EXTEND LEMIEUX ACT TO BUILDING TRADES Deputation of Contractors Request Minister of Labor to Have New Insurance Bill Enlarged.

OTTAWA, March 10.—(Special.)—Requesting an extension of the Lemieux Act to other industries than public utilities, the enactment of a federal law governing workmen's injuries and an enlargement of the present industrial insurance act to cover industrial insurance, a deputation from the Canadian National Association of Builders, now in convention here, waited on the minister of labor to-day. They were introduced by Major Beattie.

J. Herbert Laner of Montreal argued that as Mr. Fielding was about to bring in a new insurance bill the opportunity was afforded for the inclusion of industrial insurance. In regard to a compensation for injuries to workmen, he represented that under existing conditions it was impossible for building contractors to estimate their risks in this respect, as the laws were different in the provinces.

Contractors were at the mercy of sympathetic juries and verdicts were usually based, not upon the earnings of the injured or deceased, but upon such considerations as the number of his family and his temporal condition.

Mr. Laner advocated a federal act basing compensation upon the earning capacity of the employe for three years and a maximum award of \$5000 to be dealt with, not by the court, but by an official board of arbitration. Mr. Laner asked that the operation of the Linieux Act be extended to the building trades.

Mr. Lemieux promised that if the act bearing his name were amended, as it probably would be, it would be in the direction of extending the principle of compulsory investigation to other industries than public utilities. As for compensation for injuries, it was a matter of civil rights, falling wholly within provincial jurisdiction.

As to the proposal that a federal compensation act be passed, he could offer no encouragement. It was a matter of civil rights which fell wholly within jurisdiction of the provinces.

The lowest priced tea is not the cheapest. "Brown Label" "Salada" Tea at 30c per pound makes many more cups than any tea sold at 25c per pound. It is therefore the only business deal to use, but it is infinitely more delicious.

10,000 Extraordinary Watch Sale 10,000 Watches. Public Amusements. The expectation that Mrs. Fiske would draw exceptionally large and brilliant audiences on her appearance at the Royal Alexandra Theatre was justified when enquiries relative to the reservation of seats began to pour in Monday morning, and has so far not abated. There is every reason to believe that Mrs. Fiske will duplicate here the great success which attended the production of "Salvation Nell" in New York, Chicago, and other cities.

THE WITCHING HOUR by Augustus Thomas, which will appear at the Princess Theatre next week, is a great play. It is not a lesson, a sermon, a treatise, a discourse, a debate or a clinical diagnosis; it is a drama. The subject is the influence of mind upon matter, independent of the usual methods of communication, by means of the acknowledged senses.
