WATCHES! JEWELRY!!

Romaine Gold, extensively worn in Paris, was first discovered in 1830, by the celebrated French chemist M. D. Romaine, who manufactured it for the first time in the leading jewelry of Paris for *Solide Gold*. In 1875, when his secret became known, two of the manufacturing jewelers established a stock company, with a capital of \$10,000,000 for the purpose of manufacturing Romaine's Gold in the United States. With this immense capital, and the aid of the latest machinery they are enabled to produce all the latest patterns of jewelry at less than one-tenth the cost of Solid Gold, and of a quality and color which makes it impossible even for experts to detect it from the genuine.
We have secured the exclusive agency of the United States and Canada, for the sale of all goods manufactured from this metal, and in order to introduce them in the most speedy manner, have put up assorted sample lots as given below, which we will sell at one-tenth the retail value until January 1st, 1878.
