WHAT IS CATARRH?

(From the Toronto (Canada) "Herald")

Catarrh is mucopurulent discharge caused by the presence and development of the vegetable parasite amoeba in the internal lining membrane of the nose. This parasite is only developed under favorable circumstances, and these are: Moist state of the blood, as the slightest exposure of tubercle, the germ poison of syphilis, mercury, toxemia, from the retention of the effete matter of the skin, suppressed respiration, badly ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces, or back of the throat, causing ulceration of the throat, up the larynx, causing hoarseness, deafness, being any in the vocal cords, causing hoarseness, and in the larynx, causing pneumonia, and in the lungs, causing pulmonary consumption and death.

Many attempts have been made to discover a cure for this distressing disease by the use of inhalants and other hygienic devices, but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucous tissue.

3/12

Some time since a well-known physician of forty years' standing, after much experimenting, succeeded in discovering the necessary combination of ingredients which never fails in absolutely and permanently eradicating this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease should, without delay, communicate with the business managers, Messrs. A. H. DIXON & SON,

A New Treatment

FOR THE RAPID AND PERMANENT CURE OF CATARRH

Prepared by

A. H. DIXON & SON

110 KING ST. WEST, TORONTO-CANADA.

333 King Street West, Toronto, and get full particulars and to give free by enclosing stamp.

What the Rev. E. B. Stevenson, B. A., a Clergyman of the London Conference of the Methodist Church of Canada, has to say in regard to A. H. Dixon & Son's New Treatment for Catarrh.

Messrs. A. H. Dixon & Son
250e Street—Years of the 13th last, to hand. It seems almost too good to be true that I am cured of Catarrh, but I know that I am. I have had no return of the disease and never felt better in my life. I have tried so many things for catarrh, suffered so much and for so many years, that it is hard for me to realize that I am really better.

I consider that mine was a very bad case. It was aggravated and chronic, involving the throat as well as the nasal passages, and I thought I would require the three treatments, but feel fully cured by the two first, and I am thankful that I was ever induced to send to you. You are at liberty to use this letter, stating that I have been cured at two treatments, and I shall gladly recommend your remedy to some of my friends who are sufferers.

Yours, with many thanks,
Rev. E. B. STEVENSON.
