Paris, Aug. 10 .- The note the supreme council of the peace conference sent to Rumania on Aug. 6, relative to the armistice the Rumaniane mander jeft London Wednesday sought to impose on Hungary, was much stronger than at first support

It stated that the peace conference was compelled to believe the Ruman-ian government determined to defy the conference and separate itself from the allied and associated gov-ernments, and requested Rumania to deny by acts and not by words the "Following the fall of the Bela Kun government and its displacement by month ago he a. 6 Lady Currie lunch-ed with their inajesties at Bucking-ham Palace. Their last two days were spent among Lady Currie's relatives in Not-tinghamshire. As he stepped aboard the Caronia at the Huskisson dock, Liverpool, General Currie was recog-nized and heartily greeted by many soldiers. Local reporters subsequentnized and hearily greeted by many soldiers. Local reporters subsequent-ly interviewed the general, who made a pleasant reference to English hos-pitality to Canadian soldiers.' He also expressed the opinion that Canadians would doubtless return with a better understanding of England and her people Genera. Currie, however, was not to be drawn into less general ob-servations He told the Canadian press that he expected to go to Ot-tawa direct and then fulfil his To-ronto ergagements on Aug. 30. These decisions were brought to the attention of the Hun-garian government by telegrams, and at the same time to the Rumanian generals, the Rumanian government, and the Serbian government.

and the Serbian government. "On Aug. 6, the supreme council, having heard that the Rumanian au-thorities at Budapest proposed to im-pose on the Hungarian government an armistice contrary to the armistice concluded in November with Hungary in the name of the allied powers, and in violation of the general rights of the allies, insofar as reparations are concerned, advised the Rumanian gen-erals not to conclude an armistice without the authorization of the allied powers. They also are permitting their soldiers to pilfer private property and requisitioned, and are sending into Ru-mania live stock and rolling stock, sub-mitting Budapest to an unnecessary blockade which is starving the city. They are destroying the railway lines, in marblockade which is starving the city. They are destroying the railway lines, in par-ticular one from Budapest to Vienna. In fact, they are committing a series of actions which are as much in violation of the decision of the conference as of the rights of the allied and associated pow-ers, and likewise, primarily, of humanity.

Some weeks ago President Woodrow Wilson planned a presidential "swing around the circle." He intended to visit the leading cities of the United States attorney-general and his district attorneys thruout the United States. The President of the United States sticks to his post at Washington, giving his time ahead to chalk out the tour and feel the public pulse. Before he had been gone very long or proceeded very far he wirel the president substantially in these words:

words: No one in this country cares a row of pins about your league or your peace treaty or anything else except the high cost of living. Until you have a remedy for that, you had better stay in Washington. But get to work pretty quick and find a remedy or the people will be coming to see you in-stead of waiting for you to see them. FOUR BYLAWS FAIL TO CARRY AT WINDSOR

Windsor, Aug. 10. - Four bylaws failed to carry here yesterday, mainly for the reason that a sufficient number of property-owners failed to ap-pear at the polls. Of 4000 eligible, only 160 cast their ballots.

Among the bylaws was one author-izing the issue of \$100,000 debentures for new cement walks, and another for \$150,000 for motor fire engines. Two city council motor cars and one from London, Ont., were reported stolen (to police headquarters yester-day.

Liverpool, Aug. 10.—Interviewed by a Reuter correspondent while he was cmbarking on the Caronia to sail for Canada. General Currie, commander of the Canadian corps in France, said: "I do not know whether we like you better than before the war, but we understand you better. I think we re-spect each other more, but I don't think we like each other as well as we would like to do. We have not taken each other into the family, as it were. "We want a greater intimacy and understanding between the people of the motherland and colonials. I am glad to know Canadian soldiers are taking home wives from this country. In my opinion, there are too many people living in English cities.

veals an evident source of Mayor Carter's inspiration. It is the view that the Hydro radial project, started years ago, had never been developed, and never would be. The Post says there is no use "waiting further for the ful-filment of Beck's roseate but ques-the running of the country without filment of Beck's roseate but questionably s.....d schemes." "What has become of that wonder-

were fit to run a government. ful road the Hydro was going to build He very strongly stated that cor-rupt government is responsible for the high rate of exchange and the low value of the Canadian dollars in the for us in 1915?" was Ald. Westoby's version of the question. Mayor Carter had grown weary waiting for some-Inited States, but this statement was thing to be done, and Ald. Hoover refuted later by another of the dele-gates, who showed that it was because ran riot after his kind. He declared the United States had grown much. there never had been a successfully richer out of the war before she enmanaged public or municipally-owned tered it than Canada, and, as a reailway. He admitted Sir Adam's sucsult, financially, conditions there were suit, infancially, conditions there were better than in our own country. **Give Farmers a Chance.** The question was discussed and Mr. Lamb stated that as soon as the far-mers had a chance to make some money, which had been denied them during the period of the war, the govess with the Hydro-Electric, but said it was impossible to do the same with

the railways.

Those who went thru the original Hydro-Electric campaign are familiar with this kind of talk. No corporaernment undertook to put a fixed price on their grain. This would not lower the cost of living, stated Mr. Lamb, tion lawyer or official or hanger-on would admit for a moment that the as it is not their wish. Shorter hours, Hydro plan could, would, or should at the same pay, is the movement which is responsible for the high cost ever be carried out. It was to bankof living today, he said. Others of the delegates expressed their opinions on the matter, and then the balloting for the candidate to be rupt the country, and its competition would bankrupt all other similar concerns. Neither prophecy has come true yet, but The Financial Post and its readers are still hopeful.

Had the war not intervened and developed into such a stubborn conflict, as ... in 1915 no one had anticipated, the Hydro radial system would now have been largely in operation and proving as great a success as the Hydro-Electric is admitted to

be. The plan was not broached in 1915 without long previous preparation and calculation. Certain revisions due to the changed conditions have to be made, re-surveys and new calculations of cost, but Sir Adam's statement that the first sods would be turned before the C.P.R. could start on its Hespeler proposal indicates that the Hydro Radial Union is not going to be delayed longer, now that the war is over. For it was the war, as Mayor Car-

ter and his friends, and The Financial GERMANS HAVE APPOINTED Post also, know very well, that has prevented the construction of the Hydro radial lines. Sir Adam Beck did as much for the country as any man could do during those years in which he acted for the British government and for Canada in military work. But he never neglected his duties as chairman of the Hydro-Electric ' Commission and servant of ernmental departments, has been formed to negotiate with the interthe people of Ontario, as he describes

himself, and he is prepared to go ahead with the radial construction at

this splendid plan, upon which the confiscated.
