

## FREE ADVICE TO SICK WOMEN

Thousands Have Been Helped  
By Common Sense  
Suggestions.

Women suffering from any form of female ills are invited to communicate promptly with the woman's private correspondence department of the Lydia E. Pinkham Medicine Co., Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence. A woman can freely talk of her private illness to a woman; thus has been established a confidential correspondence which has extended over many years and which has never been broken. Never have they published a testimonial or used a letter without the written consent of the writer, and never has the Company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which they have to draw from, it is more than possible that they possess the very knowledge needed in your case. Nothing is asked in return except your good will, and their advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass.

Every woman ought to have Lydia E. Pinkham's 80-page Text Book. It is not a book for general distribution, as it is too expensive. It is free and only obtainable by mail. Write for it today.

## NOTE AND COMMENT.

An enterprising Washington caterer adds to his income by renting ornamental cakes for wedding ceremonies. The fee is regulated by the number of stores, the lessee going as high as he likes.

In Denmark any person found drunk by the authorities is placed in a cab, taken to the police, examined by a doctor, and then sent home in a cab. The next day a bill for the doctor and cab is sent to the publican who served the victim with his last drink.

A woman editor in Chesaning, Michigan, complained bitterly of the lack of protection to women on the streets, and the council appointed her marshal of the place. Of course they expected her to refuse the post and they could then have made sneering remarks, but to their dismay she promptly accepted, and is now busy "cleaning up."

People who know, affirm that wireless telephones will be the next

utility and will work on land as well as wireless telegraphy at sea. The next ten years will doubtless unfold many mysteries to the inhabitants of this mundane sphere. We will wonder why we never thought of them years ago when we observe their simplicity. It is a great privilege to live in the 20th century and the citizenship should rise to correspond with present day advantages and opportunities.

## This Town's Best Salesman

No merchant or manufacturer with an honorable proposition to put to the people of this section can find a better salesman than the advertising columns of this newspaper. It is a weekly visitor into the best homes. The people have confidence in it. Many of them regard it in the light of an intimate personal friend.

They believe, and properly, that it would not introduce them to anyone not worthy of a hearing.

They turn to its advertising when they are in need because they are finding it profitable to do so.

They prefer to deal with its advertisers because they have more confidence in the men who advertise than in those who do not.

They are in what might be called a receptive mood—are, as our Missourian friends would say, "ready to be shown."

The man with goods to sell to the people of this section should choose the best salesman to be found, the one with an entry into the best homes—the advertising columns of this newspaper.

## Plum Culture in Canada

The subject of plum culture is treated in a bulletin of 72 pages issued by the Department of Agriculture at Ottawa.

The information presented has been largely derived from the experience gained in connection with plum growing at the Central Experimental Farm during the past twenty-five years.

In this bulletin, information is given as to the best methods of preparing soil for a plum orchard. With particulars also as to the planting and subsequent care of the trees. Instructions are given as to methods of pruning, grafting, and on many other topics relating to this branch of fruit industry. Lists of varieties of plums suitable for planting in different parts of Canada are given with descriptions as to the character, quality and time of ripening of each sort.

Some of the insects and diseases to which the plum is subject are also referred to and methods of treatment suggested.

This bulletin which was prepared by W. T. Macoun, Dominion Horticulturist, is No. 43 of the Experimental Farms, and is available to those who write for it to the Publications Branch, Department of Agriculture Ottawa.

## Wake Up, Mr. Merchant

(The Exeter Advocate)

St. Marys merchants are busy through their local papers showing the people how to take advantage of the parcel post in their dealings, and it is having a great effect on the business done by the merchants of the town. Kincardine and other towns are going likewise. They believe in getting after the trade.

The merchants there are good advertisers. What is the matter with the Exeter merchants? Do they not believe in getting after that great trade which is going to be stimulated by the parcel post system? Let them wake up if they want it before some other town captures the trade? The merchants of Exeter should not try to run their businesses like a country corner grocery would.

## Advances in a Century

A century ago a man could not take a ride on a steamboat.

He had never seen an electric light or dreamed of an electric car.

He could not send a telegram.

He couldn't talk through the telephone and he had never received a typewritten communication.

He had never heard the germ theory nor worried over bacilli or bacteria.

He never looked pleasant before a photographer or had his picture taken.

He never heard a phonograph talk or saw a kinoscope turn out a prize fight.

He never saw through a Webster's unabridged dictionary with the aid of a Koenigstein ray.

He had never taken a ride in an elevator.

He had never imagined such a thing as a typesetting machine, or a type writer.

He had never used anything but a wooden plow.

He had never seen his wife using a sewing machine.

He had never struck a match on his trowsers or anything else.

He couldn't take an anesthetic and have his leg cut off without feeling it.

He had never purchased a ten cent magazine which would have been regarded as a miracle of art.

He could not buy a paper for a cent and learn anything that had happened the day before all over the world.

He had never seen a mechanical reaper or a self binding harvester.

He had never crossed an iron bridge.

## A BETTER REMEDY THAN NASTY SALTS

Few people like to take physic, especially salts, because they are so disagreeable to take and because of the griping and pains they cause. Rexall Orderlies enable you to take less physic, and all without griping, purging or excessive looseness. Salts and harsh physics usually give only temporary relief and often leave the bowels worse off than before.

Rexall Orderlies move the bowels promptly, and soothe, tone and strengthen the intestinal muscles, leaving them healthy and regular in action. They taste like candy, and the movement they cause is as easy and natural as though your bowels were in perfect health, and you never had to take any physic at all. We have so much faith in Rexall Orderlies that we urge you to try them with understanding that, if they do not satisfy you in every way, all you have to do to get your money back is to tell us. We honestly believe them to be the best bowel remedy yet.

In every pocket tin boxes, 10c, 25c, 50c.

You can buy Rexall Orderlies only at The Rexall Stores, and in this town only of us.

J. W. McLAREN, Watford.

In Plympton, on Thursday, Feb. 19th, 1914, Mrs. Daniel McFeil, aged 56 years.

## A MESSAGE TO WOMEN

Who are "Just Ready to Drop."

When you are "just ready to drop," when you feel so weak that you can hardly drag yourself about—and because you have not slept well, you get up as tired out next morning as when you went to bed, you need help.

Miss Lea Dumas writes from Malone, N. Y., saying: "I was in a bad run-down condition for several weeks but two bottles of Vinol put me on my feet again and made me strong and well. Vinol has done me more good than all the other medicines I ever took."

If the careworn, run-down women, the pale, sickly children and feeble old folks around here would follow Miss Dumas' example, they too, would soon be able to say that Vinol, our delicious cod liver and iron remedy, had built them up and made them strong.

It is a wonderful, strength creator and body-builder, and we sell it under a guarantee of satisfaction. You get your money back if Vinol does not help you.

Millers Worm Powders are par excellence the medicine for children who are found suffering from the ravages of worms. They immediately alter the stomachic conditions under which the worms subsist and drive them from the system, and at the same time, they are tonic in their effect upon the digestive organs, restoring them to healthful operation and ensuring immunity from further disorders from such a cause.

At a sparrow killing contest in which 50 farmers in the vicinity of Kossuth, Waterloo Co., were engaged, they succeeded in shooting or trapping 1431 of the little pests. There are several thousand of the grain eating birds in this vicinity and a contest between a number of farmers and gardeners should help to reduce the number of birds and increase the yield.

Alisa Craig has two old gentlemen over 90, who step about town like colts.

## CHOP STUFF.

The young son of John Lee, Wyoming, fell on the ice and dislocated his shoulder.

E. E. Boulton has purchased the old established Ray photograph business in Strathroy.

Frank Smith, the Chatham negro, will be hanged in May for the murder of James Conyers, last fall.

Strathroy has probably the oldest councillor in Ontario, in the person of James Bowly, who is in his 87th year.

Mrs. Janet Grieve, the oldest resident of Petrolia, died in her 95th year, last week, the result of a fall several weeks previous.

Joseph Christie, aged 90, first postmaster of Tecumseh, died Friday morning at the home of his son, Alexander, Detroit.

The managers of the Forest Presbyterian church have bought the residence of Mrs. George Walters, adjoining the church. Price \$3000.

The hen of today is petted and coaxed. The hen of bygone days got kicked out of the barn when she was looking for a place to lay an egg.

The new \$15,000 Methodist church, at Cottam, was dedicated on Sunday last, Rev. W. G. H. McAlister, President of the London Conference being in charge of the ceremony.

On Monday afternoon the house of Mr. Cyrus Nutt, Sylvan, together with the contents, were destroyed by fire. Mr. Nutt was away from home when the fire broke out.

Clarence Hodge, an employee of Heath's planing mill, Wallaceburg had his left hand completely taken off by coming in contact with the knives of a planer which he was operating. The unfortunate workman was feeding lumber into the planer with the right hand, and with the left he endeavored to brush away some shavings from in front of the revolving knives. He wore a mitt on the hand, and it caught in the knives, the hand being drawn in and chopped off as far up as the wrist.

Corns and warts disappear when treated with Holloway's Corn Cure without leaving a scar.

## Limit Now Eleven Pounds

Ottawa, March 5.—The 11-pound limit of weight for the Canadian parcels post was put into effect to-day.

The restriction to six pounds for each package accepted for transmission by parcels post during the months of February, March and April has been removed.

The order that has gone forth from the post office department, also eliminated the additional fee of 5c to be prepaid by postage stamps on each parcel mailed for local delivery in places where the letter carrier system is in operation.

The insurance of packets does not become operative until the first of May, as at first set forth, and in the meantime packets of the parcels post may merely be registered.
