

# THE LAST RESORT

## When all else failed, the Doctors said, "Try Fruit-a-tives"

### And "Fruit-a-tives" cured Mrs. Cadieux

MDE. LAURENT CADIEUX.

Plantagenet, Ont., January 1st, 1910.

"About March 1st, 1909, I was taken deathly sick with Stomach Trouble, Backache and General Breakdown. I failed from 125 pounds down to 50 pound, was confined to bed for eight weeks, and was unable to eat or keep anything on my stomach, vomiting nearly all the time. I expected to die and took many remedies as well as employing different physicians. The doctors said they could do nothing for me, and, as a last resort, one of the doctors told me to try Fruit-a-tives—if they would not cure me, nothing would."

"My husband bought 'Fruit-a-tives' from Mr. Arthur Robeau, merchant of Plantagenet, and I started taking them at once, and inside of ten days, I was able to leave my bed. My stomach got strong and I could eat and retain my food. I gained rapidly and soon had my usual good health back again, and to-day I weigh as much as ever, 125 pounds."

"MDE. LAURENT CADIEUX."

Even the doctors are recommending "Fruit-a-tives." They realize now that these wonderful Fruit Juice tablets will positively cure all Stomach Troubles, Indigestion and Dyspepsia—and they are using "Fruit-a-tives" in their practice.

Few people realize the vital importance of keeping their blood pure. Impure blood is the chief cause of Stomach Trouble, because it is from the blood that the stomach obtains the fluid which digests food. When the blood is laden with impurities, the dissolving fluid (the Gastric Juices) will be impure. These impurities may come from a congested liver, from Constipation, from weak kidneys, from an inactive skin, or from all four. Naturally, the ordinary "digestive powders" and "pepsin tablets" will not cure the trouble, because they only help to dissolve the food—they do not get to the seat of the trouble. "Fruit-a-tives" is the greatest remedy ever discovered for all forms of Indigestion, Dyspepsia and other Stomach Disorders, because "Fruit-a-tives" is unequalled as a blood-purifying medicine. "Fruit-a-tives" acts directly on the liver, regulates the bowels, strengthens the kidneys, stimulates the skin, and thus aids the whole system of impurities. "Fruit-a-tives" will positively cure you of any kind of Indigestion. "Fruit-a-tives" is sold by all dealers at 50c a box, 6 for \$2.50 for trial size, 25c. If you are unable to obtain "Fruit-a-tives" conveniently, do not accept substitutes, but send to "Fruit-a-tives" Limited, Ottawa, and the regular size packages will be mailed you, postpaid, on receipt of price.

### RICH STRIKE IS MADE NEAR STEWART

#### Body of Ore Found in the Portland Canal Company's Tunnel

George Brown, of the Bitter Creek Mining Company at Stewart, B. C., who arrived at Vancouver Monday by the steamer Vado, brought word of a big strike at the Portland Canal Mining Company's property on Portland Canal. The find was made in No. 3 tunnel and the ore was very rich, resembling very much in quality that found in the other veins.

The steamer Petriana on her last trip brought some very fine samples of ore from the recent strike made by the Stewart Mining Company on their Portland Canal property. The ore is iron and galena in quartz and carries good gold and silver values. The report received by W. Pigot, the local manager, shows that the vein is seven feet thick and has been traced already for 1,500 feet. One big block is smooth on one side, showing what is known as a slickensided formation, indicating that the ore is in a large body.

### MANY EXAMINATIONS FOR CERTIFICATES

#### Land Surveyors and Stationary Engineers Writing at Parliament Buildings

At the parliament buildings this week are going on examinations for certificates of competency as stationary engineers, and provincial land surveyors' examinations. The rooms in the legislative wing are all in use for the purpose.

Chief Inspector Baxter and Inspector McKay are supervising the examination of twenty candidates for stationary engineers' certificates. There are sixty-nine taking the preliminary examination and thirty-seven the final examination for provincial land surveyors, the examiners being W. S. Drewey, chief water commissioner and president of the Provincial Land Surveyors' Association; J. H. Gray, W. S. Gore, E. B. Hermon, J. H. McGregor and S. A. Roberts.

G. G. Pemberton, M. A., principal of the Tutorial and Correspondence school, Vancouver, is over here with twenty-seven of his students, nine of whom are taking the final P. L. S. examination and eighteen the preliminary. All are staying at the Dominion, and are a jolly little party.

### LIQUOR AND TOBACCO HABITS

A. MCGAGGART, M.D., C.M., 25 Yonge St., Toronto, Canada. References as to Dr. McGaggart's professional standing and personal integrity permitted by: Dr. Meredith, Chief Justice, Hon. G. W. Ross, ex-Premier of Ontario, Rev. N. Burwash, D.D., President Victoria College.

Rev. Father Teefy, President of St. Michael's College, Toronto.

Right Rev. J. F. Sweeney, Bishop of Toronto.

Dr. McGaggart's vegetable remedies for the liquor and tobacco habits are healthful, inexpensive home treatments. No hypodermic injections, no publicity, no loss of time from business, and a certain cure. Consultation or correspondence invited.

### VADSO ARRIVES FROM NORTHERN B. C.

#### Steamer Took Forty People From Prince Rupert to Stewart

Steamer Vado, of the Boscowitz line, arrived on Tuesday from Stewart and way ports and tied up at the outer dock where she is taking some tin for the canneries. The steamer brought south the boiler of the tug Native from Port Simpson, which will be replaced. She also brought several launches, one of which, the property of Jack McDonald, of the Inverness cannery, is being discharged here. The vessel also had 700 cases of salmon.

The steamer brought word that there was still snow on the ground at Stewart, but that many people were flocking into the town. Forty were taken in from Prince Rupert. An addition of 46 rooms is being built to the hotel, and as soon as the weather allows there will be a large lot of building commenced, and hundreds of people will for a time live in tents.

### COMMERCIAL PROGRESS SHOWN IN VICTORIA

#### Marked Increase in Bank Clearings for March Over Other Years

Victoria's growing commercial importance is evidenced by the large increase in the bank clearings for the month of March which soared over 2,000,000 above those for the month of March, 1909. The clearings for last month were \$7,170,000. A review of the record for previous years shows that as compared with 1905 the month's showing approaches 300 per cent. of an advance. The figures for March during the past six years shows as follows:

1910.....	\$7,170,000
1909.....	4,940,289
1908.....	4,280,784
1907.....	4,052,507
1906.....	2,875,215
1905.....	2,875,215

### FIRST APPEAL

Winters vs. B. C. Electric Railway Company to Go to Supreme Court of Canada.

(From Tuesday's Daily.)

The first appeal to be taken from the new Court of Appeal to the Supreme Court of Canada is in the case of Winters vs. the B. C. Electric Railway Company. Before Mr. Justice Irving H. D. Holmbeck, K. C. for the plaintiff and appellant, applied for approval of the appeal, and the order was granted. Plaintiff's automobile was struck, while being driven on Esquimalt road, by a car and at the trial before Chief Justice Hunter a verdict for \$400 was given against the company. The Court of Appeal reversed this judgment, Justice Martin and Gauthier rendering the decision and Mr. Justice Irving dissenting. One of the chief grounds for the reversal was that there had not been any evidence as to airbrakes at the trial. His lordship, the chief justice, on this being mentioned before him recently, recalled very distinctly that the evidence the higher court could not find any trace of had been given quite clearly.

# NEW CATHEDRAL IS A NECESSITY

## CHRIST CHURCH HAS OUTLIVED USEFULNESS

### Start Must Be Made at Early Date on Erection of a Larger Edifice

That Christ Church Cathedral, as a structure, has outgrown its usefulness, is obsolete and inadequate for the purposes of this diocese, that out of sheer necessity steps must be taken to replace it with a larger and more commodious edifice at the earliest possible date, were conclusions reached at the Easter vestry held on Tuesday at the schoolroom of the cathedral, when officers were elected for the ensuing year and other important business transacted. While opinion was unanimous that early action toward the erection of a new cathedral is imperative, no decision to make a move to that end was reached. It being considered advisable to delay this matter until the next meeting, Rev. J. A. Doull, who is coming from Vancouver, has assumed his charge on May 1st next.

As indicating how pressing is the need for a larger cathedral it was mentioned last evening that the seating capacity is but 650, and no less than 550 persons were in attendance at one of the services on Easter Sunday. It is thus clear that there is insufficient accommodation for the adherents, who number twice as many as those who received the blessed sacrament at Easter.

The plans for the new structure have already been drawn and approved, the present site is a magnificent one there is every assurance that the financial end of the matter will be no obstacle—and therefore little remains but a strong effort on the part of the constituted authorities to set the wheels in motion and secure the desired result. It is felt that the new rector will rise to the occasion and that at a very early date the work of erecting the new cathedral will be taken in hand.

At last evening's meeting Bishop Perrin, as rector pro tem, presented a report on the spiritual work for the past year. The annual report of the church wardens was then presented as follows:

The last twelve months have seen some great changes in the cathedral. Serious to us has been the departure of our rector, Canon Beaulieu. It is impossible that the loss of one who has been with us for nearly a quarter of a century should not be keenly felt. There will be many of us who will feel that there is something gone from our life which perhaps we are only now learning to appreciate at its proper value.

We turn now in anticipation to greet our new rector, the Rev. A. J. Doull, who is coming to us with every good wish for the success of his mission. He has worked with him. We hope that the welcome he will receive on arriving will hearten him for his labors and inspire him to be the leader in the many great works which are waiting to be done.

We have been most unfortunate in losing Mr. Holley, by his promotion. For he gave the cathedral a wholehearted devotion in the choir and as rector's warden, just when it was most valuable.

It is due from us also to express our appreciation of the way the Rev. J. Grundy filled the breach caused by the absence of Canon Beaulieu. If it had not been for his assistance, the bishop who was conducting the duties of rector, could hardly have accepted the additional burden.

On the resignation of the canon, the bishop appointed a temporary rector of the parish with the hearty concurrence of the churchwardens and church committee.

The income derived from the Christ Church trust fund has been paid to the bishop as rector and has been applied by him in meeting the stipend of the Rev. W. Barton, whom we are all glad to have here.

It is perhaps advisable to explain to those not already acquainted with the fact, that the bishop received nothing from the trust fund, but that his extra duty and responsibilities, of which the parish gained the benefit without cost to itself.

After the resignation of Mr. Faulkner as choirmaster, Mr. Pauline was appointed to the office of choirmaster while still acting as organist.

We are pleased to be able to report that all the contracts for improving the cathedral and Sunday school have been completed and paid in full, and that all loans have been satisfied, except the rector's stipend, which is being repaid by a sinking fund.

With regard to future expenses, by the authority of the vestry, Mr. Doull has been promised a stipend of \$2,500 a year and the use of the rectory. As in duty bound, we also promised to put the rectory into a state of thorough repair. Mr. Keith, the architect, has ascertained that this building can be placed in a proper state of external and internal repair at an approximate cost of \$550. The question of installing a furnace is one for consideration at this vestry. As the time was short, we have directed some of the work to be put in hand at once.

In providing for the stipends of rector and curate, \$4,500 in all, we may expect \$1,400 a year from the Christ Church trust, and from the general revenue about \$2,100 more, leaving a shortage of about \$800 a year to be made up.

The average general offertory during the past year has worked out at about \$83 a Sunday. If this were increased to \$88 a Sunday, as an easily be done, there will be no need to ask for this matter further, but it will be necessary to ask you for the \$55 for the rectory repairs.

We may say that if those who attend the cathedral services, but are not pew holders, gave to the offertories their fair proportion, there would be a surprising increase in the general revenue.

ARTHUR D. CREASE, Rector's Warden.  
E. H. HISCOCKS, People's Warden.  
Officers were then elected for the en-

### SIX STEAMSHIP LINES FOR STEWART

#### Boscowitz Company Latest to Place Portland Canal on Itinerary

From this time on Stewart is to be included among the ports of call of the Boscowitz steamers. For several weeks past one of the steamers has made fortnightly trips to that port, and the company announced that if suitable freights offered they would run both there regularly. Now they have announced that the steamers will run there every week, taking freight and passengers.

Stewart seems likely to have a good steamship service this year. The Camosun line, regular weekly trips, the C. P. R. will run a steamer there, and the Bruno will very soon be here to make once-a-week runs there, and the Petriana and Ceterans will make regular weekly visits. The Rupert City will also call regularly. This will make at least six visits a week for steamers, and there are rumors of other vessels making regular visits to their northern terminus. There must be something expected from the new town to make it worth while for so much shipping to go there. The question of wharfage should soon be a live one.

### SCARCITY OF OFFICERS FOR LOCAL STEAMERS

#### Likely to Be Some Difficulty in Finding Suitable Mates for New Steamers

There is a great scarcity of officers at present on this coast, and the fact that there are more steamers coming which will need officers makes the situation all the more acute. There are enough masters, but the scarcity is in mates, especially second- and third. Several deep sea men have already joined local steamers, but of the other kind there are none. It is a pity that it makes up for the scarcities.

It was announced by Captain Nicholson, when in Montreal recently, that the officers who would come with the three steamers now on their way or soon to leave for that company, would return home to England, but the men would stay here. Local officers, he said, would be engaged. If this be so, the situation is quite grave. Already some of the uss, have been finding difficulty in officering their boats, and the same difficulties will soon apply to the larger steamers.

### MONTREAL SCANDAL

Montreal, April 6.—It is not likely that any proceedings will be taken by the city against the aldermen who were condemned in Judge Cannon's famous report. The civic legal department made a report setting forth that the two forms of guilt mentioned in the report were not included in the criminal code, and that the evidence while it gave ground for suspicion did not go further.

### VIVID IMAGINATION IN POLICE COURT

#### Evidence Obtained of Sale of Liquor on Unlicensed Premises

Complaining that Allen Ebenezer Mortimer had, grossly insulted him in an obscene manner and had then burnt his hat and proceeded to brand him with a red hot poker a week ago last Saturday night in a house on Chatham street, Riley Jennings in the police court on Tuesday gave full reign to his vivid imagination, but the defence witnesses protested that Jennings was only drunk and the magistrate dismissed the case.

The men, are colored, and the plaintiff was in the police court two weeks ago on a charge of vagrancy. He was fined to go on promising to leave town. Instead he continued his occupation of playing the accordion in saloons, and while dispensing the music to the other men met him and took him along to the Chatham street house, where they bought several drinks.

The evidence on Tuesday was most emphatic on the point of liquor having been purchased at the house, and may be used later by the police in a prosecution of the proprietress of the house, a negro woman.

The prosecutor said he was in so many saloons on that Saturday night he was unable to recall the one where he met the men, but he remembered them coming in and taking away his accordion. He had to follow them to get back his musical instrument and ended up at Chatham street, but did not go there of his own free will. He said a little brown colored woman had sold them drinks at 25 cents each for just about two coppers. His companions forced him to drink, and he saw accused put the iron in the fire to make it red hot, so they could put a brand on him. They also burnt his hat and, refreshingly assaulted him. Finally the landlady had put him out of the house, but not before the men had thrown him to the floor and taken away his money. Referring to the plaintiff's face while he was in the house just for a lark. He had not committed an indecent offence.

The magistrate did not require further evidence, but dismissed the case after calling Mortimer and telling him that for a five months married man he ought to be ashamed of himself. Mortimer promised his wife would get his earnings for the future.

### MANCHURIA DESCRIBED BY LOCAL TRAVELLER

#### Harold Nation Deals at Length With That Interesting Country

A very interesting paper illustrated by a number of lantern slides on Manchuria was given Monday by Harold Nation, of the mines department of the provincial government. Mr. Nation explained that he had visited the country in connection with a mining venture. The country was approximately the same size as British Columbia, but it contained 15,000,000 inhabitants. White parts of the country consisted of mountains and valleys the central-southern district was all rolling prairie. The rivers through this part were large and sluggish, navigable throughout a great deal of their length. The extremes of heat and cold were felt and in the summer dust storms were very prevalent. The soil, which was hundreds of feet deep, was supposed to have been deposited by these dust storms. Owing to the lack of forests which were all bare. This allowed the water to run off very quickly with the result that in dry seasons there were famines, and the people from the neighboring districts allowed the starving people to die rather than help them.

A number of pictures illustrating the Chinese great wall, the people of Manchuria, the habits, houses, tombs and many other very interesting scenes were shown and described.

### FERRY BOATS FLOATED

Toronto, April 6.—The boats Miss Alice and Luella, which grounded off Mimico Point during the fog Monday, were released yesterday by the tug Nelly Bly. The boats are not believed to be seriously damaged. The fog on Monday was so thick early yesterday that boats were compelled to run at reduced speed.

### NOTICE

Pursuant to the by-laws of the said Company, notice is hereby given that the Annual General Meeting of the Victoria Lumber & Manufacturing Company, Limited, will be held at their office, 38 Dundas street, in the City of Victoria, on Monday, the 8th day of April, 1910, at 2 p.m., for the purpose of electing directors, and transacting such other business that may be brought before the said meeting.

E. J. PALMER, Local Secretary.

### WELL KNOWN CITIZEN DIED IN SAN FRANCISCO

#### C. A. Gass Passed Away Very Suddenly in the South

Word has been received in this city announcing the death at San Francisco of Charles A. Gass, of 143 Front street. Gass had been ailing for some time and left for the south last Thursday, accompanied by Mrs. Gass, in the hope that the change might benefit him. He was 31 years of age, and was born in Nova Scotia.

About 1885 he left his home in Nova Scotia for Moose Jaw, Sask., and for several years resided there. Four years ago he moved to this city with his family, and engaged in real estate and timber transactions.

Mr. Gass was well known throughout this city, and the news of his death in the south will be received with general regret.

He is survived by three daughters, Miss Ritchie, Miss Edith and Miss Kathleen, and one son, Gordon, all of whom reside in this city.

### ROOSEVELT MEETING

By a staff correspondent.

Porto Maurizio, (Gifford Pinchot) Roosevelt's exclamation meeting Gifford Pinchot, forester of the United States forest men, and his wife and public life. The meeting of the cabinet, took place of Miss Carey, six o'clock.

The meeting, which several months ago left the United States as portending Roosevelt, will mark his course of action. Pinchot's action, will mark his course of action. Pinchot's action, will mark his course of action.

Nothing to give multitudes of Pinchot and Roosevelt a two-hour stroll. Pinchot's stroll will be taken to indicate he has not repudiated Roosevelt's action. Pinchot's action, will mark his course of action. Pinchot's action, will mark his course of action.
