BLACKSMITH'S WORK, in all its branches. CHAS. GUNN, Chatham, March 29, 77.

BUSINESS NOTICE. The "MIRAMICHI ADVANCE" is published at Chatham, N. B., every Thursday morning in time for the arrival of the mail.

Advertisements in this paper are placed under classified headings. PER LINE PER WEEK, for first insertion, 25c. per square, each time, for all insertions after the first, 15c.

LOCAL, COMMERCIAL AND TRADING RATES. In order to secure the advertising patronage of business men and others of the North Shore, to give them the benefit of a large circulation in the County of Northumberland, the Editor of the "MIRAMICHI ADVANCE" has arranged to publish a list of names of those who are engaged in business in the County, and to send them a copy of the paper free of charge.

The "MIRAMICHI ADVANCE" having its large circulation distributed among committees engaged in the various branches of Agriculture, offers very superior inducements to advertisers. Editor "Miramichi Advance," Chatham, N. B.

Miramichi Advance. CHATHAM, THURSDAY, APRIL 12, 1877.

Fish-Culture - A Fraud. A very interesting article on the subject of Fish Culture in Canada, which appeared in the "Canadian Illustrated News" was referred to in last week's issue of the ADVANCE.

The editor of the News is well aware of the fact that Mr. Austin gave notice of his intention to move the resolution referred to and withdrew it the same day. We said the article was fairly correct and we hope, for the sake of all the interests involved, that the same position that is attempted upon the public by those who have reported in reference to the Miramichi establishment has not rendered the figures connected with the other Hatching Houses equally unreliable.

The number of ova actually in the Miramichi establishment is not more than, say 240,000, and we cannot understand why the work done by it is so persistently misrepresented through official channels. Investigations that we have made from time to time convince us that it has, unfortunately, proved a failure each year since it was established, and it remains to be seen after the coming Spring's frohest is over, whether the Department will have another proof that it put up the building in the wrong place.

More Fishery Bumping. In last week's issue we referred to the fact that setting for Gaspareaux had been prohibited in the Miramichi, as well as setting for Bass in the lower parts of the river and said that no intelligent officer of the Department could recommend such a course.

TELEGRAPHIC NEWS OF THE WEEK. NEW YORK, April 4.—A German nobleman, Baron Von Schweitzer, an adherent of the Social Democratic Party, was found guilty in the Bowery, yesterday, under the name of John Weiler. He was committed to the care of the Commissioner of Charities.

THE MURDERING BENDER. LITTLE ROCK, ARK., April 4.—A special from Alma, Crawford County, gives the latest regarding the Bender family.—George Krafer and family, supposed to be the original family of Benders, of murdering fame in Kansas, were arrested here today by Kansas detectives, who have been shadowing them for some time, and who are confident that they have captured the right parties.

THE SECRET SERVICE SCANDAL. OTTAWA, April 4.—In the Public Accounts Committee, to-day, Mr. Charlton asked the Chief of Police with regard to Secret Service money. It occupied thirty-two pages of forenoon, and recited the whole history of the subject, winding-up with the following expressed opinions:— 1. That the course pursued with regard to Secret Service money was highly irregular, and a breach of duty of those concerned thereat.

of the Indians supposed to have murdered the passengers and crew of the American steamer George E. Wright some years ago. Four were arrested and brought back for trial. The Rocket was fired on by Indians, and, in return, shelled and burned an Indian village.

LONDON, Thursday, April 5.—A Berlin despatch says the Emperor will decide regarding Bismarck's application, within a few days. The Reichstag re-assembles on the 10th, and the Chancellor's absence for a year would render necessary such a long furlough as must produce many inconveniences and difficulties. On this account Bismarck insists upon being relieved of all his duties, wishing to spare his powers for the time when Europe may be in danger.

OTTAWA, April 5.—In the Northern Railway Committee, to-day, it was shown that Bedford, of the Toronto Mail, obtained a regular subsidy from the company; Moberley, the engineer of the road, performed contracts for it, amounting in 1876 to \$100,000; the company also paid a large sum towards the dinner to Sir Francis Hincks. The company lent \$100,000 to the Conching Hotel Company, and transferred a mortgage therefor to the Northern Extension Railway Company, who lent further sums to the hotel, amounting to \$55,000.

OTTAWA, April 6.—In the Public Accounts Committee, to-day, Mr. Scadding Fleming, chief engineer of the Pacific Railway, stated it would take double ten years to build that road. He asked how that statement was reconcilable with the fact that he was a member of a company pledged to build the road in ten years. He witness replied that it was understood that he could withdraw from the company if they attempted to complete the road in ten years. The surveys could not be completed more rapidly than they have been. They commenced six years ago, and a portion of the road had been under contract for three years. There were now three hundred miles under contract. It would cost a great deal more to build the road in ten years from the date of underwriting British Columbia than would be the cost at present. It would have cost double the amount.
