

69  
UNIVERSITY CLUB OF MONTREAL

Sir Arthur Currie Saturday June 29  
President, McGill University  
Montreal

Dear Sir

The International  
Mathematical Congress will meet  
in America in 1924. It has  
been suggested that the meeting  
be held in Canada. The Americans  
are willing to concede it to us if  
we can finance it. The opportunity  
is a rare one and should not be  
missed.

To finance it we shall need the  
assistance of the Dominion Government
