

FOREWORD

"Monographs and Periodicals Published Abroad in the Context of Canadian Studies" (second edition) is an update of the catalogue published at the time of the International Council for Canadian Studies conference held in Montreal in June of 1985.

As with the first edition, this catalogue attempts to bring together in a single volume bibliographic data on academic publications dealing with Canada which have originated outside the country. It contains references to publications brought to our attention by each of the thirteen foreign associations of Canadian studies and by staff at our Canadian missions abroad. It is by no means exhaustive and, indeed, due to time and space constraints we have had to limit entries in most instances to major publications.

The material is arranged by country or area of the world and within each chapter is a list of the monographs and journals relevant to that section. The entries for the monographs are listed in alphabetical order by main entry: author or title. In the case of journals, we have reproduced the title page.

In this edition we have removed references to Canadian books in translation. We hope to publish a more extensive, separate catalogue of translated works at a future time.

Copies of this catalogue are available free of charge from the Academic Relations Division, Department of External Affairs, Ottawa, Canada, K1A 0G2.
