Life for him The department of agriculture of On- ant part in the trial of Harry K. Thaw, has become a steady grind of great state tario recently made enquiries from the northwest provinces as to the practicability of securing frosted wheat for feeding purposes in this province.

The deputy minister of agriculture for Alberta states that if the total wheat crop of the northwest reaches the 80,000-bushel mark, there will probably be form 10,000,000 to 15,000,000 that will be marketed as feed wheat.

As regards the quality or feeding value of frosted wheat, the same authority states that it has been pretty generally demonstrated in the west, and also by experiments at Ottawa, that frosted tario recently made enquiries from the is preparing to sue the Thaw tamily affairs. During the Boer war he nnancstates that it has been pretty generally demonstrated in the west, and also by experiments at Ottawa, that frosted wheat makes excellent feed. It is the opinion of the secretary of the Northwest Grain Dealers' Association that, for the purpose indicated, it has all the value of No. 1 wheat, and that it is much safer to use, on account of the higher percentage of bran it contains, which would naturally be mixed with it in the grinding.

It is stated that frosting does not impair the keeping qualities of wheat, if thoroly dried before being threshed. It is expected that prices of feed wheat at Fort William and Port Arthur will be fairly well established within two weeks, and enquiries may be addressed to C. N. Bell, secretary of the Grain Exchange, Winnipeg.

TILLSONBURG, Oct. 20 .- (Special.)-James Burns, aged 21, recently discharged from the employ of the M.C.R.

Beer* Is No Mere Stimulant

Beer is not the choice of the drunkard, because it cannot stimulate enough-not enough alcohol in malt beverages to class them as intoxicants. But there is just enough alcohol in beer (less than in sweet cider) to induce the digestive system to do its work more thoroughly and quicker. Most grown people - and women especially-find good beer good to drink with meals, because it not only has much food-value in itself, but renders all other foods easier to digest.

Your own doctor will probably tell you beer is good for you with your dinner and at

bedtime. *BEER is a term which covers lager, alea, porter, and tout; and, in the practise of Ontario brewers, implies tout; and, in the practise of Ontario conditions, from
