FARMAN WINS GRAND PRIZE

English Aviator Unexpectedly Beats All Others for Endurance

Bethany Aviation Field, Rheims, Aug. 27.—Henry Farman, the English aviator, a dark horse in the aviation contests, in a bi-plane of his own design, today broke the world's record for duration of flight and distance in a heavier-than-air machine, and won the Grand Prix de la Champagne, the endurance test, by a remarkable flight officially recorded as 180 kilometres, or 111.78 miles, in three hours 40 minutes, 56 3-5 seconds, although he actually covered an extra ten kilometres and remained in the air ten minutes after 7:30 o'clock this evening, the hour when the timekeepers under the rules ceased to keep a record of the flight.

The other contestants finished in the order named:

Hubert Latham, in monoplane No. 29, 154 kilometres, 50 metres. Time 2 hours 18 minutes 9 3-5 seconds.

Louis Paulham, in a Voisin bi-plane 131 kilometres.

Count de Lambert, bi-plane, 116 kilometres.

Hubert Latham, in monoplane No. 13, 111 kilometres.

M. Tissandier, bi-plane, Roger Sommer, bi-plane; M. Delagrange, monoplane; M. Bleriot, monoplane; Glenn H. Curtiss, bi-plane, 30 kilometres; R. M. Lefebre, bi-plane.

Although Hubert Latham with a different machine, took 2nd and 5th positions, the aviation committee held that he was ineligible for two prizes, and awarded the fifth to M. Tissandier and the sixth to M. Sommer.

Farman's victory came as a complete surprise. He had been preparing his machine secretly, and had not appeared on the field until today, except for a practice flight, and had been almost forgotten. Indeed, after he started about 4:30, keeping close to the ground, while Latham and others were soring in spectacular fashion high in the air, Farman attracted no attention until he had flown eighty kilometres. Then suddenly the watchers discovered that he had gone out carrying petrol enough for a five hours' flight, and equipped with a self-cooling revolving motor built after his own design.

All eyes had been riveted on the monoplane of Latham, who, after Tissandier's foul of Paulham in the morning had ended Paulham's chances, and had become the favorite for the cup of the Grand Prix de la Champagne. They also had watched the changing picture unfolding above the sunlit plain of Bethany, white-winged manbirds circling and wheeling in a genuine race for five miles between two biplanes and Latham's soaring monoplane, and finally the arrival of the two huge dirigibles which evoluted like great giants of the air before the fleet nimble machines in the lower strata.

Trouble with his ignition plug forced Latham to descend after he had covered 111 kilometres, and Tissandier came down after accomplishing identically the same distance. The others had ended their efforts earlier, and only Farman continued. Round after round he went as regularly as clockwork, always hugging the ground. Record after record fell before his methodical flight. Darkness fell and lanterns were hung on the poles marking the limits of the course. The searchlight from the grand stand could not pierce the gloom. A dozen automobiles raced to strategic points to make sure that Farman was still in the air.

Finally at 7:30 o'clock the announcement was made that the timing of the aeroplanist had ended under the new rules. Ten minutes more and suddenly out of the darkness a ghostly thing appeared in front of the tribune and came to earth on the starting line.

A great cheer arose. Minister Millerand, in the name of the French government, congratulated Mr. Farman. "I do so," said the minister, "not only for the wonderful achievement you have reached, but as a brave man and for the example you have set for others."

Curtiss just before dark made the fastest lap he has yet accomplished, his time being 8 minutes 9-15 seconds. M. Bleriot, with a big engine in his repaired machine, also made a fast trial, showing that the contest for the international cup lies between them.

Sentence For Stabbing.

Ottawa, Aug. 26.—A sentence of two years' imprisonment was this morning passed upon Daniel Cameron by Magistrate Goyette, of Hull. Cameron was found guilty of stabbing Chas. Augmond seven times.

Mounted Police Not Asked For.

Ottawa, Aug. 26.—No request has been received by the Indian department here to despatch mounted police to Northern British Columbia, where bands of Indians are reported to be causing trouble.

Brooklyn Babies Afflicted.

New York, Aug. 26.—More than two hundred children in a limited district of Brooklyn have been stricken within the past few days with a form of infantile paralysis. Not even the healthiest children are immune from the epidemic, and the bottle-fed babies seem the most susceptible. Although the disease does not appear to be fatal, physicians believe that many of the victims will be crippled for life.

Lawyer Assaulted in Court

Vancouver, Aug. 26.—W. Pollard Grant, a former Victoria lawyer, appeared today before Judge McInnes and sharply cross-examined Mrs. R. Farrell, a witness in an assault case. The woman was in some distress and fainted. Mr. Grant rushed forward with a glass of water, but before he could reach the woman her husband stepped up and dealt Grant a stinging blow with his fist. Farrell was immediately carried from the courtroom by the police. Later the Judge reprimanded Farrell, and at Grant's suggestion allowed him his liberty.

Knocked Down by Car.

Vancouver, Aug. 26.—E. Carlson, a laborer, who lives at 321 Westminster avenue, was bowled over at 8:30 o'clock last night by a Davie street car as it passed Hastings street. Carlson was knocked to one side, and lay on the pavement where he fell. By the time assistance reached the spot he got to his feet again, and was able to go to his room. His injuries amounted to only a severe shaking up and slight bruises. Carlson blames himself for the accident.

E. H. HARRIMAN IN ISOLATION

Great Pains Taken to Exclude All Inquiries as to His Condition

Arden, N.Y., Aug. 27.—Whatever E. H. Harriman's ailment, whatever his true condition, the public is not to know until he and his family decide that such an announcemet is opportune. He is an isolated invalid, with the nature of his affliction held a mystery to those outside his mountain retreat at the top of Tower Hill, where the funicular railway stops. With the roads picketed by guards and all but one telephone wire, and that a private one, severed, he spends his days and nights in a seclusion that is almost absolute. Scraps of news dropped from the lips of a relative, an associate and an employee indicate that he spent a quiet day, part of it outdoors, but there were other incidents which led those who are draining the meagre channels of information to believe that all is not so well.

There was the arrival at the station at Turner of two tanks recorded on the bill of lading as oxygen, and shortly afterwards there came a small collapsible cot, such as is used in hospitals to move patients between wards. Both were placed in automobiles and later sent up the incline railway to the estate.

Coincident with the arrival of these requisites of an operation came two men from New York, one of them carrying what appeared to be the black bag of a surgeon. They were taken up the incline to the house, and rumors that Mr. Harriman was to be operated upon quickly spread broadcast. One of the men, according to popular rumor, is Dr. Geo. W. Cecile, of Cleveland, Ohio, an eminent specialist in abdominal surgery, who, according to report, was summoned from Breton Woods, N.H., to assist Dr. W. G. Lyle, of New York, who has been Mr. Harriman's physician throughout his illness.

All this gave strong color to the assumption that there was to be an operation at Tower Hill, but of this no confirmation is to be had tonight. Dr. Lyle declined to make any comment whatever, as did former Judge R. S. Lovett, general counsel for the Harriman lines, who has been with his chief daily; but when Robert L. Garry, of New York, Mr. Harriman's son-in-law, descended the incline railway this afternoon, he talked at some length. He said: "I have just left Mr. Harriman sitting on the porch talking to some of his workmen. He has spent a good part of the day out there in the air."

Mr. Garry denied that an operation was to be performed, and said that Dr. Lyle was the only physician in attendance. C. T. Ford, superintendent of the estate, confirmed Mr. Garry's statement about Mr. Harriman's sitting on the porch. At intervals throughout the day he had appeared on the porch, he said, and had talked with the head mason and others at work on an unfinished part of the estate.

"The stories that Mr. Harriman is in a critical condition are not founded on fact, in my opinion, said Mr. Ford. "He has a firm grip when he shakes hands, and seems brighter. He is in competent hands, with Dr. Lyle and Judge Lovett, and while it is not my place to make statements, I believe he is suffering from a natural breakdown from overwork and will rally up here with plenty of rest and good food and be about again as usual after a while."

Judge Lovett was urged to say something concerning Mr. Harriman's condition, but he replied: "I have decided to say nothing, no matter what is published. I don't wish to appear discourteous, but I deem it best to keep silent."

Mr. Ford, the superintendent, deprecated the significance of the arrival of the tanks supposed to contain oxygen.

Vacant Commissionership

Ottawa, Aug. 26.—Several names are mentioned in connection with the position of commissioner of the Transcontinental railway left vacant by the death of Robert Reid. Friends of Wm. Hutchinson, exhibition commissioner, would like to see him back in Ottawa, and are suggesting his name. Others mentioned are W. S. Calvert, M. P., Lieut.-Col. Thompson, ex-M. P. for Haldamand, and Robt. Stewart, ex-M. P., of this city. It is expected that an appointment will be made before long.

No Luxuries for Thaw.

Albany, N. Y., Aug. 27.—Harry K. Thaw, who is protesting against his treatment in the Matteawan state hospital for insane criminals, will receive no treatment different from that accorded to patients of the same sort, according to Superintendent Collins, of the state prisons department. The changed conditions prescribed for Thaw by Justice Mills, it was pointed out by the Matteawan officers, were contrary to their rules of discipline. Superintendent Collins states that Thaw will be under exactly the same regulations in Matteawan as those provided for the other patients.

"Nothing in it"

London, Aug. 27.—"There is nothing in it," replied a Grand Trunk Railway official today when told of the rumor in Canada that Messrs. J. J. Hill and J. P. Morgan were endeavoring to secure control of the Grand Trunk Railway.

Mr. Brodeur to be Knighted.

Ottawa, Aug. 26.—It is understood here that for his work in connection with the scheme of naval defence Hon. Mr. Brodeur will be recommended for knighthood in the next batch of King's birthday honors.

WANTED—Small acreage near city for market garden. Chidley G. P. O. a28

FOR SALE—Good general purpose mare. Also young driving horse. 828, Colonist. a13

NOTICE

SIXTY DAYS after date I intend to apply for a lease of the foreshore rights appertaining to Lot 37 of the Garbally Estate, Victoria District.

GEORGE E. SMITH.

Just What You Want

It means a lot to a man to find just the Suit or Overcoat he wants—the right style, pattern and material—without a long and tiresome search.

This is one reason why so many come to the Fit-Reform Wardrobe.

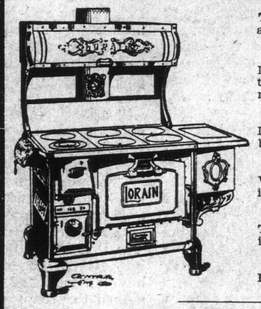
They know they will find what they want, in the splendid assortments shown here.

New Fall Styles in Suits and Overcoats $15 up

FIT-REFORM

ALLEN & CO.
FIT-REFORM
1201 Government St., Victoria, B. C.

Lorain Steel Ranges



The TOP is right.
The fillers and lids are extra heavy, and well braced with ribs to prevent warping.
The FIRE BOX is right.
It is particularly heavy, and is ventilated, which gives it long life. Remember the fire box is the heart of a range.
The OVEN is right.
It is made in one piece, cannot buckle. It is air and soot tight, consequently a perfect baker.
The NICKEL WORK is right.
We studied long to make it so. It is plain and smooth, easily kept clean, and is rich in appearance.
The LEGS are right.
They give dignity to the range, taking away the squat, ugly appearance of a floor range.
It's ALL all right.
Right in material. Right in workmanship. Right in price.
