HAZLETON, Pa., Nov. 3.-The anthracite strike commission spent the entire day in the Lehigh Valley region, visiting one mine and several of the mining villages. While most of law students next Tuesday in Montthe commissioners were looking over the territory, Recorder Wright was kept busy on the train in attending to correspondence of the commission. Among the matters he disposed of was the sending of a copy to President Mitchell's statement of the miners' case, which was filed with the commis to all the coal companies involved in the present controversy. The statement was mailed from this city and should be in the hands of the companies tomorrow. Under the agreement made before the commission at reply in three or four days.

# METHODIST MINISTER

Takes Issue With President Elifot of Harvard.

BOSTON, Nov. 3.—President Eliot of Harvard addressed the Methodist preachers' meeting today in the Bromfield street Methodist Episcopal church. The Rev. C. E. Davis presided and introduced the speaker. Many of President Eliot's ideas seemed to strike at least one person in the audience as being opposed to Methodism, for at the close of the address. when Dr. Eliot asked that there might be a discussion, the Rev. James B. Brady of Worcester replied to some of them very vociferously.

President Eliot said he considered the form of Christian activity in many churches as too intellectual and emo tional on the part of the preacher, and calling too little for the work of the ecipient of the teaching.

"I hear all kinds of preaching from the Jew to the Roman Catholic," he said. "In all these kinds of preaching I'm not called on to work. The minister is and I am taking it in.

"At the Sunday school I don't learn that the children are working actively. So I distrust the methods of the Sunday school and the stitlings of the day school and the attitude of the.

"The emotional side is developed, perhaps, largely in the Methodist church. Is that wholesome for getting abor out of individuals? The church needs to reconstruct the forms of

teaching children and youth."

Dr. Brady said President Eliot's way of placing his thought was invidious and engaging; he represented a system that had obtained since the beginning of the Christian age, though he could not indorse it all. Dr. Brach, thought there never was a time when the church had so many adherents of vigor or was so widely extended as at Turner, U. S. consul general, and Mrs. Turner. The consul and Mrs. Turner. HALIFAX, Nov. 3.-For months there has been a somewhat acrimon-ous discussion in Halifax over a site for the new library for which Andrew Carnegie offered \$75,000. This offer had been accepted, but there was a strong party in favor of cancelling that acceptance, or of blocking the matter indefinitely through the question of a site, the north end being ranged against the south. The matter was settled tonight, the council enorsing the principle of the library and voting by a majority of one that it be placed on Victoria Park, opposite the public gardens.

ST. PAUL, Minn., Nov. 3.— General apathy is what the republicans of Minnesota have to fear most in tomorrow's election. The democrats have conducted the best campaign in years. Republican Chairman Jamison and Democratic Chairman Buck each claim 25,000 plurality for his party. The fight has been principally on the governorship, the democrats virtually conceding the rest of the ticket to the republicans.

COLUMBUS, Ohio, Nov. 3.— Before the party managers left for their homes tonight to vote, no unusual developments were reported anywhere in the state. The democratic managers still persist that there may be a surprise in the vote on the state ticket and that they will gain three congressmen, surely two. The present Ohio delegation in congress consists of 17 republicans and four democrats. Chairman Dick, before leaving for Akron this afternoon, said he expected a republican gain of one by A. H. Jackson, defeating Congressman James A. Norton in the thirteenth district. The republicans express more confidence tonight than usual, and offer bets at such odds as were never heard of in Ohio heretofore.

Frank Campbell, chairman of the democratic state committee, has declared himself convinced that his estimate of 35,000 plurality in the state for Coler for governor erred on the side of modesty and expressed confidence that the candidate is sure of election by at least 50,000:

NEW HAVEN, Conn., Nov. 3.—The republican state committee is tonight confident of a general victory in tomorrow's election, though Chairman Gates believes the plurality for the state ticket will be reduced from the 14,000 of two years ago. Mr. Gates also predicts republican success in all the congressional contests and in both branches of the general assembly, thus insuring the return to the senate of O. H. Platt.

BOSTON, Nov. 3.—The last word from the stump in the political campaign of 1902 was spoken this evening by the leading of ators of both parties and tomorrow will come the battle at the polis.

Should the Indian summer weather which has prevalled for the past few days continue tomorrow, as new seems probable, it is believed that the total vote in Massachusetts will fun well above 300,000, and perhaps reaches the figures of 1900, which were nearly 370,000. Republicans are exceedingly confident and the democrats very hopeful. The former claim the state by 25,000, while the latter believe that they will elect their candidate for governor by 8,000 plurality.

PHILADELPHIA, Nov. 3.—The campaign having ended there was little activity today about republican and democratic headquar-

Despite the enormous divergence of estimates, there is at the last moment practically no change in the betting, the odds remaining at 2 to 1 on Odell, with few very large wagers reported.

Chas. F. Murphy, leader of Tammany Hall, could see no reason tonight for changing his estimate of 112,000 plurality for Coler in Greater New York. Republican estimates place the democratic plurality below the Bronx to about 60,000, or just about half Mr. Murphy's figures.

Leaders of both parties agree that there is little likelihood of any radical change in the complexion of the congressional delegation of New York county, the results in many districts being foregone conclusions.

## COLONIAL CONFFRENCE.

(Associated Press.) LONDON, Nov. 3.—The blue book on much to what is already known. The resolution adopted on the subject of preferential trade is the most interesting part of the report to America. In that resolution the conference recog-nizes that preferential trade between the United Kingdom and the colonies Insurance Commissioner Durham, leader of the local republican organization, predicts a convincing victory for the republican ticket. He said: "As a result of the reports I have received I predict a republican majority in Philadelphia of 100,000. The total may be higher. I look for 75,000 majority for Judge Pennypacker outside of Philadelphia. The city will send a solid delegation to both branches of the legislature." would stimulate and facilitate commerce and strengthen the Empire; that in the present circumstances of the colonies it would not be practi-cable to adopt a general system of moting an increase of trade within the Empire, however, it is desirable that those colonies which have not already adopted such a policy should, as far as their circumstances permit, give sub-stantial preferential treatment to the products and manufactures of the United Kingdom.

LINCOLN, Neb. Nov. 3.—Final claims of political managers on the result in Nebraska tomorow were made tonight. Chairman Lindsay for the republicans, predicted that his party will, elect six congressmen, the entire state ticket, and two-thirds of the legislature.

Chairman Hall for the democrats, claimed his party would elect W. H. Thompson governor by approximately 10,000 majority. He said the democrats would not lose a single one of the Fusion congressional districts, and were counting on the election of Stark, Robinson, Shallenberger and Barry.

Chairman Weber, for the populists, concurred in the main, with the figures of his democratic co-worker.
