GERMANS DEMANDING RETURN OF PRISONERS

LONDON, June 15.—Because the German delegates at the British-German war prisoners' conference at the Hague are pressing for the return of all prisoners in Canada and Africa as all prisoners in Canada and Africa as a hitch

Hague are pressing for the return all prisoners in Canada and Africa well as those in Great Britain, a hit has occurred in the negotiations, te graphs the correspondent at the Dui capital of the Times. The difficult of such a course, it is contended the British delegates, particularly respect to shipping transport, make impracticable. The negotiations have now reached a most critical stage, but the correspondent says, there is reason to think they will prove abortive

ANOTHER PLOT FAILS,

THOSE WHO have read the views of Vice-Admiral Sir Rosslyn Wemyss on the German submarine activities off the American coast cannot have failed to be impressed with his ability to trace, from existing facts, the motive of the enemy in sending his U-boats across the Atlantic. His conclusion that no blockade of the American coast is possible is evident to the veriest tyro, who can realize that the number of under-water craft required for such a venture is far beyond the limits of German production, and the distance from home is too great. Few people, however, have been able to satisfy themselves as to what was the object, unless it was merely an attempt

Admiral Wemyss admits that it was such an effort, but with a decided and definite object, viz., to distract the attention of the Allied fleets from the narrow seas which are being policed so thoroughly. If the American people could be brought to demand the return of American warships from duty in the North Sea and Mediterranean in order to protect their own coast, Germany would be more than satisfied. This theory was advanced in The Advertiser at the time of the raid.

There are certain channels through which all to the city during the early hours from many submarines from German ports must pass in order surrounding points were nowhere to be found. "But what is I miss you?"

Laura was thoughtful. She was about to say. "Then come to the house, won't you!" But she decided it would be difficult to entertain an unknown soldier should he present himself there. Her mother would be sure to fuss, too. That was one thing about soldiers, they all looked alike, but dear knows who they were!

"Oh, I think we'll manage to meet here," she said. "I always come at this time."

"All right. Tomorrow then," he said. "I must go back now. Good-bye," and diving into the deep water on the other side of the rock, he was gone. The next day as usual. Laura paddled into the cove. And there was her soldier with a dog.

"Mercy! That's not my dog," she cried. "That looks more like an anteater than a dog."

"I hardly thought it was," he answered, crestfallen. "But it was the only one I could catch. Perhaps I'll have better luck tomorrow."

As usual, Laura had brought along some magazines and some candy. She offered him some of the sweets with an apology. "I don't approve of candy nowadays. But the boys insist on sending it to me from town. I've finally made them stop, but I have an accumulation of about fifty pounds. Some day, if I can get permission, I'm going over to your camp and distribute the whole thing."

[Special to The Advertiser.]
TORONTO, June 16.—Taken from the ranks of units at Niagara and Exhibition Camps today, Joseph Fuller, alias Frank Jackson, and Lyman Morrison, both aged eighteen years, were charged by provincial police officers with the murder of Theodore Taylor of Thomastown, a village six miles from Englehart.

town, a village six miles from Englehart.

Taylor was a farmer 70 years of age, and it was reported that he had disposed of his farm for several thousand dollars, a portion of which he was believed to have had on his person at the time of the murder. He was clubbed to death and robbed of \$95.

On May 25, the day after the murder, Morrison was arrested for carrying a gun and allowed to enlist by a police magistrate of the locality. That day Charles Cooper was arrested by Provincial Officer Rowell, and is said to have given the information upon which the police then commenced to act.

Fuller disappeared by canoe. Reaching Bracebridge, he came to Toronto to enlist and was taken into the ranks. When the police visited the camp it was found that Fuller was held as a deserter. It is stated that he does not deny complicity in the crime and admits striking Taylor, but not the fatal blow.
