TEXTILE FIRMS **CONSIDER SCHOOLS**

Think It Possible to Found One With Provincial Assistance.

A meeting of the Textile Foundation of Canada was held at the Queen's Hotel yesterday after-noon to receive the report of the committee appointed a few weeks ago to draw up a scheme of technical education for the textile inqustry, including the establishment of a textile school. The meeting was addressed by Col. L. W. Ghi, director of technical education of the department of

labor of Canada.

Professor Gill pointed out the manner in which the Dominion grant would be apportioned for such purposes, and stated that whatever aid was given would be granted thru p.ovincial chan-nels. He advocated that the industry should present a definite, clear-cut scheme to meet its own educational problems, which he was sure would be regarded with sympathy by the edu-cational authorities.

Fraicis W. Merchant, provincial director of technical education; explained the conditions under which provincial grants are available for the support of industrial and technical education. After a full discussion following his remarks, it was feit by those present that a textile school might be founded under the existing educational machinery of the prov-

Committee Appointed.

A representative committee was appointed to formulate a definite scheme, the general principles of which were unanimously approved by the meeting. The scheme will be presented before the educational authorities both

here and in Quebec.
