It is more blessed to give than it is to receive. And the more you give, the greater will be your blessing.

It's a great feeling to have your conscience whisper that you have done your duty as a good citizen—that you have given to the Patriotic-Red Cross Fund to the very limit of your ability.

Doctor, Lawyer, Clerk, Metal Worker, Teamster, Salesman, Housewife, Stenographer, Canvasser, Sales-girl, Factory Operative and Munitioneer—

—all, all will give, and their contributions will be most thankfully received.

"The moving finger writes, and, having writ, moves on—"

If, on second thoughts, you feel that you would like to have given more, GIVE AGAIN.

Mail another cheque or promise to contribute to Headquarters. It will be gratefully acknowledged.

All sorts and conditions of men and women will give to the Fund as they never gave before.

It's Three Millions in Three Days, but Toronto Can Do It.

All together now. Give two dollars for every dollar you gave last year—give three for one if you can.

You'll never miss what you give, but your gift will be to your conscience as the Balm in Gilead.
