

Good Blood

Is essential to health. Every nook and corner of the system is reached by the blood, and on its quality the condition of every organ depends. Good blood means strong nerves, good digestion, robust health. Impure blood means scrofula, dyspepsia, rheumatism, catarrh or other diseases. The surest way to have good blood is to take Hood's Sarsaparilla. This medicine purifies, vitalizes, and enriches the blood, and sends the elements of health and strength to every nerve, organ and tissue. It creates a good appetite, gives refreshing sleep and cures that tired feeling. Remember,

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier. Hood's Pills cure Liver Ills; easy to take, easy to operate. 25c.

WATFORD, JULY 9, 1897.

VOICE OF THE PRESS

Camp meetings, which used to be a great feature in the early days, have not been much in evidence of late years, and many Sarnia people got their first view of a camp meeting by visiting the recent gathering of the Free Methodists in Lincoln park. It was a quite a novel scene. The white tents scattered about under the trees on the pretty grove, the picketed horses, and the leisurely ways of the campers; was something quite out of the run of ordinary work-a-day life; and at night the grove lit up with lanterns that make the shadows blacker; the prayer tent, crowded with a throng of people, some excited and anxious, some simply curious, with the earnest exhorters working here and there among the crowd, and the singers breaking out every once in a while with a verse of a hymn, the scene was strange and picturesque. Whether the manifestations are really due to outpourings of the spirit or are only form of hysteria is a matter of opinion, but evidently there was an influence of some kind acting on some of the penitents with very powerful effect. One of the speakers, in his denouncing of the wicked ways of the world, had much to say about the evil influence of pic-nic parties. That seemed very curious, because to an outsider it appeared if the camp meeting people were having a very pleasant pic-nic themselves.—Canadian.

Timely observations by the New Post: "We are perhaps inclined in this country to look on the Dominion of Canada as somewhat of a laggard in material progress, at least according to own standard. The Queen's Jubilee, however, has caused the Canadian Magazine to present some statistics of its growth in trade and population which are sufficiently impressive. Sixty years ago the total trade of all the colonies now constituting the Dominion of Canada amounted to over 29 million dollars. In 1895 the value of this trade was returned at 224 millions, an increase of 671 per cent. There have been no very sudden advances, but a gradual, steady growth, that indicates the existence of sound conditions. In 1850

there were scarcely fifty miles of railroad in the country; in 1860 there were but nineteen hundred miles; but in 1895 there were about sixteen thousand miles. Population has increased from a trifle over one million in 1837 to about five millions at the present time. If the policy of the Government has been frequently short-sighted and extravagant, it must be remembered that a sound system of banking and currency confers advantages on a country that offset many abuses. Now that some of the hindrances to commerce are in the way to be removed, we may be prepared to behold advances in Canadian commerce that will cause our people to insist on similar reforms.

England is the master wherever she puts down her foot. She is proud of her strength and glories in her power. As the Romans marched over the earth and conquered wherever they marched, so England sails over the sea with the largest and strongest fleet that floats, and she conquers, if not by arms, by commerce, and she turns the tide ever back towards the little island.—Cleveland Plaindealer.

Peach. Rot.

A Government Inspector going through the peach district of Essex county has found that an orchard in the vicinity of Ruthven is almost totally ruined from Manilla, or peach rot. The disease affects the limbs of the trees first, and in the course of two years the tree dies. The only way to prevent disease is by cutting off the limbs as soon as it is noticed that they are affected. He thought that the disease had been brought into the country by the importation of trees, and he has asked the government to prohibit the importation of all young trees which have symptoms of the disease. He has also paid a visit to the Niagara district, and the pest was found more prevalent there than in Essex county.

A Victim of Misplaced Confidence.

A Detroit detective played a very sharp game at Port Huron last Friday. A young man named Punk had committed a number of offences at Brown City, Mich., and had skipped to Canada before he could be arrested. A Detroit detective was set on his track, and located him near Bradshaw, where he was working on a farm. The detective wanted to get him without the trouble of extradition proceedings; and having learned that Punk corresponded with a young woman at Brown City, the detective wrote a letter purporting to come from the young woman, asking Punk to meet her at Port Huron. Punk swallowed the bait and on the day mentioned he procured a horse and rig from a Mr. Petit, of Bradshaw, and drove to Sarnia with the expectation of meeting his lady friend in Port Huron. The horse and rig were stabled at a town stable while Punk journeyed across the St. Clair. When he stepped onto the wharf at Port Huron, instead of being met by his lady friend, he was greeted by an officer of the law who arrested him and took him to Detroit.

The Head Master.

GENTLEMEN,—I have found great satisfaction in the use of Dr. Fowler's Extract of Wild Strawberry, and consider it invaluable in all cases of diarrhoea and summer complaint. It is a pleasure to me to recommend it to the public.

Principal High School,
River Charles, N. B.

A Wonderful Ship.

One of the most remarkable inventions of the nineteenth century will soon be given a practical test in Lake Ontario. It is what might be called a roller ship, the invention of F. A. Knapp, of Preston, Ont., by means which he claims it is possible to cross the Atlantic in 48 hours. This experimental boat is being constructed at the Polson ship yard in Toronto, and is 110 feet long by 22 feet in diameter. As viewed on the docks the boat appears to be nothing but a huge boiler and one becomes almost incredulous when informed that it is intended for a ship. The structure consists of an immense cylindrical paddle wheel inside of which is another cylinder which is joined to the outside or revolving portion by ball bearings. By means of Engines placed in the inner portion of the outside cylinder, the vessel will be made to revolve rapidly while the inside cylinder retains its equilibrium. The trial will probably be made about August 1st, and is being looked forward to with intense interest by a large number of persons.

WONDERFUL.

Piles Cured in 3 to 6 Nights—Itching, burning skin Diseases Relieved in one day. Dr. Agnew's Ointment will cure all cases of itching piles in from three to six nights. One application brings comfort. For blind and bleeding piles it is perfect, also cures tetter, salt rheum, eczema, barber's itch and all eruptions of the skin. Relieves in a day. 35 cents.

WESTERN ONTARIO.

The \$3,000 improvements to Windsor Market will be completed Oct. 1.

The store of Emory Poustel & Co., Port Burwell, was entered by burglars on Sunday night. The safe was blown open and \$15 or \$20 in silver taken. There is no clue to the burglars.

A prisoner named James May escaped from the jail yard at Simcoe on Saturday evening. A party of 50 men have been searching the country for him, but so far he has eluded capture.

To prevent pale and delicate children from lapsing into chronic invalids later in life, they should take Ayer's Sarsaparilla together with plenty of wholesome food and outdoor exercise. What they need to build up the system is good red blood.

The William Heaton farm, on the town line of Colchester South, containing 140 acres, was offered for sale at the postoffice, Harrow, and was bought by Henry Heaton for \$2,600.

The Natural Gas and Oil Company have struck a new gas well on the farm of Thomas Quick, in Mersea, at a depth of 1,020 feet. The well is within a mile of the company's present pipe line.

Have you tried Holloway's Corn Cure? It has no equal for removing those troublesome excrescences, as many have testified who have tried it.

The village postoffice at Marden was broken into between Saturday night and Monday morning, and Mr. McDonald has lost \$80 in cash and \$7,000 in debentures of the Ontario Loan and Investment Society.

Mr. Charles E. Davis, jeweler and druggist, Chicago, fifth son of Mr. W. H. Davis, Mitchell, was married recently to Miss Marian Boyde, La Porte, Ind. Mr. and Mrs. Davis will shortly pay a visit to Mitchell.

Tuesday morning the Queen vs. Lafferty, a case of seduction brought against Charles Lafferty, of Andover, by Clara Martin, of Sandwich West, occupied the attention of the court at Sandw. The case was dismissed by Judge Horne before hearing the defense.

BURDOCK PILLS do not gripe or sicken. They cure Constipation and Sick Headache.

A little girl of Mr. Thomas Chesley's, on the 6th, Peel, was severely stung a few days ago on the back of the head and neck by bees, which threw her into a comatose state, and she is pretty badly affected. However, it is thought she will fully recover in a few days.

There was great fishing in Miller's pond, Woodstock, on Monday afternoon. The pond was drained, leaving the fish struggling in the mud. A number of boys and men gathered large pans full of all sizes, among them being a carp weighing ten pounds, and a pike eight and a quarter pounds.

An attempt was made Monday night to set fire to the Huron House, Point Edward, now occupied by Wm. Eayers. The fire was started in the back part of the house, with some old waste, but was noticed by Mrs. Eayers, who was out in the yard. The fire was extinguished before any damage was done.

The Medicine for Liver and Kidney Complaint.—Mr. Victor Auger, Ottawa, writes: "I take great pleasure in recommending to the general public Burdock's Pills, as a cure for Liver and Kidney Complaint. I have doctored for the last three years with leading physicians, and have taken many medicines which were recommended to me without relief, but after taking eight of Burdock's Pills I was quite relieved, and now I feel as free from the disease as before I was troubled."

At the last meeting of Sarnia town council Mr. Proctor gave notice of bylaws to fix assessment of G. T. R. for 20 years, and of exemption on buildings to be erected for a similar term of 20 years. Also that the bylaw regulating the rate for water consumed by the G. T. R. be extended for 20 years.

At a congregational meeting held in Deer Park Presbyterian Church, Toronto, a unanimous call was extended to the Rev. A. A. Graham, B. A., of Glenora, at a salary of \$900.

The death took place on Sunday, June 27th, of Mr. Malcolm S. Campbell, at his late residence, on St. Catharines. His death was due to consumption, from which he had been a sufferer for some time. He was a son of the late Malcolm Campbell, and was in his 48th year at the time of his death. He was married about nine years ago.

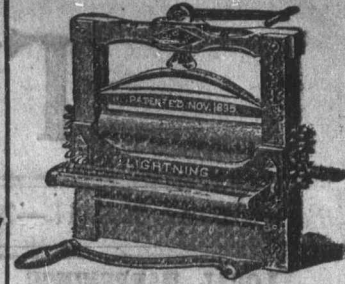

While H. F. Jell, barrister, of Rodney, was obtaining a horse, the other night his horse was seized and stopped by some highwaymen. But the robbers were unable to secure any plunder, as Mr. Jell whipped up his horse, which suddenly broke loose from the person who was holding it. Nothing has been heard of the would-be thieves.

The Grand Trunk is about to settle a large sum of money upon Harry Ryan, of Port Huron, in lieu of the weekly allowance he has been receiving. Four years ago, when he was running a train from Battle Creek the fire blew out of the firebox into his face, burning him terribly. He stuck to his post and stopped the train, but was crippled so he can do no work. Mr. Ryan has a medal for his bravery at the time of the Emmet wreck, six years ago, when he also stuck to his post and saved the lives of all on the train.

A LITTLE SAVED.—Mr. James Bryson, Cameron, states that "I was confined to my bed with inflammation of the lungs, and was given up by the physicians. A neighbor advised me to try Dr. Thomas' Eucalyptic Oil, stating that his wife had used it for a throat trouble with the best results. Acting on his advice, I procured the medicine, and less than a half bottle cured me; I certainly believe it saved my life. It was with reluctance that I consented to a trial, as I was reduced to such a state that I doubted the power of any remedy to do me any good."

Frederick Ford, a young English waif, about twenty years of age, was before Crown Attorney Ball, at Woodstock, charged with the theft of a bicycle. Ford worked for Fred Williamson, in Blenheim—

Notice THE REASONS Why

The Lightning Wringer is the Best Made.

1st.—It has no thumb screws to become rusty and be a great source of annoyance as on other wringers.
2nd.—The rolls being automatically relieved when not in use, there is no wear on wringer except when in actual use.
3rd.—It is constructed from the finest of material and every one guaranteed to be perfect. And several other reasons too numerous to mention. Just call and see the eavetrough our new machine makes, different from what factories make. Also for furnace, roofing, cornice and all kinds of job work.
Our display of Pumps and all the fixtures for pipes, and for Harvest Tools, Garden Tools, Wire, Nails we lead.

10,000 Dozen Eggs Wanted in exchange for goods.

W. J. HASTINGS.

See For Yourself

Have you seen our stock of Dinner, Tea and Toilet Sets, we have a fine assortment. We have also a large shipment just arrived of Dinner, Tea and Toilet Sets which cannot be equalled in town. We carry the largest stock in town.

AS TO TEAS,

It is not necessary for us to say anything, as the quality and price of our teas speak for itself as we buy the best in the market and consider ourselves qualified to judge between poor and inferior grades and that of superior quality. Our stock of Groceries are always fresh and the best in the market. Builder's Hardware, Paints, Oil, Granite Goods, Tinware and Dairy supplies at lowest prices.

N. B. HOWDEN

the same place at which Conway's victim, Geo. Frost, was formerly employed. Another employee was George Nash. Nash owned a bicycle, which Ford took. He sold it to another party, and when arrested acknowledged the corn. Ford was sentenced to two months at hard labor in the county jail.

Few medicines have held their ground so successfully as Ayer's Cherry Pectoral. During the past fifty years, it has been the most popular of all cough-cures and the demand for it to-day is greater than ever before. Prompt to act and sure to cure.

The township of Metcalfe has lost another old and respected citizen in the person of Henry Monger, lot 13, con. 5, at the advanced age of 72 years. He was born in Vermont, and, with his father and mother, he came to the place where London now stands in 1832. Here he was taught the pottery business, and a few years subsequently was married to Hulda, daughter of the late George Norton, of Westminster. He lived for many years in Adelaide, carrying on the pottery business, and for seventeen years he carried the government mail.

To DESTROY WORMS and expel them from children or adults use Dr. Low's Worm Syrup.

No Prosperity In Sight.

President McKinlay was described as the advance agent of prosperity, and his friend, Senator Mark Hanna, was set down as business manager, but the production itself has not yet been put on the boards.

With the election of the Napoleon of Tariff as president, the United States was to recover from its long period of stagnation, business was to revive, manufacturers to resume work, and there was to be no more unrest and poverty.

This glorious time has, however, not yet dawned, but instead, the miners of five states are about to go on strike, glass factories have been closed, tin mills shut down, and big iron and steel firms are cutting wages, one of them, by the way, being headed by a leading Republican boss. From all parts of the republic come complaints of continued depression, and it is evident that the United States is still in the wilderness into which its gambling politicians have led it.

Pa Had His Crown.

"And now, little children," said the Sunday school superintendent, "if you are good children, some day you may wear a golden crown." "Paw's got one on his tooth now," chirped the smallest and newest boy.

CASTORIA

For Infants and Children.

The fine little signature of *Dr. H. H. H. H.* is on every wrapper.

Many Men of Many Minds.

Many a man knows what is what, but doesn't know which is which.

Many a writer knows when to write, but doesn't know when to go to press.

Many a preacher knows how to preach, but doesn't know how to practice.

Many a teacher knows how to teach, but doesn't know how to be taught.

Many a lawyer knows how to go to law, but doesn't know how to get back again.

Many a tradesman knows how to trade, but doesn't know how to make "both ends meet."

Many an M.D. knows how to be a doctor, but doesn't always know when to kill or when to cure.

Many a wise man knows what the dictionary definition of wisdom is, but doesn't know what the word means.

Before or After.

Dr. Ends—There's nothing serious the matter with Patsy, Mrs. Muleahy. I think a little soap and water will do him as much good as anything. Mrs. Muleahy—Yis, doctor; an' will Oi give it 'im befor or after his males?
