

and Langton on the Act and Rules were combined. A second edition was published in 1898, and a third in 1905.

CONTENTS

The present work is the lineal successor of the various publications above mentioned, extending over thirty years, dealing with successive Ontario Judicature Acts and Rules, and has the advantage of being in effect coeval with the new procedure inaugurated in 1881, and the changes which have since, from time to time, been made therein.

The Forms in the Appendix to the Rules have been printed because in some cases they differ from those to be found in Holmsted & Langton's Forms, which were published prior to the Rules now in force; and also because some annotations on these Forms appeared to be necessary.

The edition of Holmsted & Langton's Forms referred to in this work is the second, which was published in 1911.

P.S.—Since the above was written Mr. Langton, K.C., has died. By all who had the honour and pleasure of his friendship he will be remembered as a true gentleman in every relation of life, and his learning and literary ability can by none be more warmly appreciated than by the editor of this work, with whom he laboured so many years in perfect amity.
