The Sale of Housefurnishings Starts Monday

The display of February House Furnishings represents our best efforts so far in getting together such values that customers we are sure will admit are the best they have ever seen. The buyer of our Furniture Section spent considerable time in the East visiting the manufacturing firms just six months ago, when the depression was being felt very much, and orders, especially Furniture orders, were very much wanted. We then placed some very large orders, both from Victoria and Vancouver, to special advantage, in fact many firms were glad of the opportunity to operate their factories and keep their men together even at absolutely no profit to themselves. We offer in addition to this stock \$18,000 worth of furniture just arrived at wonderfully low prices.
