3

It has bready caused much injury to the eastern wall of this wing. It should be repaired immediately.

The Jury took occasion in their special presentment to speak in oraise of the superior management of this institution, they are of the spring that it is in a great measure due to the strict and cureful supervision of the keeper and in view of the increased labor and anxiety from the constantly icreasing number of persons deliars each be added to the salary of the Lerse of the Physician attending the bouse, the Jury think that the small sum of \$200 is inadequate remuneration for the services of a professional man placed in charge of over 220 persons requiring a daily attendance.

This find was found clean, orderly and well writilated. There are at present-45 persons confined there no with but one exception all were manifold there is with but one exception all were committed for drunkenness. The Jury were pleased to notice that there was not a prisoner in the gaol for debt.

The General Public Hospital was visited. The rewinding from the necessity of having iron bars placed to the super windows, and of nonl from the necessity of sunplying more heat than could be had from the necessity of sunplying more heat than could be had from the necessity of sunplying more heat than could be had from the Review of the sun ansimous opinion to the suffer form dis ass and sickness, and that no statements shown the Jury the comparative on the surface, with every comfort for those who waster from dis ass and sickness, and that it is every the sun and sun to found in this Hornital would appear to be hower than in similar institutions. The Jury desirato record the set unance of institutions in the Province, with every comfort for those who am a superpole sun and such as a such that were waster from dis ass and sickness, and that no such papear in the County, could he but know the suffer form dis ass and sickness, and that the such of the sets unance of institutions. The Jury had the such as a such as a such as a such as a such as

The Jury. as in former years, are of opinion that no assessment law can be properly carried out without the formation of a paid board of assessors for the county, and would earnestly recommend the establishment of such a board as a primary means of success in any scheme that may be proposed.

The experience of the Jury as a body and as private individuals has proved to them that no keber done for the public, or for private citizens, is as well and faithfully perfer med when done gratul i u-ly, as when paid: in this new country there are but few who can afford to give their time and services without compensation; and the Jury think the public do not desires such favor from any citizen. The Jury would respectfully recommend to the consideration of your Hnores the question of the prudence, economy and justice of placing the public institutions of the County under the management of salaried officials re possible to your honorable body and sufject to your instructions in those services that exclusively bolong to the county.

Whatever difference of opinion there may be when the four the property are in the circulation of the Dally Tribune is rapidly increasing.

The Eastern mail arrived at 10 o'clock last evening, but too late to be delivered.

Mr. T. M. Reed's friends held a meeting in the Academy of Music last evening.

Mr. Weldon will meet his friends and the electors generally in the City Hall, Carleton, to-night.

The Union St. Congregational Church had one of their social gatherings last evening. The attendance was good and

able body and su'ject to your instructions in those services that exclusively belong to the county.

Whatever difference of opinion there may be with reference to the foregoing proposition, the Jury are satisfied that your flonors will unanimusly agree with them in the necessity that exists for some change in the present Road Law. The Jury are positive that the many evils complained of in the present ments of Grand Juries for years past cannot be avoided so long as the present system is retained.

It is well kn w that 't he annual election of parish officers, those co-petent to fill the offices with credit to themselves and in the interest of the parish, will not allow themselves to be put in nomination. In muy cases persons are elected to fill important offices, who are unfit for the ar others are elected who have not sufficient education to enable them to keep the accounts appertaining to them. Instances have been siven of the election of road commissioners who o culd neither road nor write; if he refuses to serve he is liable to a roanalty of \$3. In the case of surveyors it is even worse, for it is well known that, taken as a body, two-thirds of those elected can scarce write their names, and yet these men are required to keep a debit and credit account. The Jury are astisied that the only remedy of the evils of the present system is to nave a new law, substituting for statute labor a money tax appointing one or more persons in each parish to expend all monies as well the Parish tax as Provincial grants, the persons so appointed to give ample security for the faithful discharge of his or their duties, and to receive adequate enaburation for their services; it is unreasonate to suppose that men it I give their time to the public without pay ment.

The Jury were sorry to find the research the provinces are admitted to the Abus House who

ment.
The Jurg were sorry to find that some few persons are admitted to the Alms House who are strong, health; and we lable to are their living. I amore strice enquiry thouse be made by the Commissioners before admitting say of this class, particularly in a place where labor is scarce and employment is abundant.

Respectfully submitted. JAMES REYNOLDS, Foreman. They also made a Special Presentment

The jury have had the various accounts of the County before them, together with the Auditors report thereon, they remark as follows:—

of \$2.43 in his hands, as per Auditor's report, a ge 6.

The Jury have again to call the serious at tenting of the Court to the loose and unsatisfactory way in which nearly all the Hishway accounts are made up. Referring to wave 39 of the Ayditor's report, the Court will find in the return of Cummissioner Ryan, five Surveyors charged with having received in all over \$70, making no returns to show if the money was ever expended by them. It his account there are 18 days not ecce. In clf r by the Commissioner, Thomas Higgins name seven surveyors as having received \$70.51, not neceounted for the casulats is satisf of 17. The returns of the casulats is satisf of 17. The returns of the women as a wear as a statistic to the same of the casulats is satisf of 17. The returns of thom s Rules in No. 1 Parish of Lame 18. The Jury have regularly attected to. The satenthion of the fury has be nealed to this account by nersons interested in the above named district, charging that the work was illegally sold and charged for at a higher rate than the auction rice, as is set forth in the note here with, which the Jury best leave to place before that Count for its consideration.

The Jury have examined the contingent estimates for 1873, and authorize at assessment of \$7,132.21, to be made on the rate-payers, to be distributed as set forth o page 33 of the Auditar's report.

Since the Andit r's Report was published, the Clerk of the Page by handed the Jury Justice Nowlin's account of Quico land rents, and a return from Sheaff Harding of jury times for 187. These accounts gray correct and accompanied with water form sheaff Harding of jury times for 1875. These accounts gray correct and accompanied with water form sheaff Harding of jury times for 1875. The Alims House was found in a very clean and orderly state, highly creditable to the Keener and Matron: there are at present 223 inmates, a greater number than last year. with very few exceptions, edd and infirm persons. Many were questioned (anart from the Keener) how they were deat; with. The invariable answer was that they "were very confortable." Many snoke in very sindly terms of the Keener. The Jury heard no cause of complaint except of being constituted at hight by the noise and r. stessness of an insane man named. Owens. From his conduct while the Jury remained they are of the opinion he should be sent to the Lunatic Asslum.

The Jury have again to call attention to the sout ern wing, reported by the Jury for the past the ey years, as in a very measife condition, as well as to the upper room in the northern wing, from which the plater has fallen in many places, caused by a defect in the roof. The Jury examined the roof and find it decayed all over. It is so fgrayed, and has been on over ten years, it has already caused much injury to the eastern wall of this wing. It should be repaired in mediately.

The Jury regret that your hondrashe body has been nooble to agree upon an improved system of assessment, but they hone that when the subject is again brought firward, you will see your wiv clear to the perfection of a scheme that will be more agreeable to the county than is the present live, which is more imperient in its arrangement, and unfair in its operation. The Jury, as in former years, are of opinion that no assessment law can be properly carried out without the formation of a naid keard of
