

OBJECTS

THE purpose of the World Power Conference will be to consider how the industrial and scientific sources of power may be adjusted nationally and internationally:

*

By considering the potential resources of each country in hydro-electric power, oil and minerals.

*

By comparing experiences in the development of scientific agriculture, irrigation and transportation by land, water and air.

*

By conferences of civil, electrical, mechanical, marine and mining engineers, Technical Experts and authorities on Scientific and Industrial Research.

*

By consultations of the Consumers of Power and the Manufacturers of the Instruments of Production.

*

By conferences on Technical Education to review the educational methods in different countries, and to consider means by which existing facilities may be improved.

*

By discussions on the financial and economic aspects of industry, nationally and internationally.

*

By conferences on the possibility of establishing a Permanent World Bureau for the collection of data, the preparation of Inventories of the World's Resources, and the exchange of industrial and scientific information through appointed representatives in the various countries.
