SOLD MORE FISH THAN USUAL

Local Dealers Speak of Observance of National Fish Day Here.

The reports of business done yesterday, the national fish day, from the various dealers in the city show a great deal of difference, changing all the way from sixty per cent. increase in one case to none in others. The consensus of opinion at the fish stores puts the increase for the city at an average of between twenty and twenty-five per cent. over the regular Wednesday trade. Of several dealers consulted, all but one thought this day to have been better than the one last year. The one who did not agree with this said the business was not so good because the same variety was not on hand and there were a lot of people doing their own fishing, while employment was scarce. In all, though, reports seem to indicate that the day was a success in bringing the value of fish as a food before the people of this city.

JOHN R. HAMILTON DEAD IN BATH, N. Y.

TEAMSTERS ALSO ACCEPT WAGE CUT

Advise City Council That the Wage Scale Submitted is Satisfactory—The Prospect Point Water Extension.

A letter was read at this morning's committee meeting of the common council from the Teamsters, Chauffeurs' and Stablemen's Union, advising the council that the union had approved and accepted the schedule of wages submitted by the city. This called for a reduction of about twenty-five cents a day, the present rate being: Chauffeurs, \$3.00; double teamsters, \$3.00; single teamsters, \$2.25 a day.

Notice of acceptance by regular city employees was received at a recent meeting.

On the question of pay for single double teams required in excess of the number kept in the departments, Dr. Frink announced that he understood a delegation desired to appear before the council.

The mayor said, if necessary, a special meeting of the committee of the whole could be held to hear it.

The matter of the request of the St. John Fisheries, Ltd., for a partial exemption of taxation, was further discussed. Mr. Bullock said that it was apparently the idea of the company to request exemption only on that portion of its plant used in the canning of sardines.

The mayor said in view of representations from West St. John, consideration should be given the matter. He said if necessary he would call a special meeting to deal with the application.

Prospect Road Water.

Regarding the proposed extension of an 8-inch main down Prospect road toward Murray and Gregory's mill, Commissioner Jones said that J. Fraser Gregory had signed an agreement with the city guaranteeing a revenue of six per cent. on an expenditure of \$5,200.

Mr. Jones moved that the agreement be approved and the original estimate of \$1,288 be increased to \$5,200.

Mr. Hare said that Mr. Gregory in his original letter asked definitely for 300 feet extension. He said Mr. Gregory agreed verily to pay ten per cent.

Dr. Frink said that if Mr. Gregory agreed to pay ten per cent. there was no reason for changing it to six per cent.

Mr. Jones said six per cent. would cover the charges, and he was willing to accept the responsibility.

The mayor said Mr. Gregory's original letter asked for 300 feet and next spring he intended to extend the pipe to his mill and would install two hydrants.

The engineer said that when the three hundred feet was completed the work was stopped. He could not say who ordered it resumed.

Mr. Jones said that he would see Mr. Gregory again and get an agreement covering a guarantee of ten per cent. of the cost of the work.

The mayor reported that there was a pay-roll of \$800.00 unpaid on this work as the original vote had been extended.

It was decided to get the new agreement and have a special meeting of the council to authorize the payment of deferred wages.

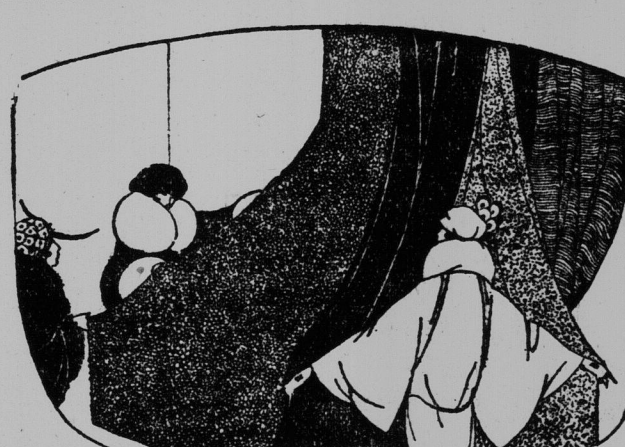

TOWED TO MOUTH OF CHANCE HARBOR

Effort to Save Schooner Senator That Keel Over in Bay.

J. C. Chesley, local agent of the Marine & Fisheries department, received a telephone call from William Harkins of Chance Harbor this morning saying that they had succeeded in towing the two masted schooner, Senator, to the mouth of the harbor, but were unable to get her any further. The Senator sprang a leak about four miles off Upper Harbor and while trying to make that port keeled over on her beam ends. The vessel is still over on her side and the masts are under water. Mr. Harkins asked that a tug be sent down immediately to assist in placing the vessel safely in the harbor.

Word to this effect was communicated to H. S. Culver, American Consul at this port, and he notified Captain White of the Senator. It was decided that Captain White, First Mate Carlo Picardi and a representative of the underwriters proceed to Chance Harbor this afternoon to decide on what action is necessary.

When the vessel keeled over the captain and crew took to their boats and landed at Black's Beach and then drove to this city.
