OVER THE WIRES

Red flags were in evidence in London yesterday during a demonstration by unemployed men who had sent a delegation to Premier Lloyd George asking for the relief of the unemployed. Crowds gathered at Whitehall at the entrance to Downing street and an effort to break through the police guard was made, but

the crowds were dispersed by the depuration when they emerged from Downing street. Several persons were injured.

A monument erected to the memory of Sir Wilfred Laurier at Ilerve, was unveiled yesterday by Lady Laurier before an assemblage of about 5,000 people. Robert Laurier, Sir Lomer Gouin, Hon. Edward Quail of Philadelphia, engineer on passenger train No. 202, of the Pennsylvania railroad, bound from Philadelphia to New York, was killed yesterday near Colonia, N. J., when his train crashed into the rear of a freight train. Several persons were injured.

About 200 convicts at the Kingston penitentiary went on strike Saturday and have refused to work. They have been locked in their cells but during the night kept up a continual uproar by yelling and pounding on the doors with cooking utensils. One of the principal causes of the uproar is the refusal of the officials to allow the men to have tobacco.

Being mistaken for a bear, Woodford Close of Devon was killed yesterday morning in the woods near Nashvauk Village by a man named Joseph Owen of Stanley. Close was sitting on a fallen tree when Owen came along. Dr. B. M. Mullin of Devon decided that an inquest was not necessary.

Carleton Place, Ont., Oct. 19.—Andrew Neilson, a prominent business man here, dropped dead in the street last night. He was in the jewelry business for thirty-five years.

Why Doesn't Your Sleep Rest You

WHEN a man really rests, sleeping soundly all night, he wakes up with a new feeling of being alive—almost like being made over again.

But how often you hear someone say—"Oh, I sleep all right, but it doesn't seem to rest me!"

Probably this has happened to you many a time. The fact is that you did not sleep soundly—and your bed had more to do with it than you realize.

A creaky bed, a bed that sways, a spring that sags and lets you down into a hollow, a mattress that is lumpy or uneven, pillows that are hard or unclear—put your nerves on edge and make your muscles tense.

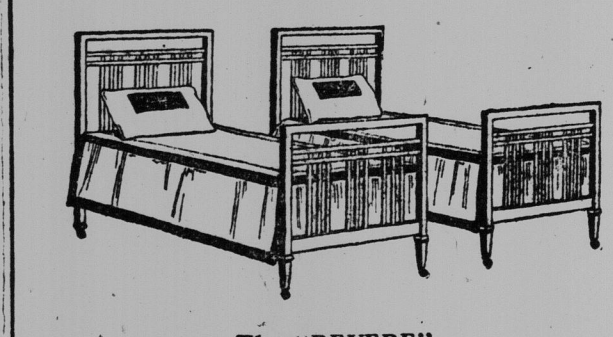

For deep, sound sleep you must have equipment built for sleep by Simmons Limited—in inviting every nerve and muscle to relax.

The Simmons Metal Bed is noiseless.

Just as the sleep-inducing Spring is a Simmons "Waldorf," of specially tempered spring coils. Fine Springs that fit the contour of the body and support the spine

Sleep is a big subject! Write us for the booklet, "What Leading Medical Journals and Health Magazines Say about Separate Beds and Sound Sleep." Free of charge.
