Miramichi Advance. CHATHAM, N. B., SEPTEMBER 24, 1903.

The contract for the construction of the Beauceville railway has been let to Brown Brothers and the first aid was turned on Tuesday. The road will run from the mines of the Imperial Coal Company at Beauceville, Kent County, to Adamsville station on the Intercolonial, the surveys showing that this is the best route.

The representatives of the various federal political parties had a day of it last Saturday at Luparic. Mr. Tarte, the ultra-protectionist, according to a press despatch, crossed swords with Mr. Bourassa, the anti-imperialist, M. P. for Eglarville, and Mr. Monet, M. P. for Naperville.

Mr. Bourassa sharply denounced Tarte, Chamberlain and the imperial idea. The Chamberlain idea was destructive of Canadian autonomy, he asserted.

A Crisis in Imperial Politics. The resignation of Rt. Hon. Joseph Chamberlain, Secretary for the Colonies in the British Cabinet, and who may be regarded perhaps as the leading statesman of the Empire, was announced last Thursday evening, and really caused a political sensation.

Some timely and valuable advice on the selling, picking and grading of apples is given by Mr. W. A. MacKinnon, in the Fruit Division, Ottawa, Erey one interested in the growing and marketing of apples should write for a copy of Mr. MacKinnon's bulletin on the "Export Apple Trade."

When the grower is not also an exporter he may sell the apples in one or two ways, either at so much per barrel or at a lump sum for the entire orchard. As buyers often make their contracts long before picking time, either method involves consideration of the probable market prices during fall and winter, which will be regulated by the total supply and demand, influenced too by the changes in the quality of the crop.

Mr. Chamberlain's first speech on the subject at Birmingham and Mr. Balfour's reply to the corn tax deputation. Mr. Chamberlain says that neither of them was intended to provoke a purely party controversy. He points out the unyielding opposition of the Liberal party, which "scooped the idea that a system generally accepted in 1846 could possibly require modification in 1903."

every apple, good, bad and indifferent should be cleared off the ground and carried away, to be used for feeding stock or for any other purpose for which they may be fit, but not for export.

Step-ladders may be used for getting at the lower limbs, and long point-top ladders for the upper branches; the baskets should be small enough to turn easily inside a barrel, and so shaped as to allow the apples to be turned out with a gentle, sliding motion.

It may well happen that a third grade, exclusive of culls, will be found to consist of fair marketable fruit, which the grower feels disposed to export; but this grade, looking upon special features of excellence in the showing and marketing, is not to be set aside into the special crates by the grower.

The expert women who grade French fruit for market performance, as well as mechanical aid. A few days' practice with measuring-fruits is sufficient to train the eye so that it is accurately graded within a quarter of an inch.

The formal opening took place at 3 o'clock in the exhibition building, a large and commodious hall, large audience, all eager to see and hear Lord Dundonald, the distinguished commander of the Canadian militia and the hero of the relief of Ladysmith, then when the exhibition opened to the public.

Three lives lost—a number injured! A fool coroner decided that an inquest was unnecessary!

Children were playing near the hay when it took fire. Careless placing of hay freight blamed by some!

The smoking passenger blamed by others! Children were playing near the hay when it took fire. Three lives lost—a number injured!

There, has thirty-three shorthorns and Ayrshires, W. W. Black and Fred Black, of Amherst, are there with their noted herd of Herefords, Holsteins and Ayrshires, and Mr. McMonagle, of Sussex, with his Jersey and Guernsey, Chae. Fawcett, of Stokville, also has his famous herd of shorthorns stabled on the grounds.

Mr. Van Horn's famous herd of Dutch belted cattle arrived on Monday night. The same standard of excellence applies to the horses, sheep, swine and poultry departments.

Preparations for the opening of the Chatham Exhibition are going on in a lively manner. It is evident that the building cannot be fully finished in time and that all the preparations will not be complete as desirable, but that is always the case when such undertakings are new to a place and the managers are naturally inexperienced in much of the work.

Sept. 29th & 30th and Oct. 1st. You and I must go. The exhibition is the best ever seen on the North Shore at the Miramichi Agricultural Exhibition Association's Grounds, CHATHAM.

Mr. Downey, the father of Fred Downey, says that on examination of the body of his son he is convinced that he did not meet his death by drowning, but as a result of the fearful burning he received.

Several of those who lost baggage and freight are already approaching the company about compensation and if satisfactory restitution is not made they will certainly seek to recover through the courts.
