

Aged Brothers in Good Health

Mr. JOHN HENLEY, Sr., 80 years old, and Mr. W. M. HENLEY, 85 years old.

Duffy's Pure Malt Whiskey

The experience of both these men is similar to that of thousands of men and women who have been brought to a state of health and vigor by using Duffy's Pure Malt Whiskey as directed.

WAS A YOUNG MAN OF STERLING WORTH

Much Regret at the Death of Peter Clarence Reynolds

Millstream, July 28—Much regret was expressed throughout the community when it was learned that death had visited the home of Mr. and Mrs. John Reynolds of Millstream on the 20th inst., and claimed their fourth son, Peter Clarence. Death was due to pleurisy which he contracted more than a year ago and from which he never fully recovered.

He was a graduate of the Provincial Normal School and was also a student of St. Joseph's College, Memramouc, until this year when he resumed the teaching profession with the intention of returning to college in the fall. He was compelled through ill-health to give up his school in April.

Mr. Reynolds was a young man who possessed a stern sense of duty and this trait of character was strongly marked in all his acts. He lived his short life as one of true worth, giving up his time and talents freely and unselfishly to his fellow students and pupils who will ever cherish his goodness and gentleness of heart and mind. He bore his suffering with christian patience, never giving up until the last when he was perfectly resigned. He leaves his parents, three sisters and four brothers to mourn the loss of a loving son and brother. The funeral, which was attended by many, was held from his late home on Wednesday, July 29, at St. Philip's church, where a mass of requiem was celebrated by Rev. Fr. Grogan of St. Peter's church, St. John. He also held service at the house and grave. An appropriate sermon was preached by Fr. Grogan from the Epistle of St. Paul. Interment took place in St. Philip's cemetery. The pallbearers were the four brothers of the deceased. Among the floral offerings were a cross and crescent with the words "brother". A large circle of friends gave their sympathy to the family in their bereavement.

FIRST TRAIN OVER THE GIBSON AND MINTO LINE

Completion of Laying of Rails Yesterday—Operation by C. P. R. in Autumn

(Fredericton, Tuesday) Today marks the meeting of the steel and the completion of the laying of the rails of the Gibson and Minto Railway and this evening the first coal will be hauled from the Minto Company's mines to Gibson.

The construction of the line of railway and the laying of the rails has been carried from both the Gibson and Minto ends and today the connection has been made. A temporary bridge has been erected over the Burpee stream to replace the temporary which was carried out last winter and this will be used along with the other temporaries until the steel bridges are erected in the course of a few weeks.

The first consignment of coal coming over the road will be for the construction contractors, Messrs. A. E. Trites & Son, for their use, but it is proposed to commence the hauling of coal actively and with this end in view arrangements are now being completed between the contractors and the Fredericton and Grand Lake Coal & Railway Company, for whom the road has been built, and consignments of coal will probably be hauled regularly over the line from now on.

It is not expected that the road will be taken over by the company from the construction contractors before the month of September. There still remains a considerable amount of work to be done in the way of ballasting and finishing up and the contractors are hurrying this work along as rapidly as possible with their construction trains, steam shovels and other complete equipment. The excellence of the work which has thus far been done by the contractors has met with much favorable commendation, Messrs. A. E. Trites & Son having built what is in every way a first-class line of railway.

The completion of the Gibson and Minto Railway will be followed by its operation by the Canadian Pacific Railway Company this fall and all this means a new era of development for Fredericton. It has often been said that the Gibson and Minto Railway will move towards developing Fredericton and the construction of the St.

John Valley Railway, inasmuch as it will put Fredericton in touch with an absolutely new territory and one which has heretofore been served from St. John. The operation of the Gibson and Minto Railway will mark a new era in Fredericton's business annals and is being eagerly looked forward to by the business houses of the city. It is expected to also have an important bearing on Fredericton's industrial future, as the coal mines at Minto on the extensive scale that has been commenced under the direction of Sir Thomas Talbot should mean cheaper fuel for steaming purposes for Fredericton's industries.

HOW TO TREAT PIMPLES AND BLACKHEADS

Successfully and Speedily With CUTICURA SOAP

And Cuticura Ointment, at a trifling cost, is learned from the special directions which accompany these pure, sweet and gentle emollients.

She was highly esteemed and is survived by five sons, James L. and Edmund L., of Reston; George A., barrister of Richibucto; Robert and Frederick living in the States. The funeral was held on Sunday and was largely attended. Rev. C. H. Hardy and Rev. F. W. M. Bacon conducted the services.

MAKE BIGGEST RAILROAD "FILL" IN THE WORLD. Spokane, Wash., July 30—Earth is being hauled from the Snake river, a distance of sixty-five miles to Wanlock, Wash., to make the largest railroad fill in the world. The fill will replace a Spokane, Portland & Seattle railway wooden bridge 3,000 feet long and seventy feet high, built at a cost of \$150,000. It will require 800,000 cubic yards of earth and rock to fill the gap. One steam shovel and four trains of twenty-five cars each are engaged in the work, which will cost approximately \$1,000,000 and will consume about eight months time.

The value of the United States farm products in 1912 is officially estimated at more than nine billion dollars.

DEATHS. IRWIN—In this city on July 30, Everett Hall, infant son of Mr. and Mrs. R. H. Irwin, aged one year, one month. Funeral 2:30 Thursday, July 31, from 60 Gilbert street.

CAMPBELL—In this city on July 29, John Campbell, leaving a wife, one son and two daughters to mourn. Funeral Friday morning at 8.30 from his late residence, 281 St. James street, West, to the Church of the Assumption for high mass of requiem.

MURPHY—In this city on the 29th inst., Nicholas Murphy, aged 72 years, leaving one sister to mourn. (Halifax papers please copy).

Funeral from his late residence, 18 Wall street, Thursday morning at 8.45 to Holy Trinity church for high mass of requiem at 9 o'clock. Friends invited to attend.

CLERKE—After a short illness the death of Charlotte Clerke, widow of James Clerke, occurred at the residence of her daughter, Mrs. Norman Rumsay, Bridgetown, N. S. She leaves three sons and one daughter.

Funeral Friday, from the residence of her son, Robert Clerke, 29 Pitt, at 2.30 p. m. Coffin taken at the door.

IN MEMORIAM. DENNISTON—In loving memory of Annie J., beloved wife of Benj. A. Denniston, who departed from this life July 30, 1913. "Forever with the Lord."

Belleville, Nova Scotia, Can.—"Three years ago I was suffering badly with what the doctors called Change of Life. I was so bad that I had to stay in bed. Some friends told me to take Lydia E. Pinkham's Vegetable Compound and it helped me from the first. It is the only medicine I took that did help me and I recommend it to all women who are suffering from what I am. I give you permission to publish what your good medicine has done for me."—Mrs. SIMON DOUCETTE, Belleville, Yarmouth Co., Nova Scotia, Canada.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dizziness, nervousness, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dizziness are promptly heeded by intelligent women who are approaching the period in life when woman's great change may be expected.

Lydia E. Pinkham's Vegetable Compound invigorates and strengthens the female organism and builds up the weakened nervous system. It has carried many women safely through this crisis.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

TWO MORE BIG TRIPS

starting July 1st, 1913, drawing takes place Dec. 31st, 1913.

BIG GRAIN CROP IN CANADA ESTIMATED. (Montreal Herald) It would be an extremely difficult task, for one, even to imagine a more satisfactory weather belt. It is ideal. As far as the reports that came in today went, there is not one flaw in the whole of the west. Black rust rumors are false.

It is very difficult to get an accurate idea of what the crop in Canada will be. The reports that came in today, however, are very encouraging. The estimate of about 300 million bushels, most traders are inclined to favor Mr. Carruthers, as he has the ground covered very thoroughly, and he keeps in constant touch with all of the Canadian West.

This estimate is far and above an average crop and should this ideal weather continue, there is very little doubt that this will materialize.

In oats, the belief that the crop is a very heavy one to carry and traders look for some depression in prices when the movement of the new crop begins.

DEATH OF ROSS DUE TO ANOTHER'S DISOBEDIENCE. The inquest into the death of Ernest Ross, who was drowned by being carried overboard from a mud scow owned by the Norton Griffiths Dredging Company, was commenced last evening, Coroner Berryman presiding. Captain George Arthur Davis, of the dredge McDougal, gave evidence that he had instructed the tugboat captain to take the scow into the harbor on account of rough weather, but the latter had disregarded the instructions and taken it out to sea to dump. He had no control over the scow after the tugboat took charge of it. In other ports only one man was allowed to each scow, but two were usually employed here to facilitate the work and as a safeguard against accidents. He would have sent two men if he had known it was going to sea. The inquest was adjourned until the evening of August 5.

DISASTERS ON ST. LAWRENCE. The C. P. R. steamer Lake Manitoba grounded yesterday afternoon on the Island of Orleans but was floated, after a few hours, by tugs sent from Quebec and proceeded under her own steam. An examination of the wreck will be held at Montreal to determine the cause of the disaster. The steamer Crown of Cordova collied.

The Best Quality at a Reasonable Price. You Should Have Your Eyes Tested.

That you may know absolutely whether your eyes are normal, whether they are able to do without distortion or fatigue, if you cannot see as well as your competitor, you are handicapped to that extent and in these days of strenuous business you need every advantage you can get.

If you do not know that your eyes are all right, come in and have us examine them for you. We will tell you exactly what they need. Come early in the morning at soon after the night's rest as possible for then the eyes are in the best condition for testing.

More Evidence of Soundness of Things in Canada. (Montreal Herald) "In neither city did I find anything but complete and quiet confidence in the soundness of Canada's economic position and in the steady advance of the tide of prosperity."

This is the declaration of George H. Wykes, special correspondent of Financial America of New York city. Mr. Wykes, special correspondent of Financial condition appeared in the Sunday Herald. It was written from Montreal. The second article is from Toronto.

"In my first article," he says, "I made it quite clear I venture to think that the criticism and gloomy predictions concerning Canada's financial position lately indulged in by certain financial writers in the United States and England, have engendered in financial circles in Montreal and in government circles at Ottawa, nothing beyond a feeling of unfair treatment."

"Here in Toronto, I have found the spirit and the outlook of the critics are being good-naturedly laughed at. It is admitted that at the present time a lull in municipal and commercial enterprise is being experienced but it is argued that this is due wholly and solely to universal financial stringency and that nothing is wrong with the fundamentals of Canadian finance."

Mr. Wykes goes on to quote Sir Henry Pellatt in a forceful interview. Sir Henry advances the theory that the attempt made to create an adverse impression in American and European markets concerning financial conditions in the Dominion, has been engineered for the purpose of checking immigration of American farmers into Canada to intercept the flow of United States money into Canada for manufacturing purposes and also, perhaps, to divert European capital from Canada to the United States.

Impossible to Fall Back. "I have no misgivings whatever," says Sir Henry. "Canada possesses wonderful and enormous natural resources, facilities for transportation, both by rail and by water, are improving and growing rapidly, and the country has reacted that stage in her development which makes it impossible for her to fall back. Canada may, of course, have periods of depression and dullness, but she will inevitably progress."

Another important witness in support of the claim that the extent of Canada's imports does not necessarily reflect upon the country's business and financial soundness, is Professor James Mavor, head of the Department of Political Science in the University of Toronto. He has entered the case in a statement which he has made to the press. "The excess of imports over exports in Canada, including specie, has not been doubted, but he has pointed out that this is a normal condition of affairs in a country which is developing rapidly and which is making a large amount of investment in the development of her resources. The fact that the country is importing more than she exports is a sign of progress, and it is not a cause for alarm, as it is commonly supposed. The loans which have been effected in England have entered the country chiefly in the form of goods from the United States and if the analysis before mentioned is correct, these goods have predominantly been used for the purpose of development."

L. O. Armstrong, the experienced head of the natural resources department of the C. P. R., said: "What gives us in Canada our greatest sense of security is the vast extent of the undeveloped resources which we are discovering every day."

EXPECTATION OF LIFE. Longevity is less common in New York than formerly. While a child's chances of life are far better than they were a generation ago, longevity is less common. In 1882 the "expectation of life" for a child of five years was 41.8 years; now it is 51.9 years. In 1882 a person 85 years old had an average chance of living another 26.7 years; in 1913 he ought to have 26.9 years before him. That, however, is the last age at which the chances of life have improved. At 40 an average of only 28.4 years of life now remain, as compared with 28.9 years in 1882; and after 40 the disparity grows steadily until a person 80 has now a statistical right to but 4.8 years of life, as compared with 6.4 years a generation earlier.

VITALITY SHOWS IN A MAN'S EYES

This, reader, applies to you. It means no medicine, no stimulants to rob you, no rules for diet or exercise, no hardships of any kind. Absolutely nothing that is not perfectly easy for you to use and follow. One promise and one promise only I exact; you must lead a DECENT life during treatment and hereafter, otherwise your strength cannot be properly or permanently restored.

I can only afford to pay for enough space in this paper to hint at what my method is, but as soon as I receive the coupon below from you I will send my 80-page illustrated book which not only contains a lot of private information for men but tells the full story of my wonderful discovery, what it is, where you may get it and how it is to be used.

Thousands are taking advantage of this method today for the restoration of lost strength; not only that, but the method is applied in a certain way it is a specific treatment for rheumatism, kidney, liver, stomach, bladder diseases and general ill health. It puts energy, snap and go into your whole body. Your eyes sparkle with new power.

Drop in at my office, if in or near this city, that I may give you a practical demonstration of what the method will do. You can test it yourself and see. Hours, 9 to 6. Please write today.
