E. W. Bradley and Thomas A. Johnson coming together in a ten mile road race at an early date, Bradley being anxious to demonstrate that he can 4.60 not only defeat Johnson at the distance 4 50 but reduce by numerous seconds the mark made by the Eagle rider in the Harris cup 5.00 race. That much talked of trophy is now on exhibition in the window of R. Jamieson's book store.

HERE AND THERE.

GENERAL GOSSIP OF CURRENT EVENTS. A general meeting of the Wanderers Association football club is to be held this

everything that a pavement should be. Ceterials possesses excellent qualities for pav-

been successful . . . The porous nature of the blocks permits them to absorb a very large portion of the liquid filth which falls on the street, and this added to the dirt, droppings, etc., which lodge in the hollows between the worn blocks, and which ordinary street cleaning is powerless to remove, forms a mass of decaying, germ-breeding matter, not only offensive to the sight and smell, but injurious to public health. Speaking of paving brick, the report of the Bureau above referred to says: "Streets in some towns in continental Europe and England have been laid with brick for many years; but it is in the United States and within the last ten years that the reign of paving brick may be said to have begun. To show the extent of the favor to which it has already attained, it has only to be said that in September, 1893, there were in the United States, 139 manufacturing establishments in which street brick were made, 311 towns and cities in which brick pavements were in use. Some of these manufactories are of great West Virginia, nine; New York, sixteen; in Indiana, seventeen; in Iowa, twenty; in Pennsylvania, thirty-nine; in Illinois, forty-four; and in Ohio, fifty-six."

The testimony given in favor of brick as a Association, in a letter to the Bureau, dated 22nd March, 1894, is: "Vitrified brick for and it answers the purpose fully as well as heads, is an almost solid mass of mineral. granite. In my opinion it is the paving of He has been prospecting in the district for a will Another writer, writing in April, 1894, year, but says he never had the slightest be served and all the duties pertaining to says: "If the best quality of brick is used conception of the richness of the deposits that it is the cheapest and most durable pavement for the money that can now be pavement for the money that can now be obtained. Our cities are disgusted with wooden pavements when compared with ing; free gold is now visible in nearly every ing; free gold is now visible in nearly every brick, and granite and asphaltum are too expensive, as a general thing. The best brick, well laid, will make a payement as continues to improve and widen. The ledge heaviest traffic is carried on. It is easily heaviest traffic is carried on. It is easily gold in abundance. Assays from the Happy laid, or removed for repairs; is clean and Tom ledge, Starlight section, went \$20. A sweet as compared with wood, and not as slippery as asphaltum or granite, hor as noisy as granite.

The cost need not be much higher than for laying cedar blocks. Paving brick is made and sold in the United States at from \$9 to \$10 50 per thousand. If they were made and sold here at the same price, and there is no good reason why they should not, as there is abundance of clay to be found on who remained in town tightened their belts price of paving with cedar blocks and the brick pavement would be nearly equal. In brick pavement would be nearly equal. It takes from 60 to 64 bricks to lay a square yard of pavement, allowing for breakages. ALEXANDER BEGG, C. C.

ENCOURAGE HOME INDUSTRY.

To THE EDITOR :- The action of our Board of Aldermen in awarding a contract face, crossings assaying only \$2 to the ton.

The ledge is wide and the situation is contract face, crossings assaying only \$2 to the ton. keeping with the sentiments expressed by the voters who put these men at the head of should the rock improve slightly in quality If Victoria does not defeat Vancouver on Saturday it will be because Vancouver has the best team in the province of British Columbia, for Victoria will be represented by as strong a team as has this year entered the lacrosse field for the Western champion.

The voters who put these men at the head of our city for the time being. The aldermen may be able to explain their conduct to their own satisfaction, but what do our working men say? It seems very inconsistent for the stockeepers, the rest of the population having gone to the hills.

Ald. Macmillan (himself a working man) to vote the bread out of his fellow-workmen's mouths and the money out of the city. Ruth ship. Every member of it has practised mouths and the money out of the city. But night in and night out especially for this this is not the first time that he has proved contest, and disappointing as no doubt was himself antagonistic to the interests of the the postponement from last Saturday, it workingmen. If I remember correctly it was really a benefit to the home players who have found in the extra week's practice just were the equals of the white men, and he would oppose any measure prohibiting the sible trim. That this, the final match for employment of Chinamen upon public

Alderman Wilson spoke the truth when he said that no American city would send to a foreign country for what they could get at home. Victoria should take a lesson from our neighbors in this respect. There is too much money sent out of this city for Il strength it will justify their con-The Victoria team for Saturday and in many cases better. If the system of boycotting our own manufacturers and merchants is not sat upon before long, we will latter are as a rule have no need for aldermen. The sheriff and they are not individually as clever the Chinamen, with a few money lenders,

In other matches this season Victoria has invariably had a weak spot or two in the field, and has found it impossible to overcome the handicap; but in this final effort every place in the field will be well guarded, every opposing player watched by a man at least his equal, if not his superior. To win the championship of British Columbia, Vancouver must prove successful on Saturday, and as every indication points to the covated honor resting with New Westmin. day, and as every indication points to the covated honor resting with New Westminster, no one who can possibly attend the Caledonia ground on Saturday will miss the epportunity of seeing the Victoria lacrosse team vindicate the great opinion held of R N, commander of the Royal Arthur.

CLOSING IN.

time before those who do not understand it The Officers of the Law Hot on the Trail of J. C. Prevost.

> ter-Ashore on San Juan Island.

oils of the law are gradually closing been overhauled by a revenue launch near San Juan island, his boat had been seized

To THE EDITOR: -Some time ago I sent a that up to the present he had not intended short communication to the Colonist in favor of brick parement for the streets of Victoria, in which I pointed out some of its Prevost, but so much was now known from advantages, and stating that if made of outside sources that there was nothing now good material and properly laid, it is almost to be gained by withholding certain information. Up to Sunday the police had been dar block pavement, I notice, is proposed by the Victoria city council. In discussing the various kinds of pavement used in the city of Toronto, the government of Ontario
Bureau says: "For city streets, stone or gravel sets, asphalt and vitrified bricks are all in use, and each of these several ma. afternoon to Port Townsend by the Evangel boathouse for practice spins. The favorite course is along the harbor front to Deadman's and return. After the crew has hardened up a little, it is not unusual for the stroke to order a pull clear to the Gorge without a stop. Some of the coachers have experienced no little difficulty in initiating streets like Toronto it does not exceed four and had in company with another man left streets like Toronto it does not exceed four or five years. When traffic is light, another source of decay is in the blocks not being kent constantly moist, but being alternately Hussey that Prevost had been seen at Roche wet and dry they succumb to rot almost as soon as they would have done to the wear and tear of heavy traffic.

Harbor on Saturday evening last. This statement appeared to fit in with the report of Constable McKenna, and Sergt Langley and tear of heavy traffic.

The vast stretches of cedar block pavement which have been laid down in the city of Toronto cannot fairly be said to have been successful The porous na-Mr. Lipsett, already published, confirmed that from other sources. Yesterday word came as to the capture of Prevost's boat by the U.S. revenue launch, and the subsequent release of Prevost at San Juan. Supt. Hussey had no doubt this last news was correct, the probabilities being that the American revenue launch had seized the boat for infringement of the coasting laws in not having clearance papers. No word has yet been had of Prevost being captured, but it does not seem likely that he can escape, and indeed by this time

ALBERNI AGLOW.

his capture has likely been effected.

Free Gold Developed in Abundance in the Alberni Claim-Glorious News From Elsewhere.

General Stampede to the Hills-Offers for the Starlight Claim-The Rich Yellowstone.

ALBERNI, Sept. 3, via Nanaimo Sept. 4,-(Special)—A prospector just in from Minpaving material by Judge E. H. Thayer, of Clinton, Iowa, president of the Iowa Road cent discoveries there. Two new creeks have been found upon which large ledges of street paving is in general use in the West. | gold bearing rock exist. He thinks that For heavy traffic there can be no superior, McLaughlan hill, in which Mineral creek until a month ago. He left the Alberni claim this morning, and before leaving saw a shot put in at a depth of sixteen feet; is identical with the Alberni and shows free party of prospectors came in this afternoon from down the canal. They bring numerous specimens of sulphuret roof but no free gold. Every day brings its

day a young and its depressions. day a young Indian brought in specimens of quartz which he found not far least town; where he would not indicate. There was great excitement at once, and the few prospectors local assayer, showed neither gold nor silver, and the excitement died away. This morning a ledge was discovered within four miles of the town which shows a good width and is situated on the right bank of a large stream near a waterfall where sufficient power to run a dozen quartz mills may be had. The rock is of low grade on the sur-

pected to-morrow. A gentleman from Vancouver yesterday offered to bond the Starlight claim in the interest of a Vancouver syndicate. The offer being declined he proposed to buy outright, but the owners refused to named a figure, a Victoria and Seattle syndicate having previously secured control of the claim.

The Princess Louise arrived at noon with a heavy freight and twenty passengers, and left for Clayoquot two heurs later. The Nanaimo stage, filled with prospectors, arrived at lo'clock. There is nothing later from the mines except that a new stream, named Bledsoe creek, with indications of quartz on its banks, has been discovered in the Yellowstone district.

Which is the worst, imprisonment for life or a life long disease, like; scrofula, for example? The former, certainly, would be preferable were it not that Ayer's Sarsaparilla can always come to the rescue and give the poor sufferer health, strength, and happiness.

BIRTH.

EVANS—In this city, on the 1st inst, the wife of H. H. Evans, of a daughter. MARRIED.
