THE COBALT SILVER MOUNTAIN MINING CO., Limited.

Authorized Capital \$1,000,000.00 (Non-Personal Liability) Shares fully Paid and Non-

The Property of the Cobalt Silver Mountain Mining Company, Limited, is located in the heart

of the richest silver belt in the world, and consists of twenty acres.

The Silver Mountain Co. has the best located and most promising undeveloped property in the

Cobalt camp to-day and the men most largely interested in the company comprising some of Cobalt's largest

mine owners and some of the best-known and most influential men throughout Canada, including over

a dozen members of parliament, confidently expect that

the property of the Silver Mountain Co. has never been developed,

thirty-eight veins carrying silver have been discovered on the surface

and all the property should need to bring it to the shipping point is some development work.

The property has been completely paid for with stock of the company, and not one

dollar is required except for development purposes.

Just about a year ago, as you know, a block of stock of the Foster Mine, a close neighbor to the

Silver Mountain, was offered to the public for 80 cents per share in order to raise money for develop-

ment work. You know also that this stock has sold since for over \$4.00 per share and can be sold to-day

to yield an immense profit to the original purchasers.

Remember it is the man who bought the stock when first offered who made the most
