But Express Themselves in Favor of Rock Bay Improvement in Unmistakable Tone.

One by-law carried and one snowed under. This is the result of Thursday's voting, and in each case the ratepayers recorded an emphatic verdict. By an overwhelming majority they endorsed the proposal to devote the unexpended por tion of the Point Ellice bridge loan to an improvement across Rock Bay and the equally unmistakable manner they rele gated to the cold storage of defeat the by-law authorizing the borrowing of \$40, 000 for additional school accomm Those who followed the trend of public opinion, as openly expressed, were no surprised with the result in either in

Apropos of the school question it might be recalled that last year an at-tempt was made to secure a sufficient number of signatures to a petition t ensure the submission of a by-law to the ratepayers. This movement failed, and the board decided to wait until this year Legislation recently enacted obviated the necessity of a petition, so the by-law was placed before the ratepayers after it had passed through the various requisite stages in council. It has aroused considerable controversy. Its opponents took the stand that the expenditure of forty thousand dollars for more school will be a stand that the conditions would be a standard to the standard that the second that the standard buildings under existing conditions would be wilful extravagance. They claimed that in view of the fact that a certain number of pupils were being educated without regard to the age limit the board was not justified in employing as an ex-cuse for further expenditure the conges-

tion in the various schools.

But the fact remains, regardless of the defeat of the by-law by the ratepayers, that the question which is confronting the school board is a serious one. It is unreasonable to expect that Victoria must put up with the present limited accommodation, irrespective of the increase population. The city superintendent is unable to grant permits to any more pupils, which simply means that the city schools will receive no further children. It has been suggested that the board asked for too much money. But it is pointed out that the amount required was intended to provide additional accommodation in the central part of the city as well as a new school building in Victoria West. In this connection it is Gazetted: amusing to recall the assurances extracted from the trustees in the past two ons by voters of the extensive electoral district of the city known as North best efforts in securing an adequate structure for Victoria West, and readily cient to carry the measure if its fate de J. H. Bedson. pended upon the result in this ward, as three-fifths of the aggregate were re-

There is no doubt that all those who favored the by-law did not show sufficient active interest to record their votes, but it is equally certain that the great but it is equally certain that the great majority of those who opposed it made the little pilgrimage to the market building. Then again a large number of Ltd., capital, \$75,000; Revelstoke Insaring. Then again, a large number of voters in the western suburbs of the city were under a misapprehension as to the time the polls closed. They thought they had until 7 o'clock in which to record their verdicts, and quite a brigade appeared at the polling station too late. But they had only to read the election tain the correct hours of voting-notices which were published in ten consecutive

That the amount required in the bylaw was excessive for the purpose is dismissed by members of the board as preposterous. If a new school was to be erected in Victoria West, they pointed out, the most economical plan would be a barn. It is further contended that the enay, B. C. school board cannot possibly perform the

## THE INCURABLE

J. J. PERKINS OWES HIS LIFE TO DODD'S KIDNEY PILLS.

Manitoba Man Helpless From Kidney Disease Made Strong and Hearty by the Great Canadian Kidney Remedy. | Gazette. Tyndall, Man., April 15 .- (Special.)-Among the many in the great West who confidently state that they owe their lives to Dodd's Kidney Pills is Mr. J. J. Perkins, a well known resident of this

"For two years I was troubled with my Kidneys," Mr. Perkins states, "and last became so bad that the doctor gave me up and said I was incurable. my back and kidneys that I thought I I was unable to work and was becoming

While in this condition a friend per suaded me to try Dodd's Kidney Pills. I had little faith in them, and it was more to please him than anything else I gave them a trial.

"To my surprise the first box did ine so much good that I felt like a new man. Five boxes cured me completely. "Dodd's Kidney Pills saved my life and I cannot praise them too much Thousands of cases similar to that of Mr. Perkins are the proof that hny Kidney Disease from Backache to Bright's Disease yields readily to Dodd's Branch offices of the sacciation are being established

duty devolving on it under the act, that duty devolving on it under the act, that of providing means of education for every child within a certain age limit, if the ratepayers refuse to sanction the in-stitution of the necessary accommodaion. The result is that Victoria receives

an advertisement which will not be envied by any progressive community of the coast. In consequence of the defeat of the by-law, which one of the trustees accepts as an expression of the ratepayers against the granting of a tuition to pupils above the age of sixteen, he says he intends to introduce a resolution at the next meeting of the board providing that these pupils be excluded from the city

As to the loan diverting by-law there was not the slightest doubt. There were but few dissentients in either ward, and the total in favor was nearly twice as large as the aggregate for the school bylaw. The ratepayers undoubtedly under-stood this by-law, but they evidently failed to appreciate the seriousness of the problem, to the solution of which the trustees must more strongly than ever bend their energies. The result of the

LOCAL COMPANY IS PREPARED FOR WORK

(From Friday's Daily.)

Feeling assured that licenses will be Capital City Packing & Canning Company, Limited, will put in a test trap within a short time. This company has recently been organized, the notice of incorporation appearing in this week's Gazette. The provisional directors are: John Taylor, J. E. Kinsman, Capt. J. G. Cox, D. E. Campbell, S. A. Spencer, the canneryman, and Capt. W. Grant.
The company controls three foreshore grants from the provincial government Two of these are located between Sher-

ington point and Jordan river. The third is beyond Jordan river, at French's beach. In addition to this they may also acquire rights to other trap fishing sites, including some to the east of Van-couver Island. This company will go to work at once Applications for licenses from the Do-minion authorities, which have been filed

for several years, are controlled by the organization, so that it is in an excellent position to go on with the work. The company is composed nearly altogether of local men, and the intention is to thoroughly test the ground this year with the object in view of establishing canning works later. It is the s thought. If this proves successful permanent traps will be put up later. The catch this year will be salted, frozen or shipped elsewhere for canning, but if the venture proves a success local

canning works will of course be provid-This morning the tug R. P. Elmore arrived from Whatcom with a pile driver, scows and all necessary material for putting in traps. This outfit will be taken down the coast to the vicinity of Capital City Company's location to further work already in progress there for another Victorian company. It is possible that this pile driver may be utilized by the Capital City Company also. It is possible that this pile driver may be utilized by the Capital City Company also. commissioners. HEAVY INFLUX OF DESIRABLE HOME SEEKERS

Victoria Becoming a Canadian Los Angeles-Newcomers Arriving From East and Middle West.

(From Saturday's Daily.) Judging by the influx of Eastener during last year and this, coupled with the sentiments expressed by them, and by the writers of letters which are constantly being received by real estate dealers, Victoria will soon become to the Dominion, what Los Angeles is to the American Union.

Various causes are contributing to bring about this result. The first lies, of course, in Victoria's unrivalled climatean asset which, until it was taken hold of by the founders of the Tourist Association, was like so many others of the riches of this province, an almost undeveloped resource. Another reason lies in the effective advertising which is being carried on by the organization just referred to, backed financially and otherwise by the citizens themselves. Still another reason for the evolution now going on is the steady westward trend of the centres of population as well as the "tide of Empire."

But there are other reasons, and some of the most potent of them are scarcely appreciated by those who have been reared in our equable climate and have thus escaped the experience of those who have to endure the rigors of Eastern

winters. The word "rigors" is, perhaps, scarcely a fair one to employ when referring to Eastern winters generally. But it must go without qualification when used in a eference to a winter such as that from which the Eastern provinces and states are now just emerging. And therein Dame Winter, while harsh to the Middle West and East, has been peculiarly kind to the favored West. So severe has been the winter, now passing, that many have declared that they will never again endure the cold and the storms which in the Eastern portion of the continent has characterized the winter of 1903-1904. To such, Victoria, and its glorious climate, present a most alluring picture Thanks, too, to the good times which

have prevailed in Canada for severa years, a great many have the means and the leisure to visit the coast.

They came in considerable numbers

deep down in the Narrows at the en merely for a pleasure trip; but were so that they went no further.
