

THE EVENING TIMES, ST. JOHN, N. B., WEDNESDAY, MARCH 21, 1930.

THE IDEAL WIFE

Shapes the Destiny of Men—The Influence of a Healthy Woman Cannot Be Overestimated.

Seven-eighths of the men in this world marry a woman because she is beautiful in their eyes—because she has the qualities which inspire admiration, respect and love.

Mrs. Bessie Ainsley

There is a beauty in health which is more attractive to men than mere regularity of feature. The influence of women glorious in the possession of perfect physical health upon men and upon the civilization of the world could never be measured.

What a disappointment then, to see the fair young wife's beauty fading away before a year passes over her head. A sickly, half-dead-and-alive woman, especially when she is the mother of a family, is a damper to all joyousness in the home, and a drag upon her husband.

It is the saddest of all the doctoring does no good. If a woman finds her energies are flagging, and that everything she does, dark shadows appear under her eyes, her sleep is disturbed by horrible dreams; if she has backache, headaches, bearing-down pains, nervousness, or dependency, she should take means to build her system up at once by a tonic with specific powers, such as Lydia E. Pinkham's Vegetable Compound.

so grateful that I am glad to write and tell you of my marvelous recovery. It brought me health, new life and vitality. What Lydia E. Pinkham's Vegetable Compound did for Mrs. Ainsley it will do for other women who are in poor health and ailing. Its benefits begin when its use begins. It gives strength and vigor from the start, and surely makes sick women well and robust.

POLICE BELIEVE THEY SAVED MONCTON MAN'S MONEY

Frank Hopper Imbibed Too Much and Joe Guthro Took Him Home as Guest—His Vest With Gold Watch Under Bed, Ragged Garment Substituted—Police Followed Pair and Made Arrest.

What is thought was a budding robbery was neatly nipped in the North End last night through timely and effective work on the part of the police. A young man named Frank Hopper, claiming Moncton as his home, was, the police believe, lured by Joseph Guthro to the place the latter calls home in an alley off Moore street.

"You can't hold me for anything. He's got all the money." He was searched and \$2 and a small quantity of change was found. This money, he declared with picturesque emphasis, belonged to him. The full amount in the possession of Hopper was \$71.

Policeman Covey and Greer, in Main street, saw the two men through Morgan's alley and, suspecting what was in the air, followed. When they knocked for admittance, Guthro came to the door, and his welcome was the reverse of gracious. The police went in, and in a wretched room in the rear of the kitchen Hopper was found. Guthro's sister was also there.

Second Search Fruitless. Following the arrest a second visit was made to the house, for it was thought possible that a part of Hopper's money might be concealed on the premises. None, however, was found. In the bedroom Guthro's sister was found almost concealed from sight beneath a heap of ragged blankets and coats. Close to the bed was a small crib, and in it an infant, who cried weakly when the police made the covering of rugs. It required several invocations of the most urgent character before the woman would rise from the bed. She was fully dressed.

ST. JOHN SCHOONER ADELENE ABANDONED AND WATERLOGGED

Provincetown, Mass., March 20.—The schooner Adele, of St. John (N. B.), was sighted waterlogged and abandoned sixty miles east of Highland Light on March 13, by the schooner Manuel H. Cune, which arrived here today.

The schooner Adele left this port on March 13 with a cargo of 1,123,000 lbs. shipped by Alex. Gibson & Co. to New York. The schooner is of 193 tons and was built at Rocksey (N. B.) in 1883 by R. T. Cox. She is 102 feet long, 28 feet beam with a depth of hold of 9 feet 9 inches.

Little Damage to the Harry Miller. The big three-masted schooner Harry Miller, Captain Miller, anchored off the Beacon light, dragged her anchor in yesterday's blow and, in consequence, was blown along the Beacon bar, the tide being low at the time. Captain Miller signalled for a tug, and the Lord Kitchener went to her aid.

The schooner was too shallow to get closer than a couple of hundred feet to the shore, it was necessary to take a hawser to her in a small boat. As the storm was mostly toasting, there was no trouble in getting her off. She was towed to Gibbon's coal wharf, where she is now docked.

LUMBERMEN WILL CONFER

A SPRING TONIC Dr. Williams' Pink Pills Make Rich, Red, Health-giving Blood.

Within a few weeks it is expected that there will be held in St. John a conference between representatives of the St. John River lumbermen and the Grand Falls Power Company in an effort to reach an agreement upon features of the company's plans to which the lumbermen have taken objection.

Cold winter months, enforcing close confinement in over-heated, badly ventilated rooms—in the home, in the shop, in the school—sap the vitality of even the strongest. The blood becomes clogged with impurities, the liver sluggish, the kidneys weakened, sleep is not restful—you awake just as tired as when you went to bed; you are low spirited, perhaps have headache and blotchy skin—this is the condition of thousands of people every spring. It comes to all unless the blood is fortified by a good tonic—Dr. Williams' Pink Pills. These pills not only banish this feeling but they guard against the more serious ailments which usually follow—rheumatism, nervous debility, anemia, indigestion and kidney trouble. Dr. Williams' Pink Pills are an ideal spring medicine. Every dose makes new, rich, red blood. Every drop of new blood helps to strengthen the overworked nerves. Overcomes weakness and drives the germs of disease from the body. A thorough treatment gives you vim and energy to resist the torrid heat of the coming summer. Mrs. Mack A. Meuse, Slicey Point, N. S., says: "I was so completely run down that I could hardly work. I decided to try Dr. Williams' Pink Pills, as I had heard them highly spoken of, and a few boxes worked a great change in my condition. I am now feeling as well and strong as ever. I did and can recommend the pills to all weak people."

Tenders are being asked for the erection of a combined station and dwelling and combined freight shed, baggage room and coal shed at Belmont (N. S.), on the I. C. R.

Dr. Mott desires to thank his friends for their kindness to Mrs. Mott during her illness and for their sympathy in her bereavement.
