## WONDERS OF PHOTOGRAPHY.

**An English Scientist Claims to Have Secured an Impression of a Dead Child of Which He Was Thinking.**

London, March 7.—Science still divides with angry international disputes the lion's share of attention. Professor J. J. Thomson of Cambridge has discovered that when the Roentgen rays pass through any substance, even those commonly used as insulators, they render it a conductor of electricity. Thomson's theory is that this property of rays of converting insulators into conductors of electricity is due to a kind of electrolysis, the rays breaking up the molecules of the nonconductor and acting as a part of a solvent in an electrolytic solution.'

To-day's Telegraph says: "One of the ambitions of the new electrography was to reproduce a living human brain in black and white, but Mr. Inglis Rogers has bettered this. He declares he has succeeded in photographing his thoughts upon a negative plate. In the earlier experiments a few moments of intent gazing through a dark camera in a darkened room resulted in a subsequent development of two white marks representing the pupils of the eyes. In a later effort, close thinking on the face of a child who had died resulted in the disks being found to contain the shadowy representation of the child's features, of which there was no other record in existence.

"Mr. Ingles Rogers may be mistaken. The discovery is too wonderful to be accepted on a bare annunciation, but it deserves the fullest attention, for beyond the visible color of the spectrum and the more familiar forces of electricity lie possibilities of which science is only just beginning to dream."

The English no longer need to go abroad to learn how the Roentgen rays can be used without photography. Herbert C. Newton writes he saw effects produced at King's College that far surpass any reported from abroad.

"For instance," he writes, "without the aid of photography by means of a very simple fluorescent screen and a suitable lens, I could easily see all the bones in my hand and wrist, clearly and sharply defined, and also the action of the joints. Metallic objects were readily seen through a solid block of wood two and a half inches thick, such as are used in paving a street. A sixpence shut up between the pages of a Bradshaw Railway Guide, which is about two inches thick, was clearly visible. These results were produced by the aid of a new vacuum tube designed and made in the college, and can be readily seen either by daylight or gaslight, no darkening of the rooms being necessary."

## *DEATH OF MATTHEW HUTCHINSON.*

**A Well-Known and Respected Resident of Goderich Passes Away.**

Goderich, March 8.—Matthew Hutchinson, a member of the firm of Ogilvie & Hutchinson, and manager of the Goderich branch of the business, died to-day, after a lingering illness. Deceased was born in Ayrshire, Scotland, in 1827, came to this country with his parents in 1833, who settled near Montreal. His mother was a sister of James Miller, founder of the Allan Line of Steamships. Married in 1854 to Helen Ogilvie, sister of the Messrs. Ogilvie, he for years acted as flour inspector for the port of Montreal, succeeding Mr. Young in the office, and on relinquishing came to Goderich in 1874; when the big mill was completed he entered in partnership with the Messrs. Ogilvie, his brothers-in-law; for several years was a member of the Town Council and of the County Council as one of the reeves of the town. It is needless to say to those who knew him that there was no position in the gift of the citizens here he might not have aspired to; for private reasons he declined longer to serve on the council. He lives a widow and five children—two sons and three daughters—Dr. J. A. Hutchinson, chief medical officer of the G.T.R.; W. W. Hutchinson of Winnipeg, Mrs. James Thom of Montreal, Miss Hutchinson and Miss Fanny Hutchinson, to lament the loss of the kindest of husbands and fathers. The funeral will take place here on Tuesday afternoon.

## *OUR SUBTERRANEAN WEALTH.*

**$22,500,000 Worth of Metallic and Non-Metallic Products Taken Out in 1895.**

Ottawa, March 8.—(Special.)—The summary of the mineral production of Canada for 1895 has just been issued by the Department of the Geological Survey. Of the metallic product, the value totals $6,370,146, as follows: Copper, $949,229; gold, $1,910,921; iron ore, $238,070; lead, $749,966; mercury, $2343; nickel, $1,366,984; silver, $1,158,633. The value of the non-metallic products, including structural material and clay products, was $15,875,197. The value of the coal mined was $7,774,178; petroleum, $1,201,184, and phosphate, $1,201,184. Of the structural materials, $1,800,000 worth of bricks was taken out, and $1,200,000 worth of building stone. The total value of these metallic and non-metallic products in 1895 was $22,500,000, as compared with $20,900,000 worth during 1894.

## *INDEMNITY IS NOW OVERDUE.*

**England May Use Force to Collect Damages for Arrest From Venezuela.**

Caracas, March 8.—The 90 days allowed Venezuela to answer the demand for indemnity for the arrest of English officials, Barnes and Baker, on the Uruan River, in December, 1894, has expired.

The Government will not speak officially, but it is stated on the highest authority that Venezuela refused to pay the indemnity, declaring that the question of the arrest and the boundary dispute cannot be separated.

To pay the indemnity would be to recognize British sovereignty over Venezuelan territory.

It is believed here that unless Sir Julian Pauncefote and Minister Andrade can arrange matters satisfactorily in Washington, England will use force to collect the money, treating the arrests as distinct from the boundary.

A short road to health was opened to those suffering from chronic coughs, asthma, bronchitis, catarrh, lumbago, tumors, rheumatism, excoriated nipples or inflamed breasts, and kidney complaints, by the introduction of the inexpensive and effective remedy, Dr. Thomas' Eclectric Oil.

## *AGAINST THE BILL.*

**Barrie Ministerial Association Says Religious Liberty is at Stake.**

Barrie, March 8.—The Ministerial Association of this town has passed the following:

Resolved, that the present crisis in our country, occasioned by the Dominion Government insisting upon establishing separate schools in Manitoba, against the repeatedly expressed will of the Province, is one in which our civil and religious liberty is at stake, and therefore it is the duty of every citizen interested in the welfare of his country to oppose such a measure;

That this measure is not asked for, either by the people of Manitoba or of the Dominion, but only by the Roman Catholic clergy of Quebec and Manitoba and those whom they represent;

That such legislation was not required by the deliverance of the Privy Council which has declared the law of 1890 to be within the right of the Province to pass;

That the bill appears to have been brought in and is being passed in obedience to the dictation of the Roman Catholic Hierarchy, on the conditions that the Government shall receive the political support of that body;

That such a course on the part of any Government is an abdication of principle, a betrayal of the people and a menace to our institutions;

We protest, therefore, against the passage of this bill, granting to the Roman Catholic citizens of Manitoba separate schools, or privileges greater than those which are possessed by the adherents of other religious denominations. We regard this bill as an attempt at priestly domination in political matters, as practically placing our country in subjection to the Roman Catholic Hierarchy, and as a blow at our liberties as a people which should be resisted to the utmost.

**Business Embarrassments.**

The inspectors of the estate of John Macdonald, Meaford, will meet to-morrow, when it is expected that an offer will be made for the stock. The statement shows a surplus of $2000.

The crockery business of R. R. Harris, Brantford, will be wound up by R. Tew. Liabilities are put at $12,000, and assets $10,000.

The stock of Denton & Co., general store, Mono Centre, valued at about $3000, will be sold.

Creditors of F. J. Worthington, baker, Yonge street, will meet to-day. Liabilities, $2500.

The creditors of V. G. Covenwell, tailor, Cornwall, will meet to-morrow. Liabilities are over $5400.

Taber Bros., dairy, Port Perry, have assigned to N. F. Paterson.

L. G. Matthews, grocer, Acton, has assigned to R. J. McNabb.

Casselman & Co., grocers, Cardinal, have assigned to G. Reid.

Mrs. A. Fredenburg, jeweller, Ottawa, has assigned to James Bailiff.

Dyspepsia or Indigestion is occasioned by the want of action in the biliary ducts, loss of vitality in the stomach to secrete the gastric juices, without which digestion cannot go on; also, being the principal cause of headache. Parmalee's Vegetable Pills, taken before going to bed for a while, never fail to give relief, and effect a cure. Mr. F. W. Ashdown, Ashdown, Ont., writes: "Parmalee's Pills are taking the lead against ten other makes which I have in stock."

**Former Torontonian Dies at Vancouver**

## *MONEY AND STOCKS.*

**The Easier Money Market Produces a Better Demand for Securities.**

The domestic money markets are weaker. Offerings of money to brokers "on call" have increased, and a number of banks that had made loans the previous week at 6 have reduced the rate to 5 1-2 per cent. As yet there are no indications of dearer money at New York, although many bankers predict higher rates before the end of the month. Money in London is easier, with call loans quoted at 1-2 of 1 per cent., and prime mercantile discounts are down to 3-4 to 13-16 per cent.

**An Advance in Stocks.**

The easier money market is responsible for higher prices in the speculative issues on the stock exchanges. The advance has ranged from 3-4 to 3 per cent., the latter for Western Assurance. Cable rose to 162, but did not hold, and closed at 160 1-2 bid. Postal Telegraph is 1 to 1 1-2 per cent. higher on a limited business. Toronto Railway rose 1, and closed at 76 3-4, as against 76 a week ago. Canadian Pacific very dull, closing at 55 1-4 bid, as against sales at 56 1-2 a week ago.

The balance sheet and statements of the Canadian Pacific Railway of the results of working for 1895 have been issued preparatory to the annual report to be submitted at the annual meeting on April 1st. The gross earnings for the year were $18,941,036. The working expenses were $11,460,085, and the net earnings were $7,480,950. Bank shares are strong, with a moderate demand from investors. Loan Company stocks dull and neglected. Canada Permanent sold Saturday at 139 3-4 Canada Landed Loan at 107 1-4 and Building and Loan at 70. London and Canadian offers at 106, without buyers. In Montreal the most important advance was in Gas, which sold at 203 1-2, a rise of 3 1-2 per cent. for the week. Street Railway is also higher, with an increased business, at 219 1-4 to 219 1-2, an advance of 2 1-2 per cent.

Consols weaker, closing to-day at 109 for money, and at 109 1-16 for account.

Canadian Pacific is ⅜ lowed in London, closing at 56½. St. Paul closed at 79, Erie at 16⅝, Reading at 6¼, N.Y.C. at 100½ and Illinois Central at 99.

Mr. Henderson, of Henderson & Small, is likely to be appointed director of the Consumers' Gas Co.; Mr. Wm. Hendrie of Hamilton a director of the Dominion Bank; and Justice Maclennan a director of Hand-in-Hand Fire Assurance Co., these positions having formerly been held by the late Jas. Scott.

TIPS FROM WALL-STREET.

The market was dull to-day, closing steady.

The most active stocks were: Sugar 3300 shares, St. Paul 4700, W. U. 1000, Mo. P. 400, Cotton Oil 1100, T.C.I. 900, Tobacco 59,200, R. I. 1000, N. Q. 900, L. & N. 2300, Burlington 3800, G. E. 7100, Wheeling 1200.

McIntyre & Wardwell send the following despatch to their branch office in Toronto: To-day's market was dull and heavy, Tobacco being the feature. It sold down on reports of an issue of preferred stock and also on statements that there are no immediate prospects of a dividend, and that the trade war is costing the company $10,000 a day. There is said to be a disposition in Washington to force the President's hand in the Cuban matter. It is now said assessment on Baltimore & Ohio will not be as heavy as it was at first thought necessary. There are further rumors about harmonizing General Electric and Westinghouse interests. The decline in Cotton Oil preferred was due to liquidation and lack of support. The directors say that the dividend on the preferred will be paid as usual. Harvey Fisk & Sons are large buyers of Government bonds. Trade reports are unsatisfactory. They indicate a stagnation and no material improvement. Bank clearings for the week increased 14 per cent. For the fourth week of February 50 roads have an increase of 18 per cent. in gross. The Treasury gold reserve is $123,000,000.

CHICAGO GOSSIP.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

The wheat market has again been dull today, with a lower range of prices, prices fluctuating between 64⅞c and 65c and 65½c and closing at 65¼c to 65¼c. The cash demand is comparatively light, and no exports reported to-day. Northwest receipts 404 cars, against 277 cars a year ago. While most of the news we get points to higher prices, the market is decidedly heavy, and looks as if it will go lower, unless we have a larger export demand, better outside support, or damage to the crop. A bearish cable report was received from Liverpool, reporting crops so far as satisfactory. Flour dull, and wheat stocks larger than expected. Scalpers were the principal sellers, and commission houses small buyers on the decline. Closing Liverpool cables 1d lower. But little interest was manifested in today's market, the crowd evidently waiting for the Government crop report, which comes out next Tuesday afternoon.

Corn and oats a shade lower, partly in sympathy with wheat. There has been fair selling of corn by receivers and elevator people. Buying scattered and chiefly local.

Provisions—The markets have been dull and somewhat lower with a light trade. Receipts to-day larger than anticipated, and estimated for Monday 29,000. Some improvement in cash business. On any fair decline think provisions a safe purchase.

McIntyre & Wardwell (John J. Dixon) received the following despatch to-day from their branch office in Chicago:

There was only a moderate volume of liquidation in wheat to-day, and there was enough demand around 65c for May to stem the tide. The market closed steady at ¼c recovery from lowest prices. The buying was mainly local, entirely in the character of shorts covering. Cable news indicated that markets abroad were in about the same condition as those on this side of the water. Liverpool advices quoted market 1d lower, owing to speculative liquidation. New York reported heavy selling for foreign account. Argentine shipments 1,152,000 bushels. Bradstreet's shipments from this country 2,407,000 bushels. Advance guess on Government report, and it has often been singularly accurate, places the wheat in farmers' hands at 135,000,000 bushels, against 75,000,000 last year. Crop accounts have been somewhat conflicting, but up to date we think with exception of usual amount of winter killed that there is nothing in the position of growing crop wheat to occasion uneasiness. The cash demand here has not grown with the decline. About 60,000 bushels sold to-day. New York reported only five loads. Receipts at Minneapolis and Duluth this week amount to 2487 cars.

Provisions—Market ruled very dull all day. Commission houses sold small amounts of May pork. Some buying by packers for May ribs. Good buying orders in market of July lard at $5.50 by houses representing Eastern connections. Market closed quiet.

Brockville, Ont., March 9.—Ne its history of nearly a century h town of Brockville been so con and thrown into such a terrible of excitement as it was to-day a by the enactment in broad da and on one of its leading tho fares, of one of the most awful dies ever occurring in the Do of Canada. The total result tragic affair was one man sho on the spot, the Chief of Police tally wounded, another member force seriously injured, an India ly hurt, and six others suffering or less from wounds inflicted single man armed with a breech ing shotgun; and the cause of terrible destruction and suffer himself lying at the point of from wounds inflicted by shots f him in order to put a stop to his dealing work and effect his cap

**Lapointe Was Running Amuc**

The town clock had just stru noon hour, and the streets thronged with people on thei to dinner. Suddenly the sharp of a gun was heard in the weste of the town, which caused the ing crowd to stop and ascerta cause. This was followed by oth ports in quick succession. Soo news spread that several person been shot, and the excitement b intense. The cause of all the t was a man named Lapointe, wh sides about six miles north of the on what is known as the Perth He has usually been looked upon not very sound mind, but gen inoffensive, except when under t fluence of liquor. He was a note hunter, and usually carried a g his rambles about the country. was in town on Saturday, and been drinking some. He left his h at an hotel here and must have w home that night. His movement ing the early part of to-day ar known as yet, though it is sup he walked into town. At all e just about noon he made his ap ance on Perth street, walking i direction of King street, the pri business street of the town. He accosted by several parties on his in, and he then talked quite ratio and seemed to be quite sober.

**The Insane Freak Struck Him**

As he neared King street he su ly threw his head back and gave to several loud yells such as fox ers often use in calling their dog at the same time fired a coup shots in the air. When he had within about 20 yards of the cor King and Perth streets he took u position alongside a high billboa the west side of Perth street. Ju this time, Chief of Police Rose hay ed to come up to the opposite c and Lapointe, taking deliberate fired, the charge of heavy buc lodging in his chest, throat and In falling to the ground the pushed an old man named Moore ward past the corner of the build

**Mr. Moore Shot Dead.**

Lapointe fired again, and Moor dead. Alonzo Serviss was a alongside Moore at the time, b escaped the effects of the shot gether. But an old Indian n Dickson, who was also close by not so fortunate. He received a tion of the charge in his face and staggered, and fell heavily t ground. By this time, as mig supposed, the wildest excitement vailed, the sharp reports of Lapo gun, his occasional wild yells, th rified exclamations of the spec and the mad rush on the part c latter to escape from the dreadfu nage, going to make up a scene rible in the extreme. But brave were not wanting in the crowd, a soon as they had collected them plans were set on foot to captur murderer.

**Kept Up a Steady Fire.**

The latter was all the time sta at the point where he had firs tioned himself, and at each disc of his murderous weapon could be calmly taking loaded cartridges his pocket and reloading. Cons Tinsley, who was in the police quarters, only a few rods away, out, and from behind the weigh-s close by was firing at Lapointe w revolver. The range was too long his shots proved ineffective.
