Guantajuato, owing to its situation In a great ravine or gorge, has been subjected to floods sweeping down from the mountains and much loss of life has been recorded, but the present storm which began Friday night, and continued throughout Saturday, was unprecedented in violence.

Part of the river, which was built over with masonry, burst through, augmenting the flood, and the scene became one of terror and consterna-tion. The people made haste to gather their valuables and flee, and many did so at the risk of their lives, for the streets in the lower part of the city were filled with rushing waters and the roar of wind and rain added to the general panic.

With one rush the mighty flood burst its bounds, foundations of solidly built masonry and houses being undermined. The inmates in many cases were crushed. In those houses near the river the water rose rapidly, and the inhabitants went to the upper floors and even to the roofs, where they were exposed to the full force of the storm. Many people thus seeking refuge in their own dwellings went down in the crash of

their houses.

From the centre of the city the flood rushed to both sides of the town, and the people, rushing out to flee to the mountains, were caught and swept

JOHN HAY DEAD. ARE ROAMING NOW LIKE A BAND OF PIRATES. On a Strict Enforcement

Grew of Kniaz Potemkine Are in Desperate Circumstances, and it is Feared Will Do Much Harm.

ODESSA, July 3, 1.10 p. m.-Interest this afternoon to attack and sink the thorities will permit her to cruise free ashore and imprisoned in the citadel.

The naval authorities here are o the opinion that the best and most effective way to deal with the mutinous battleship would be to send torpedo boats against her, especially as such craft could be operated by a comparatively small number of men who could probably be relied upon to execute orders to sink a vessel containing their countrymen and comrades more could the larger crews of the larger vessels. It should also be remembered that the Kniaz Potemkin is a very powerful vessel, and that if fought by cruisers or battleships she would be more than a match for any two or three of the other Black Sea

The situation is complicated by the fact that the spirit of insubordination is by no means lacking on board other ships of the Black Sea fleet. It is reported, and the report is credited, that the crews of other warships declined to fire on the Kniaz Potemkine when she steamed out of Odessa last Saturday. There is much other evidence that there is a spirit of insubordination to say the least, on board other Black Sea ships, stories concerning which

took concrete form in a report from Sebastopol today to the effect that the crew of the Ekaterina II. were paid off and sent ashore to barracks there because they could no longer be trustthe Kniaz Potemkine is indeed desper-

It is reported that the mutineer found about \$10,000 in the ship's strong box and that they are fighting among themselves, many being killed or

It is impossible to verify these statements. They emanate from persons who visited the Kniaz Potemkine while

she was still here. Recent developments concerning the mutiny on the Georgi Pobledonosetz seem to show that the men on board the battleship were coerced by those of the Kniaz Potemkine. In any event they ceased their mutinous conduct at the first opportunity which probably in large measure accounts for the fact that the majority of the crew were pardoned on again swearing allegiance to the emperor. Sixty-seven of them have been imprisoned as ringleaders. They are mostly old men, evidently drafted from the reserves and thus taken from their homes, stores and

farms against their will. The Georgi Pobledonosetz will probably go to Sebastopol tomorrow. Odessa is quiet today. The soldiers are camped in the city squares and in some of the boulevards. The artillery, which was posted on the coast close to Odessa with the guns trained toward the Kniaz Potemkine, was removed this morning.

The general situation in Odessa has much improved, but there is still a widespread feeling of nervousness. Those best knowing the conditions are of the opinion that the gravest danger now lies in a possible anti-Jewish rioting. The Jews here number about 175,-000 to 200,000, and for a variety of reasons they are deeply hated in Odessa. The fact that they are credited with bomb throwing during the recent disturbance, coupled with the fact that the police found large collections of bombs in the houses of two prominent and wealthy Jews, has served to inflame minds against them, and it would not take much to start anti-Jewish demonstrations, the end of which would be most terrible.

The dock strikers were fearfully punished, but it can be said truthfully that the military were protecting Odessa against a crazed and infuriated mob of incendiaries and pillagers, and confronted by a situation which absolutely demanded the most repressive measures. The stand taken by the troops last week probably prevented the sacking and burning of the whole city of Odessa, countless murders and indescribable terrorism.

The conditions in the country surrounding Odessa are very disquieting. The peasants are committing disorders, stealing and burning.

The consul general considers that all danger has passed. The Crantry incident is ended. The officials in the presence of the vice-consul carefully inspected the vesstl and found no trace of revolutionists, and the Russian officials apologized to

the consul general. Peasant disturbances in the neigh-borhood of Odessa are giving rise to much apprehension. The peasants are forcibly occupying lands and seizing live stock. Troops have been sent to suppress the disorders.

The admiralty, however, it should be stated, does not admit that the Smetilvy has gone on such an errand, though the officials say frankly that houses of Sheffield street and elsethe Kniaz Potemkine must in law be regarded as a pirate.

ODESSA, July 3, 5.21 p. m.-Out-Odessa is beginning to resume its normal aspect, although comparatively few people are seen in the streets, but devastation. Shipping and trade are entirely at a standstill and thousands of dock laborers are walking around idle. The city continues under strict martial law. Soldiers everywhere cut off all the sea front portion of the city and use scant ceremony in stopping persons not provided with proper per-mits to enter these districts. The nits to enter these districts. lamps are not lighted after 9 o'clock at light, and persons out in the street later run considerable risk from irresponsible soldiers. The consulates, banks, public buildings and the principal offices are guarded by troops day and night. The social life of the city is entirely dead. The principal hotels on the boulevard are virtually closed, the visitors having all departed. In the harbor lie the hulks of a dozen large and small ships burnt in some instances to the water's edge. The large warehouses were burnt out entirely and there is scarcely a house or other building in the neighborhood that does not bear the marks of fire. It is impossible to obtain accurate estimates of the amount of damage

done, but it is variously estimated at from \$5,000,000 to \$10,000,000. LONDON, July 4.-A despatch from Lloyd's agent at Bucharest says that the Kniaz Potemkine, accompanied by a torpedo boat, left Kustenji at one o'clock Monday afternoon without obtaining coal or provisions and steered

to the northward. ST. PETERSBURG, July 3 .- General Kahanoff, who is in military charge of Odessa, has reported to the emperor that a revolutionary committee of twenty was in control of the Kniaz Poemkine when that battleship and the Georgi Pobiendonosetz sailed. The crew on board the latter, Gen. Kahanoff added, were won over by this committee and together with a number of Jewish students who came on board and informed the sailors that the army was in entire sympathy with the movement and advised the crew to throw their officers overboard. Against the latter advice the crew demurred and later the officers were sent ashore. A revolutionary committee was then organized on board the Georgi Pobiedonosetz and the two mutinous ships sailed. They returned to the harbor Saturday night, but the Kniaz Potemkine having no pilot on board, put to sea again and sailed for Roumania, whereas the Georgi Pobledonosetz en-ODESSA, July 3, 8.36 p. m.-The fact tered the harbor and after a parley that the Kniaz Potemkine remains on with the military authorities, the crew expressed a desire to return to their allegiance and take back their of-

Isaac McLean Wants To Know The Names of Two Honest Men.

Isaac McLean of Seeley's Cove, received the benefit some years ago of a courteous action by two gentlemen. and he writes to the Sun in an endeavor to discover if these gentlemen are still alive and what their names are. He would greatly desire to have some information on the subject. His letter is as follows:

"As near as I can remember, probably eighteen or twenty years ago, when I used to work in Bowdoinham, Me., I would frequently come home by the way of St. John. On one occasion I came to the ferry house in a bit of a hurry, fearing I might miss the boat not only of the premises for which a for the west side, which connected with the Shore line train for my home which I had no recollection of taking out. REV. G. M. YOUNG'S FAREWELL.

Rev. G. M. Young preached his farewell sermon in the Fairville Methodist church Sunday evening. At the close of the sermon the pastor expressed his feelings on the subject of his premature departure from the church. One year ago, he said, he came to Fairville fully expecting to remain there until the end of the allotted time, four years. He had never dreamed of his being removed from the church until he had been two days at conference, when he received the news from the stationing committee that he was the man needed at St. Stephen, and while he did not know the reason he had been selected, yet as a loyal son of the church he had to obey.
