PRISONER'S WIFE PLACED ON STAND

Mrs. Frank McDonald Testifies to Hearing Alleged Trainwreckers' Discussion.

THREATENED BROTHER

Startling Statement is Put in as Confession Obtained in Detroit.

Special to The Toronto World. Chatham, Feb. 15.—Evidence of a startling nature was reached this afternoon in the trial of Frank McDonald, charged with murdering Stephen Quinlan and Russell Oakes, who were killed on May 31, 1911, when a M. C. R. express was derailed. A sworn confession by McDonald was allowed to go to the jury as evidence, with strongly objected to by F. C. Kerby for the prisoner.

The confession, as follows, was obtained in the Detroit police headquarters in October last by inspectors Sprad and Fox, who were holding the prisoner on suspicion: "We went over to the section house, my brother Henry and I, and I asked him what he was going to do. He replied that he was going to fix a rail. He broke the door open, secured a wrench and a claw-bar. With these we went up the track and I held the wrench on the nuts while my brother tightened them, as I thought, I found he had loosened all the bolts and was commencing to pull out the spikes, at the same time stating that he was going to get even with the damned railway. I said, 'You will kill a lot of people and you had better put the rail back' at which he pulled a revolver and stated he would blow my brains out. After pulling a few spikes I ran for

REPUL GERMAN LINES.

Another evening, after a heavy preparatory bombardment, a determined attack was made by a specially trained party of 25 or 30 men, only a few succeeding in entering our front line where it had been badly damaged, and those were immediately driven out. These unexploded mobile charges were left by the enemy. We took two wounded prisoners and brought in one dead German. There were evidences of other casualties as well. Our own losses amounted to one killed and one wounded.

FAVOR HALIFAX AS PORT OF SEARCH

(Continued from Page 1).

Other lines of Scandinavian countries were said to have filed cables messages today to their home offices asking for orders. Among these lines are the Scandinavian-American, which has the Hellig Olav in port, and the Norwegian-American, with several freighters loaded and ready to depart to board the Stockholm and the Carls-holm.

To Clear War Zone. At the British consulate here it was said late today that no word of arrangements whereby neutral ships could call at Halifax instead of Kirkwall, had been received, but it was added that the negotiations would be handled direct between neutral governments interested and Great Britain. Announcement of sailings was held to be sufficient indication that the British admiralty had raised no objections to the plan. From Halifax the vessels for Holland, Norway, Sweden and Denmark cantake a direct course that will carry them far to the north of the British Isles, and clear of the war zone indicated in the recent German declaration.

Word that the ships would sail and intimation that others would follow within a short time was received with satisfaction by steamship agents handling cargoes for neutral countries of Europe. Not only will it relieve congestion of shipping in American ports, but it was explained that the merchandise for these countries, consisting largely of grain and foodstuffs, is badly needed.

At the office of the American Line it was said that no answer had as yet been received from the navy department to the request for guns with which to arm the St. Louis, St. Paul, Kronland and New York, now tied up at their pier.
