

## PREFACE TO THE AMERICAN EDITION.

---

The great favor with which "The Natural History of Man" was received in Great Britain, and the unqualified commendations bestowed upon it by the most scholarly pens, suggested to the Publishers of this American Edition the project of reprinting it in this country, with the sanction of the Author and the Proprietors and Publishers of the work in London. So valuable a book as this should be found in every family in the land, yet its price,—\$7.00 per volume,—prevented its reaching the great mass of the people.

By a favorable arrangement with the English Publishers, duplicates of the original plates have been obtained, and depending upon a large and general sale of the work the American Publishers have reduced the price very largely, while their reprint equals the Original Edition in every respect, and excels it in so far as they have made additions which are as follows:—1st.—Two Chapters describing the interesting races that inhabit Alaska and Siberia. 2d.—A full list of Illustrations. 3d.—An ample and complete Index to the whole work. In the English Edition, this last was entirely too brief for completeness. With these exceptions, this Edition is a perfect reprint of the London one—full, unabridged, and unmutated; its clear large type, its one column pages, its text illustrations, its maps and its splendid letter press being retained entire and complete.

The American Publishers take pleasure in annexing a certificate showing that they only are authorized to reproduce the work in this country, and that their action in the matter is honest, legitimate, and just towards the Author and the Proprietors of the work, and also that their Edition is as they represent, a faithful and unabridged reprint of the original, from duplicate plates.

---

### CERTIFICATE.

We the Proprietors and English Publishers of the "Natural History of Man," by Rev. J. G. Wood, certify that the American Publishing Company of Hartford, Conn., have received from us, a duplicate set of the original plates, from which said work is printed in London, and that they are the only Publishers in America, who reprint it with our leave or sanction, or who pay copyright upon it. Their Edition contains all the matter, both of text and illustrations, to be found in the original London Edition.

June, 1870.
