What Agoncillo Says.

Manila, April 2.—(6.30 p.m.)—The American troops under General McArthur, are still resting at Malolos, where everything has been quiet to-day. Hostillities elsewhere—so far as officially reported—have been limited during the last 24 hours to an occasional exchange of shots between the insurgents and the troops forming the lines of General Lawton and General Hall, extending from the water works to Lalonia. But this shooting has just been active enough to make the lives of the soldiers a burden, and to compel the officers to gleep in the trenches, clothed and in readiness to repel possible attacks.

Most of the Americans are becoming convinced that the backbone of the insurgents and to compel the officers to gleep in the trenches, clothed and in readiness to repel possible attacks.

Most of the Americans are becoming convinced that the backbone of the insurgents and to compel the officers to ploopsition is broken. There are numerous removes pointing to an early collapse of the insurgents action. One of these is that General Pio Del Pilar, the best fighter among the Filipino officers, will desert the first the surface and will desert among the Filipino officers, will desert among the Filipino officers, will desert the first transported the filipinal propers and the troops of a day's repose for in the follows on Sunday; repose for June agong Southing books on Sunday, and tendency form a personal knowledge of Chicago Sunday papers, deplores the present aleader, Munro Gibson, There in the fresh the filipinal papers, deplores the present and the deputation were: Str Wilfrid Laurier, Sir Louis Davies, Hon. As the Spaniards View It.

The Spaniards, reasoning from their experience of the natives, refuse to believe that the rebellion is anywhere near put down. They declare that the Filipinos will not take their defeat at Malolos with the loss of the city and the removal of their so-called government seriously to heart. On the contrary, the Spaniards predict that the insurgents will hover near the American lines, bothering them as much as possible, and when attacked in force, dissolve, only to reappear at other points. This sort of tactics—the Spaniards say—will be followed until the wet season compels the Americans to be housed in barracks, and then the Filipinos will return and re-occupy such towns as the United States troops do not garrison. With the next dry season a repetition of the present operations will begin. Time alone will show how much is in this theory; but, as against it, it must be borne in mind that the Spaniards in all their domination of the Philipines never gave the inhabitants a demonstration of power comparable in effectiveless to that given them by the Americans.

Filipinos Tired of Fighting.

A priest and two members of the socalled Filipino congress who hid themselves
in the woods during the fighting, which preceded the capture of Malolos, returned
there this morning and dectared that 2000
of the Filipino soldiers were anxious to
give up fighting, and would do so but for
their officers, who keep them under arms.

The whole country between Malolos and
Caloocan is now full of friendlies, mostly
women, children and old people, who are returning to their homes, carrying white
flags. The Americans are trying to gain
the confidence of the inhabitants by proving
to them that if they will return and attend to their ordinary work peacefully, no
harm will befal them. Two hundred and
fifty civilians came back to their homes in
Malolos on the east side of the city, and
afterwards sneaked away, carrying all the
goods they could.

WHAT AGONCILLO SAYS. The Capture of Malolos Not So Important as the Americans Want to Make Out.

Paris, April 2.—Agoncillo, the agent of Aguinaido, in the course of an interview published in La Patrie, says:

"The capture of Malolos is not as important as the Americans are trying to make it appear. The Filipino Government and already determined upon removal to San Fernando, and a small detachment of troops was left with orders to burn the town and thus to draw the Americans inland. Two months of rain and fever will save the Filipinos their ammunition and a good deal of trouble, and the war will not end while a single Filipino remains to bear arms. He charges Major-General Otis with opening hostilities, and holds the Americans responsible for the transfer of the Spanish prisoners and for preventing the Filipinos negotiating a treaty with Span. Agoncillo is confined to his room with the induenza.

La Patrie adds: "Mr. Haggart was a member of the late Government. He is a Privy Councillor, and if he were not like Col. Prior he should be ashamed of his bigotry."
