

Civic Commission

At the regular meeting of the Municipal Board last Friday, a letter from Mr. John Evelyn Wrench, Hon. Secretary and Organizer of the Overseas Club, was read by the Chairman, Mr. Gosling. The letter had reference to a scheme to provide an overseas' aircraft flotilla.

We learn from the Prime Minister that on Wednesday last an almost similar letter was received by him from Mr. Wrench who is personally known to him, covering copy of a letter written on behalf of His Majesty the King by Lord Stamfordham, and also copy of a communication from Earl Kitchener on the same matter, read as follows:—

"Royal Pavilion, Aldershot Camp, 28th May, 1915.

"Dear Sir, "The King was much interested to hear of the liberal gift from the Colony of Hong Kong of £4,500 with which to purchase three aeroplanes for the Imperial Aircraft Flotilla, and that this brings the total number of aeroplanes subscribed for by residents overseas up to six.

Yours very faithfully, STAMFORDHAM. The Honorary Organizer, The Overseas Club.

"War Office, Whitehall, S.W., 19th May, 1915.

"Dear Sir, I am gratified to hear of the prompt response to the appeal issued by the Overseas Club to its members and friends in all parts of His Majesty's Dominions Overseas which has already permitted the presentation of an aeroplane to the Royal Flying Corps.

It was interesting to learn that the aeroplane in question had been paid for by the generous donations of several thousands of British subjects overseas, and, as I understand that you are hoping to obtain the gift of an aeroplane for each part of the Empire, I sincerely wish you success in your efforts.

Yours very truly, KITCHENER.

The Honorary Secretary, The Overseas Club, General Buildings, Aldwych, W.C.

Before taking any action in the matter the Prime Minister proposes taking the matter up with His Excellency the Governor so that the movement which he entirely endorses will not clash with any of the funds that are now being subscribed to, and has already succeeded in influencing several patriotic citizens including Sir Edgar Bowring, Hon. W. C. Job, Mr. W. B. Grieve, Mr. H. D. Reid, Mr. J. C. Hepburn and Mr. Robert B. Job, all of whom have promised substantial aid and hearty co-operation, and nearly half the cost of the aeroplane is at present in sight, so that we may assume within a very few days the entire amount will be subscribed and Newfoundland will have the credit of having her name on one of the Flotilla of the air.

The Prime Minister was not aware until its publication in Saturday morning's paper of the communication to the Mayor and he has written him proposing that the forces be united and desiring co-operation in the movement, the success of which we all have at heart. The amount required will be \$7,500, and when this is subscribed, it can be immediately cabled and Newfoundland's aeroplane be at once placed in commission.

Lad Astray

Mr. and Mrs. Samuel Bishop of 13 Gear Street, this city, are very anxious as to the whereabouts of their son Alan, aged 12, who left home at 6.30 Friday morning last to go to sell the "News." Since the lad left home there has been no trace of him, though the police have made a thorough search. The lad who is of very quiet disposition, when he left his house was dressed in a plain navy sweater, dark striped tweed pants, old brown cap and a pair of boots very much worn. His parents would be very grateful if any who may give them information of him.

Cargarian's compliment of 250 volunteers brings the number of our volunteer force on active service up to 1500.

In addition to the volunteers seventy Naval Reservists from the training ship Callipo crossed on the Cargarian.

Head Const. Dawe who for some time past has been down North in connection with the larceny of money from a post office which occurred last February returned to the city by the express Saturday evening. We hear that he is hot on the trail of those who committed the deed and has traced one of these heques for \$45.00 to an inland town, where it was changed by a party whom the officer can at any moment lay his hands on. He also has a good clue as to the disposal of the rest of the money and developments in the matter will likely soon ensue.

Schooner Jubilee Finds Wreckage

Yesterday the schr. "Good Ship Jubilee" arrived here from Sydney by way of Channel with a cargo of coal for G. Browning & Sons. The vessel experienced gales and thick fog and for 10 days was harbored at Channel awaiting a chance to get home here. Wednesday evening last when she was about 4 miles off Bay Bulls a lot of wreckage was seen floating on the water and the schooner ranged alongside of it. Some sails were floating on the water and the crew succeeded in getting on to the vessel's deck a topmast, boom and some of the canvas. One of the spars stood out of the water and it is thought was attached to the hull which sank when the spar was cut away with some other gear attached to it. The wreckage and spars evidently belonged to a vessel of about 80 or 90 tons and the belief is that she became derailed and foundered. The fate of the crew is a mystery. Nothing that would indicate the name of the vessel was found on the wreckage picked up by the "Jubilee."

"Victory" Flour

MADE IN A NEW MILL TWICE as much "Victory" Flour has been sold this year. Why? Because as the flour becomes known the demand increases. "Victory" Flour is the highest grade imported to this Colony and nothing better milled.

Get out of the rut of always asking for the same brand that you bought ten years ago, as we represent a new and up-to-date mill, and the old known brands of flour cannot be made from a new mill, unless they have a fire, as it would cost too much to pull down a fairly good mill to build a new mill, with all the latest machinery, such as the mill we represent. Remember the name and ask for "Victory" Flour, sold by all the leading merchants, and well and favorably known by the F.P.U.
