A SHORT CHAPTER ON EXPENSES.

Every business man can understand that companies which are compelled to expend \$15, \$20 or \$40 in working expenses, out of each \$100 received, cannot possibly have as much left to pay dividends with, as those which are so carefully and economically conducted as to expend less than \$8.00 per \$100 in expenses. What goes for expenses is gone for good, and with it, when excessive and long continued, history shows that the expensive company is sure to go to, though it may seem to prosper for a time.

It is most important, therefore, for agents and policyholders to connect themselves only with well-established companies, whose standing and knowledge enables them to procure business without excessive cost.

For public information we quote the following figures, found opposite each company named, in the Connecticut (for the AETNA) and Canadian Government reports—pages 160 and 19 and 20—just issued:—

Name of Company.	Total Income 1878.	Working Expenses per \$100 of Income.
AETNA LIFE	\$4,330,129	7.64
Canada Life	898,382	15.37
Confederation	170,097	26.89
Sun Mutual	117,685	39.34
Mutual Life	40,553	30.62
Citizens	38,119	17.65
Toronto	9,302	23.97

The following will illustrate the difference to individual policyholders produced by economy on the part of a life insurance company.

Two Montreal merchants insured their lives in 1869 for \$1000 each, payable at death or end of 10 years. One of them, aged 23, chose one of the best of the above-named companies, paying \$104 per annum, the profits to be given in bonuses with the policy at maturity. The other, aged 25, chose the AETNA LIFE, paying \$95.65, the profits to be given in cash at the close of each year. In the third column herewith, is given the annual difference and the AETNA'S cash dividends, improved at 7 per cent interest, per annum:

POLICY \$1,000 ON TEN-YEAR ENDOWMENT PLAN WITH PROFITS.

1. Year.	2. Age 23.	3. Age 25.	4. Difference & Aetna's Div's.	1. Year.	2. Age 23.	3. Age 25.	4. Difference & Aetna's Div's.
1869	\$104.00	\$95.65	\$ 8.35	1875	\$104.00	\$95.65	\$ 8.35
