CHICAGO GRAIN AND PRODUCE.
Fluctuations in the Chicago grain and produce markets, as received by John J. Dixon & Co., are as follows:

John J. Dixon & Co., Canada Life Assurance Building, received the following despatch over their private wire from Counselman & Day of Chicago: Wheat opened \(\frac{1}{2} \) lower. The fear that the Western storms might be followed by cold enough weather to retard the already late spring crop caused a desire among shorts selling to secure profits and induced some buying for long account after 1\(\frac{1}{2} \) davance. Public cables came in weak and July broke to 99\(\frac{1}{2} \) again, with considerable local shorts selling after noon. New York reported 30 loads of wheat worked for export from the e., of which \(\frac{1}{2} \) do were for immediate loading. Mysterious mention of sharp late advances in French markets on bad weather lacked authentic action or quotations. Market finally closed 1\(\frac{1}{2} \) over yesterday, and just above privileges. Those who sold calls against long wheat seemed pleased, and those who did not sold wheat off \(\frac{3}{2} \) came who sold calls against long wheat seemed pleased, and those who did not sold wheat off \(\frac{3}{2} \) care true close. Corn and oats were depressed by enormous liquidation and suffered respective losses of \(\frac{3}{2} \) sand \(\frac{3}{2} \) of the day. Receiving houses expect very heavy arrivals of corn during next two weeks and we look for further decline. Provisions were without interesting features, except liberal trading on both sides by local parties. Bears made several attempts to start outside selling, but falled get to much stuff on the break.

EPPS'S COCOA

BREAKFAST.

"By a thorough knowledge of "e natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocca, Mr. Epps has provided our breakfast tables with a delicately flavored, beverage which may save us many heavy doctors bills." It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundrods of subtle maladies are floating around us ready to attack wherever there is a week point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished fraime."—Civil Service Gazette.
