Iron is prepared to quote prices at 1, and certain
days and after days of quotation of 30 days.
Money can be saved by purchasing direct from the
Manufacturer.

ARTHUR TOOMEY
LANKET MILLS NAPANEE

TO MALTSTERS.

We undersigned beg to inform maltsters and the trade
that, having lately added new and powerful steam
power for the especial purpose of weaving extra strong
TICKS, WINE CLOTH for malt and drying kiln floors, are
now prepared to quote prices for the above goods. These
taps are much more economical than iron tiles, saving
from 30 to 40 per cent in fuel and labor, and producing a
firmer sample of malt.

SPIRIT OF THE AGE.

The Encore Whiskey

The following satisfactory and most convincing evidence
shows the absolute purity and safety of using the Encore
Whiskey as an alcoholic stimulant:

Lancet.—(Unassisted) free from Fuel Oil, mild, wholesome
and pleasant.

British Medical Journal.—Removal of the Fuel Oil is
most complete and efficacious.

Dr. G. R. C. Trenholme, F.R.C.S., Trinity College, Dublin.—
Carefully examined for Fuel Oil but none could be discovered.

Perfectly free from poisonous metals that are frequently
found in Whiskies, and which are very deleterious.

Remarkably Good Quality.

Public Health.—EXCEPTIONALLY PURE. It would be fortu-

nate for the health of the community if in general use.

This Whiskey is not only a pleasant and wholesome stimu-

lant for ordinary use, but for delicate constitutions it is
available, as it will agree with such when no other alcoholic
stimulant will, whether in the form of wine or beer. It is
used almost exclusively in the practice of many of the most
esteemed men in the medical profession.

Every Gallon Guaranteed Equally Pure

TO SUGAR MAKERS.

Spiral Evaporator.

1st Prize at Dominion Exhibition in
Montreal.

THE SPIRAL EVAPORATOR COMPANY has now com-

pleted their Evaporator to their entire satisfaction, now have

the pleasure of offering it to Sugar Makers, after most thor-

ough tests, which resulted satisfactorily.

The evaporator is complete in itself—can be moved anywhere at will,
weighing about 150 lbs., can be operated by any ordinary
hand, consumes but very little fuel, not more than one-third
ordinarily used, and is capable of evaporating as much Sap

as the largest sugar pines with their expensive furnaces now

in use, and produces a much superior quality of Syrup. The

Sap is conveyed into a receiver 6 feet 10 inches x 19 inches,
through which a pipe from the furnace runs longitudinally,
thereby evaporating and allowing the Sap to run into the

Spiral Evaporator, which is placed on top of a Furnace 4 feet
diameter by 1½ feet high. The flow is regulated by taps
from the entrance into the receiver, until Syrup is made,
when a continual flow of Sap at one end and a continuous run
of Syrup from the other is carried on. The whole process is
simple, and so easily handled, that we claim it to be the best
evaporator now in use.

ANDREW J. SIMPSON, Manager.

OFFICE, 323 NOTRE DAME ST., MONTREAL

THE CHINESE WASHER

The best and most economical Soap Powder ever intro-

duced. It possesses all the properties of the best soap in a
readily concentrated form. Washing is done better, in half

the time, with half the labor, and at less than half the cost of
ordinary soap. No soap required, does not injure the finest
fabrics, or affect the most delicate odors.

Washes Flannels to perfection, producing no shrinkage,

and leaving them of silk softness.
