WILL TEACH OF MISSIONS.

Changes To Be Made in the International S. S. Lessons.

A radical change will soon be made in the lesson courses prescribed by the International Sunday School Association. A missionary department will be introduced.

There has long been a feeling among Sunday school and mission workers, both in Canada and the United States, that the Sunday school series of lessons prepared by the International Sunday School Association ought in some way to introduce missions into the course, but this they persistently refused to do, so during the recent summer school at Silver Bay, N.Y., a conference was called to consider what could be done. Representatives were invited from mission boards, states Sunday school associations, the executive of the International Sunday School Association, and the Sunday School Editorial Association. It was decided to memorialize the International Association to establish a missionary department of their work.

"The whole convention was an influential one, and left the impression that an important movement had been originated," said Rev. F. P. Mackay, D.D., yesterday, "and that the subject under consideration would be pursued by subsequent action to be agreed upon."

Jewitt, principal of Cavton-street school, Toronto Junction. The bride looked very pretty in a lovely gown of white silk and handsome lace. She carried two white bridal roses. The ceremony was performed by Rev. Dr. Broughall, rector of St. Stephen's, in the drawing room, which was abundant with flowers and flowers. The bridesmaid was Miss Blanche O'Connor, sister of the bride, who also looked very pretty in a fine spun silk over pale blue taffeta. She carried pink carnations. While stepping off a Metropolitan car in the dark, with a baby in her arms, opposite Davisville-avenue, Mrs. Trimble of Balliol-street, thinking she was stepping on to the bridge, stepped into the ditch, breaking her ankle.

The accident occurred in the nick of time yesterday morning. As a driver stepped on to his delivery wagon, of Park & Blackwell, the traces became undone and the horse whirled around in a circle, landing on the Metropolitan car track. In the meantime, a car was bearing down on the unfortunate team, which, however, was quieted before any damage was done except the breaking of the wagon tongue.

JUDGE AND "HANDBOOK MEN"

Thinks Police Are Little Harsh in Their Treatment.

The alleged handbook men and those charged with being "frequenters" were before Magistrate Kingsford yesterday, being remanded until Aug. 1, after pleading not guilty and electing to be tried by a jury.

Hartley Dewart, K.C., represented Herbert Frankland, George McSweeney, Alex. Smith and John Kelly. Mr. Robinette looked after the rest, with the exception of Joseph Wagner, who had John Loftus as counsel.

W. W. Worthington was brought before Judge Morgan, who agreed to accept another bondsman for \$500, in place of the one who got "cold feet" and withdrew.

In reducing the amount Judge Morgan said:

"Of course the police court know more about these things than I do, but I think their figure—\$500—too high. Why, it might be one of the worst crimes in the calendar at that figure. I don't believe in gambling—I think it should be put down—but I don't want to see this man go to the cells. This kind of gambling against the law, but it is very prevalent, and has been tolerated for years. I think you should punish the fools as well as the knaves, if this man is a knave."

Edward Gegg was relieved as bondsman for Herbert Frankland. His place was taken by H. R. Frankland, J.P.

Silver in the Arts.

The heavy demand for silver in India and in the Orient generally is having, with other influences, a marked effect on its price. There has been an advance in the price of silver of 20 cents in three years. This advance is expected to continue, and it will have a good effect on the trade in eastern markets by increasing the purchasing power of the money now used in the Orient. In the first four months of the current year Great Britain exported to India \$30,000,000 worth of silver.

The use of silver in the arts is rapidly increasing, it being estimated that fully 50,000,000 ounces are consumed in that way annually. The United States and Mexico combined yield more than 82 per cent. of the world's output of silver.

SMASH-UP ON THE RADIAL

THREE PASSENGERS HURT

Hamilton, July 27.—(Special)—There was a little smash-up on the radial this evening about 8 o'clock at the corner of Birch-avenue and Cannon-street. On their way into the city two of the cars that left Burlington at 7:10 were running too close, and when the first car stopped to let off some passengers, the one following crashed into it, giving some of the passengers a severe shaking-up and damaging the cars. Three of the passengers of the rear car—J. M. Davy, Mrs. Walker and Mrs. Job—were painfully bruised, and required the services of a doctor.

They Call an Expert.

Not content with the members of the city council, appointed to investigate the charges laid against the waterworks system, turned up a satisfactory quorum. The committee will study the plans of the whole system, will visit the filtering basins, and if they think they see signs of anything serious, they will probably call in the services of an expert.

In favor of appointing Prof. Amyot of Toronto.

All Licenses Renewed.

The license commissioners met this evening and renewed all the licenses that had been held back for three months for various reasons.

A youngster came to police headquarters to-night with a story to the effect that a crazy man with a gun was climbing the fire escape at the Grosvenor Hall. The police could not locate the man.

Up till a late hour to-night, the warrant for the arrest of Aid. Witton for neglecting to obey a summons to the police court had not been executed, as the aidman gave a satisfactory excuse for his absence.

The Toronto Daily and Sunday World delivered to any address in Hamilton from 7 a.m. to 11 p.m. a month; Sunday, 50 per cent. Hamilton office, Royal Hotel Building, Phone 965.

Martina's Oysters, 1 cents to-day, at Billy Carroll's Oyster House Clear Store, No. One Blaine.

The coroner's jury that investigated the accident that caused the death of Wm. Elliott, who was fatally injured by a fall from the new Savoy Theatre brought in a verdict to the effect that Elliott came to his death from a fall, caused by the breaking of a scaffold. No one was blamed.

Liberals Kicking.

Some of the local Liberal workers are kicking because the contract of building the drill hall has been awarded to George F. Webb, and the Liberal party will contact to A. A. McDonald. The kick is because both contractors are said to be Conservatives.

If Hon. J. S. Egan succeeds Hon. Dr. Reaume as minister of public works, James Chisholm, president of the Liberal Association, said to-day that his election would not be opposed.

The Toronto and Niagara Power Company has issued notices of expropriation to the owners of land on the south side of the canal at the beach.

Contracts Awarded.

The contracts for the construction of the Haines Brantford and Hamilton Railway were awarded as follows this morning: Eighty-ton steel, Dominion Steel Company, Sault Ste. Marie; ties, Manitoulin Lumber Company, Windsor; electrical supplies, Canadian Electric Works, Toronto; Hamilton. The company has opened offices in the Chancery Chambers, corner of Main and Hughson-streets. The office of the company has been appointed: I. K. Pierson, chief engineer; Elmer T. Haines, secretary; J. W. Nesbitt, K. C., solicitor; Miss Agnes G. G. Nesbitt, secretary.

It is said that a Toronto firm has an option on the Crooks building at the corner of King and Macnab-streets.

The engagement of Miss Dora, daughter of Jacob Kaufman, and private Garfield, Brooklyn, N.Y., has been announced.

A. L. Zimmerman, son of Adam Zimmerman, M.P., has been appointed manager of the Windsor, N.S., branch of the Bank of Nova Scotia.

Break With Cataract.

A majority of the aldermen are in favor of declaring the conference with the Cataract Power Co. off and of joining the residents of the south-western district of the city in an application for an order from the Ontario railway and municipal board compelling the company to live up to its street railway bargain.

CANADIAN CLUB'S CONFERENCE

Will Be Held at Niagara Falls on Labor Day.

The annual conference of the general council of Canadian Clubs and Societies (organized at Niagara Falls, Ontario, on Dominion Day, 1905), will be held at 11 o'clock a.m. on Monday (Labor Day), Sept. 3, in the New Clifton House, Niagara Falls.

The objects of the council are: "To annually assemble members of Canadian clubs (or associations) for the purpose of conferring on the work of such bodies, and of promoting good fellowship among the members thereof."

The delegates will be invited to consider ways and means whereby the memory of the late Alexander Muir, author of "The Maple Leaf Forever," may be perpetuated.

The deliberations of the morning and afternoon will be followed by a dinner in the evening at which distinguished Canadians will, it is expected, appear and respond to toasts.

What is "Land"?

Editor World: In reading your article on business assessment in to-day's issue, I notice you refer particularly to the value of the land only and not the buildings on said land. Do you mean that the value of the land by itself should be taken into consideration by the assessor in fixing the amount of the business tax that should be paid?

For a town of 2000, would an assessment like this be correct—actual value of land \$612, value of buildings \$1900 total value of real estate \$2512. For business assessment \$730, or 29 per cent of the total value. Bewildered. Oakville, July 26.

[Land as defined by the act includes all buildings or any part of any building and all structures, machinery and fixtures erected or placed upon, in, over or under or affixed to the land.]
