which has so long been blockading the harbor of Rio de Janeiro bombarded the city on Sunday under Admiral de Mello's order. The firing was severe, and the damage done exceeded that of the first bembardment. Several women and children were killed, but the extent of Jamage and loss of life is not known, as no news is permitted by the government to be sent direct from Rio de Janeiro. Part of de Mello's fleet is still keeping 5,000 tons. This fall a trial will be up a vigorous blockade of Santos. Copies of Admiral de Mello's proclamation have been received here. Four members of the Bruzilian congress on board the rebel cruiser Aquidaban have signed the address to the public. They say that President Peixcto and the members of the cabinet lave been stealing public funds, descroying the autonomy of the state and fomenting national war in order to serve their ewn ends. These acts, together with the dictatorial conduct of both the president and vice-president, compel the signers, as representatives of the national will, to make the present solemn fight for free the criminal law act which will be introdom. London, Sept. 25.-The Pail Mall Gazette says, a cipher letter has been received from Rio de Janeiro showing that the restoration of the monarchy is undoubtedly the intention of the revolt. and adding that the army and navy will

soon co-operate to this end. The Brazilian minister in this city has received the following disputch from Rio de Janeiro: The revolution is growing weaker day by day. Admiral de Mello is reduced to the last extremity. All he states denounce his attempt to overthrow the present government and the people are enthusiastic for Peixoto's government. The army generally is loyal. The city is as tranquil as if no revolt had occurred, and the government is fully confident that it is sufficiently powerful to maintain its authority. Buenos Ayres, Sept. 25.-Ships of the

insurgent fleet are blockading the port of Santos. The town of Rosario is in the hands of the rebels. The national troops retreated to San Nicolas, 50 miles distant from Rosario.

Washington, Sept. 26.-The delays and accidents that have contributed to prevent the United States government from affording adequate protection to the interests of its citizens in Brazil appear to be about at an end. The Charleston left Montevideo for Rio several days ago, but had no official or definite information to that effect until this morning, when a brief dispatch, dated yesterday, was received from Mr. Hill, U. S. consul at Montevidéo, stating that she left on Friday. She ought, therefore, to reach Rio inside of 24 hours.

Lancashire Miners. London, Sept. 26.-The Federation

miners of the county of Lancaster have been meeting to-day at St. Helen's, Pendlebury and Preston to appoint delegates to the strikers' conference in Derby next Friday. The point at issue is whether the men shall continue the strike against the 25 per cent. reduction in wages proposed by the owners. The meetings voted by a large majority that their delegates favor a resumption of work in all the collieries where the owners would allow the old rate of wages. Every meeting, however, attached the condition that the owners should promise all members. This condition will render a settlement of the strike still difficult, as the object of the levy is to colall the revolutionary clubs in Lonlect funds for another strike during the winter when the demands for coal will don this morning showed an inclination to compromise with the strikers. Fanny Claffin's New Fad. New York, Stpt. 28.-Lady Cook, of London, once known on this side of the water as Fanny C. Claffin, is once more attracting attention in her favorite field. With some of her friends she is about to bring into existence a rescue society for men, similar to the various rescue societies established for women in the big cities of the old and new world, and the object of which is to wean the sterner sex from habits of immorality. She has also drafted a bill for an amendment to occasional or frequent cohabitation with women of ill-fame, public or private, may of a trial by jury.

Irrigation in Kansas. Salina, Kan., Sept. 28.-A largely attended conference of delegates for the purpose of devising methods of promoting state organizations with a view of and to secure financial aid from the national government to that end, opened here to-day. The states represented in cluded the two Dakotas, Wyoming, Colorado, Nebraska, Kansas, Texas, Oklahoma and New Mexico. A resolution will be submitted to the convention appealing to Congress to protect the millions invested along the Arkansas river in Kansas. Representatives of eastern loan and investment companies are greatly agitated over the plans of the Colorado capitalists who are advocating the construction of an irrigating canal over 100 miles long from Canon city to Colorado Springs and other other points to be fed by the Arkansas river. It is said that this canal would require all the flow of that river, and as it waters several millions acres in Kansas and all the surplus flow is required even in favorable seasons it

is feared that such a canal would lay waste several million acres of land. Killed by a Bull. Kingston, Ont., Sept. 28.—Peter Healey of Cobourg, aged 70, went out to water a 4-year-old Jersey bull on Tuesday, when the animal attacked and gored him to death. VICTORIA, B. C., FRIDAY, SEPTEMBER 29, 1893.

Chicago, Sept. 28.-Wool growers, wool dealers and cotton planters and dealers, together with farmers and members of grange organizations, are rounding up at Jackson Park to-day, two days having been set apart for representatives of these interests. The round-up, however, will have less of a pleasure-jaunt air than of a business aspect, for the wool growers are here in force with a view of securing sentiment against any change in the present tariff protecting wool or the wool schedule. Delegations from the wool growers of Ohio, California and

other states are here for this specific purpose, and they are well supplied with literature declaring that free wool as now the declared policy of the president dustry and thereby depress the price of farms. San Francisco, Sept. 28.—The discomfiture of the police at the marriage of Dr. West and Miss Staley, and the consequent suppression of her testimony, has set the police hunting for a woman who claimed the doctor was previously married and divorced, although from whom is not on record. They learned of two children being born to the doctor by the Kennedy woman. One went east some years ago. It is believed that the amount he drew from the safe deposit vaults belonged to this child. Added interest is lent to the case by the story of Mrs. Dr. | bound for Puget Sound. Stewart Scolds Cleveland. Washington, Sept. 26.-President Cleveland was the object of a prolonged personal attack in the Senate to-day on the part of Senator Stewart (Republican) Nevada. Mr. Stewart spoke for nearly three hours on the resolution which he had offered on Saturday as to the relative independence of the three co-ordinate. branches of the government. That independence he charged the government with disregarding in many ways, but par-Mcularly in not causing the silver purhase law and the Chinese Exclusion law to be faithfully executed. But worse even than the non-execution of the laws appeared to be, in Mr. Stewart's opinion, the contemptuous allusions to Congress which he found in Mr. Cleveland's letters and interviews. He was particularly embittered by the President's allusions in one of his letters, to "Having Congress on his hands." This was an indignity beyond endurance, and then, in addition, the Nevada Senator scoffed at the President for his want of a collegiate or any other liberal education that would fit him for his high office and read the President's brief biography in the Congressional directory, laying much stress on and seeking to extract humor from the points of Mr. Cleveland's career as assistant teacher of the blind, clerk, sheriff, mayor and petty lawyer. Speeches against the repeal bill were then made by Mr. Cameron (Republican), Pensylvania, and Mr. Bate (Democrat), Tennes see. After these speeches Mr. Stewart occupied the remainder of the day's sesgenial confrere. He leaves a widow sion. The Senate adjourned at 5:45

> Suicide or Accident? Boston, Mass., Sept. 28.-David Williams of San Francisco, the Pacific slope representative of the Geo. H. Barnard Shoe Co. of Lynn, Mass, was found dead in his room at the Coolidge house, this city, this morning. Appearances indicate that it was suicide, though there is possibility that death was the result of an accident. Before going to bed last night he wrote two letters, one to his wife-in San Francisco and the other to a business firm in that city. These he sealed and laid on his dressing case. This morning the lodger in an adjoining room complained of a strong smell of gas about the corridor, and it was soon traced to the room occupied by Williams, who failed to respond to repeated calls and an entrance to his room was forced. Williams was found in bed dead. There were two gas jets in the room both turned on full force and neither lighted.

Her Hasty Husband.

Dartmouth, N. S., Sept. 28.-To-day John Lunn was arraigned for firing at his wife with intent to kill. She quietly left her home at Waverley, and her husband found her in Dartmouth late at night with a man named Eddie Lee. Thereupon Dunn caught hold of her and pointing a revolver at her head, exclaimed, "By God, I'll kill you." She escaped and Lunn was arrested. Evidence of the shooting was given by four witnesses. Mrs. Lunn then took the stand and in an' attempt to screen her husband swore swore that neither she or her husband were in Dartmouth on the night in question. Her perjury was so glaring that the magistrate instantly sent her to jail. Both husband and wife were sent to the supreme court for trial. The other two witnesses in the same case narrowly escaped being sent to jail for perjury.

Franco-Russian Cordialty.

Paris, Sept. 26.-Notwithstanding all he preparations and progress to welcome the Russian naval officers at Toulon next month, and to entertain them during the stay of the Czar's ships in French waters, it is evident that heed is being paid in official quarters to the Czar's request not to make the reception a cause for international dispute. Improved Morals of the Cricket Grounds. At all events, the morals of the cricket ground have undergone an improvement ince our grandfathers' days. The Hon. Robert Lyttleton observes in a current magazine article that in the beginning of the century matches used to be bought and sold, and betting men resorted to the usaul artifices. "One artifice," according to Mr. Ward, "was to keep a player out of the way by a false report that his wife was dead." It is all right now, adds Mr. Lyttleton; it is the grandest game in the world, because it is the ourest. It is played in the spirit of old Caldecourt, the umpire of 50 years ago. "Is there any reason," said a cad to old Caldecourt, "why I should not in the middle of an over bowl a lefthand ball without giving the bat a new guard?" 'Not at all," said old Caldecourt, "unless you should happen to be a gentleman." Football players and golfers are bidden to take heed.

Is Connaught a Coward?

London, Sept. 26.—The Radicals brought out to-day certain evidence as to the charges of cowardice against the Duke of Connaught. The duke was accused of seeking escape during the battle of the British troops under General Wolseley with the Arabs at Tel el Kebir, in Egypt, in 1882. The origin of the accusation has been much discussed since the duke was appointed to the Aldershot commission. A special correspondent who was in the field of Tel el Kebir has now come out with a letter giving the full story. When the troops were formed for the attack, he says, the Duke of Connaught with his Guards brigade and General Allison with his Highland brigade were in the first line. Shortly after this formation was made, a dispatch from England was handed to General Wolseley, who at once gave or-ders for a change in the line of attack. The duke and his Guards were marched to the rear and the Irish brigade was brought up to the front. The purport of this change, says the correspondent, was understood perfectly throughout the army. Everybody knew that had the Guards not been under command of the Queen's son they would have retained their position of peril and honor.
