

further examination of this policy may be required by your Committee.

8. In the course of its examination of Information Canada your Committee requested the Treasury Board to supply it with the total cost of federal government information services. Your Committee has defined federal government information services as "the total cost of inform-

ing the public or any member of the public about the activities of each Minister and his department and any Crown Corporations and agencies for which the Minister is responsible or for which he is the spokesman in Parliament." Your Committee recommends that this figure be calculated annually by Treasury Board and provided to Information Canada for inclusion in the Annual Report of Information Canada.

Respectfully submitted.

D. D. Everett,
Chairman.
