THE GUTTA PERCHA & RUBBER MFG. CO. OF TORONTO, Ltd.

Our No. 10 Portable Forge

IS MADE IN TWO SIZES

A.—31 inches high; hearth 18 in. x 18 in.; weight 125 lbs.

B.—18 inches high; hearth 18 in. x 18 in.; weight 94 lbs.

For general outdoor work these forges will be found superior to anything yet on the market. They cannot be blown over, and if knocked over will not suffer, as all parts are encased, and perfectly protected by the strongly braced plate covering.

Convenient hand grips enable the user to move forge from place to place with ease.

Lever is direct connected to 12 in. fan, and can be packed inside when moves are being made.

Cover acts as a screen when forge is in use, and can be shut down and locked at night, or when transporting, tools being left inside. A pad lock is furnished with each outfit.

Prospectors will find these forges very serviceable.
