There is a very improbable rumor that American Ambassador Gefard is returning from Berlin to Washington to ask President Wilson to use his influence to bring about peace negotiations. Germany will not soon yield to such a peace as eventually will be forced upon her, and therefore we must be prepared for further sacrifice in the great cause to which the British empire has dedicated itself with unselfish devotion and the grim determination that marks the British race.

in Germany toward the Americans is very far from being cordial at the present time. But whatever Germany may propose, the Allies will fight on. Their attitude was admirably stated by Lord Robert Cecil yesterday, in an interview on the subject of British relations with Robert Cecil yesterday, in an interview on the subject of British relations with Sweden. He said:

"For Germany I am not in a position to speak, but for ourselves and our allies I can say that we, who did not wish this war, and who entered it reluctantly, are determined, now that we are in it, to obtain a victory which will insure lasting peace by showing the enemy that wars of aggression will not be allowed to succeed."

Lord Robert enumerated some of the crimes of Germany which make it impossible for the Allies to talk peace until a repetition of these crimes against humanity has been made impossible. And so, whether the war continues for one year or three, the peace terms will be dictated by those who stand for righterman.
