

NEBOGATOFF'S WARSHIPS SEEN OFF COAST OF JUGSAH

British Steamer Sighted Them Midway Between Island of Penang and Singapore.

Russian Crews for War Vessels Bought From Chile and Argentine.

Tokio Protesting Against France's Breach of Neutrality—Counter Blast From Russia.

A Tokio cable: The press of this city contains its sharp criticism of France's neutrality in Indo-China waters, and presses surprise and indignation at what it describes as the elasticity of France's pledge.

The Jiji urges the Government to adopt independent action for the protection of the national interests, and insists that the responsibility for the extension of hostilities to the Russian fleet must rest upon France. It is understood that the Japanese Government has addressed France on the question of her neutrality, but the nature of the correspondence is unknown.

QUESTION OF NEUTRALITY.

Want Russia to Break the Law Because Japan Has Broken It.

A St. Petersburg cable: The Novoe Vremya to-day editorially maintains that after the manner in which Japan has persistently violated Japanese neutrality Russia would be fully justified in retaliating by sending out the interned protected cruiser Askold and the torpedo boat destroyer Grozovoi from Shanghai.

UNFAVORABLE TO STOESSEL.

Rarely Left His Headquarters in Port Arthur.

A London cable: According to the St. Petersburg correspondent of the Standard, the evidence taken by the commission of Port Arthur, has been uniformly unfavorable to Gen. Stoessel, tending to justify the recriminations that have been made.

Japs Buy Steamers.

A London cable: The Pall Mall Gazette gives details of twenty-seven merchant ships, of which sixteen were British, that have been sold to Japan since Jan. 1, to which list may be added the thirty steamships the Japanese have captured while they were trying to run the Vladivostok blockade.

FOR SEVERE CASES.

Röntgen Rays Should Only Be Employed by Qualified Practitioners.

Berlin, May 8.—The International Congress called to celebrate the tenth anniversary of the discovery of the Röntgen rays closed to-day. The discussion turned largely upon cancer treatment.

Complications May Arise if It is Found to be in the British Waters.

A London cable: The identification of the warships sighted by the steamer Selanger in the Straits of Malacca this morning as Admiral Nebogatoff's division of Admiral Rojestvensky's squadron is considered liable to develop an international situation. Jughra, of which the division was seen, is a town of the State of Selanger, which is a British protectorate, and is not far distant from the point where a Russian division was sighted as long ago as April 27.

RUSSIA'S NEW NAVIES.

Has Bought Argentine and Chilean Warships.

A London cable: The St. Petersburg correspondent of the Times says that rumors have been current for several days that Messrs. Schwab and Flint effected the sale of the Argentine and Chilean navies to the Russians.

RUSSIA HAS ADVANTAGE.

Rosy View Taken of Rojestvensky's Prospects.

A St. Petersburg cable despatch says: Captain von Essen, the hero of Port Arthur and one of the ablest of the Russian naval officers, discussing with the Associated Press the coming naval battle in the Far East, took a rosy view of Rojestvensky's prospects, and asserted that he had a great advantage in many respects over the original Port Arthur squadron.

pedo boat flotilla accomplished practically nothing until the last act in the naval drama, the torpedoing of the Sevastopol before the surrendering of Port Arthur, and then it took five nights of continuous attacks, under the most favorable weather conditions, no equals, to get one of the hundreds of rounds of torpedoes home against a stationary ship.

NAN PATTERSON.

THE JURY DISAGREED IN NAN PATTERSON'S TRIAL.

Twice the Jury Has Disagreed and Once There Was A Mis-trial Owing to a Juror's Collapse.

The Jury Stood 7 to 5 for Acquittal and it is Not Likely She Will be Tried Again.

New York, May 9.—Dramatic in the extreme were the closing scenes, early to-day, of the Nan Patterson trial before Recorder Goff on the charge of having murdered Frank T. Young, the well-known turf man and book-maker, in a cab last June.

Various rumors gained currency as to why the jury stood. Information received by the Associated Press is that the poll was 7 to 5 in favor of acquittal.

It is quite certain that the former show girl will be given her liberty on nominal bail, and that the indictment will be quashed. She has faced trial three times—twice the jury disagreed, and once there was a mis-trial, owing to the collapse of a juror.

In the court annals of this city nothing has yet approached the tenseness of the climax in the Patterson case. When Recorder Goff was summoned to court soon after 1 o'clock the room was filled with spectators, two of whom were women.

Although in a state bordering on complete collapse when she went to her cell early to-day after the jury had been discharged, Miss Patterson's son was quiet and slept peacefully through the night. A deputy warden making his rounds at 8 o'clock found Miss Patterson and her sister Julia were still asleep. He carried with him eleven letters addressed to Miss Patterson, and left them at the door without disturbing either of the women.

CHICAGO STRIKE RIOTING.

One Strikebreaker Fatally Injures a Man and Another Strikebreaker Shot.

Chicago, May 8.—With employers preparing to press a demand for troops violence in the teamsters' strike showed no signs of cessation to-day. The very first outbreak resulted in a fatality.

During a second disturbance at the stable of the Employers' Association, John Dansberry, a non-union colored teamster, was shot for trying to strike a boy who had shouted an offensive epithet.

A CALL FOR TROOPS.

Chicago Strikers Getting Beyond Police Control.

Chicago, Ill., May 8.—The first rifle shot fired during the teamsters' strike went whizzing through a crowded thoroughfare to-day. The shot was fired by a guard on a wagon of the United States Express Company, while it was passing through a crowd of striker sympathizers at State and Randolph streets.

States Express Company to-day wore revolvers in holsters at their sides. Deputy Sheriffs armed with rifles acted as escorts to fourteen delivery wagons of Siegel-Cooper and Company.

LIVES OF CRIME ENDED.

Two of Robbers Who Held Up C. P. R. Express Killed.

Winnipeg, Man., May 8.—The Gates boys, two of the most desperate criminals who ever filled an express car or robbed any post-office of wealth, and who were one of the three men who held up and robbed the C. P. R. westbound express at Winnipeg on Sept. 24th, will never answer for their many crimes. The Gates boys, and now lie buried in unmarked graves on the outskirts of Lordsbury, N. M.

Two men held up a saloon in Lordsbury on March 13th, and with their loot hurried off to the mountains. Sheriff McGrath, of Lordsbury, immediately organized a posse and started in pursuit. After a hard chase the posse overtook the robbers at the Town of Separ, and when the area showed resistance they were killed.

A LIVELY OLD FELLOW.

George Schmidt, at Ninety-five, Marries Once More.

Ashbury Park, N. J., May 8.—A romantic Easter day marriage was made public to-day. The bridegroom is George Schmidt, 95 years old, a retired Newark butcher, who is spending the season at Ocean Grove. His bride is Mrs. Ellen Day Schwartz, 57 years old, also of Newark. The ceremony was performed by Rev. S. H. C. Schmidt, of Ocean Grove.

Lassar, an eminent dermatologist, promising that the rays ought not to be applied except in serious cases because of their dangerous properties, strongly urged that they be superior to the knife in removing cancerous growths.

He had had only three failures in a hundred cases. Nevertheless the rays were of little use in removing large tumors, their penetrative power only extending half a centimetre. Wherever there is great suffering he urged the application of the rays because of the relief they gave from pain.

IF EMPIRE IS ATTACKED,

Then Let the Colonies Come to the Rescue.

London, May 8.—The military correspondent of the Times, writing on the future of modern wars, referring to the partial failure of colonial contributions and the unwillingness on the part of the colonies to promise definite aid in case of war, says: This unfortunate state of affairs is almost entirely due to the absence of any light or leading on the part of the British Government.

Ottawa is to have a new hotel shortly. Its cost will be not less than a million dollars, and it will occupy a central position, fronting on the City Hall Square.

MAY & JUNE
are the Best Months to Make Money Raising Chickens

Chicks hatched then grow more rapidly and require less care than at any time of year, and the knack of running the business successfully is acquired under the most favorable circumstances.

One good May or June hatching will bring out a brood of chicks that sell about October 1st for enough to pay for an incubator and another hatch can then be started that will get the chicks out in time for the Christmas market. The next hatch will be ready for the March and April market, "broilers" commanding the very highest market prices.

A good incubator is the foundation of real success in poultry raising, bringing the whole matter from guess-work to certainty. We furnish you with a

No Cash to Pay Until Fall, 1905.

Chatham Incubator

on easy terms. No cash to pay until November, 1905. By that time it should have paid for itself.

Nothing else raised on a farm pays like this, and the beauty of it all is that the women folks or children can easily attend to the very small amount of work there is to be done. Half an hour or so a day is all the time required.

Getting the right incubator is pretty nearly the whole thing. The Chatham is the safest and surest incubator made. It does the trick; 100 per cent. hatches every time if the eggs are fertile. Rather than go into details of construction here, we will print a few out of many hundreds of testimonials:

Brighton, Ont., April 15th, 1905.
The Manson Campbell Co.,
Chatham, Ont.

Dear Sir,—I told you when I received my incubator and brooder that I would let you know what success I had with my first hatch. When the incubator arrived I went and got eggs to put in it, and as I was anxious to get it started I took all the eggs I could from the party, and he had only enough so I could not pick them over. There were some small ones and some long and narrow, and as I afterwards found out he was keeping twenty-seven hens with one cock, so they did not look very good on the start. I put fifty-six eggs into the incubator and followed the instructions closely, and I got fifty chicks, two having died in the shell, which I think is first-class. They are strong and lively. I am sorry I did not order the 100 size instead of the 50. I have it now filled with sixty white Wyandottis eggs I wish you could tell me where I could get a good poultry paper, something that would suit a beginner.

Yours truly,
E. H. BARAGER,
Box 234,
Brighton, Ont.

P.S.—I would rather attend to an incubator than one hen now. There is some satisfaction in knowing that if you look after them they will get chicks.

Valnes, Ont., April 15th, 1905.
The Manson Campbell Co.,
Chatham, Ont.

Dear Sir,—The incubator that we purchased from you on the 18th Jan. last is certainly a dandy. One of a No. 2 incubator with 85 fertile eggs I got 76 chicks, and they are all strong and healthy. I used 1/2 gallon of oil. I think there is no better incubator in the world.

Yours truly,
MRS. JOHN ROBSON,
Valnes P.O., Ont.

We have similar letters from every State in the United States, and every Province in the Dominion. Every incubator we put out is the best kind of advertising we do, for it sells many others for us by its never-failing results.

The Chatham is built on honor, and its construction and workmanship are as perfect as an experience of fifty years and ample capital can make them.

The Chatham was the first incubator made that was good enough to admit of its makers taking chances that it would make its cost for the poultryman before it was paid for.

Don't imagine for a moment that it is any longer possible to make big poultry profits by setting hens. As hatching hens are as out of date as stone hatchets.

If these erratic, uncertain birds are kept busy egg-laying instead of wasting their time setting, the poultryman will pocket a good many extra dollars in profit.

If you want to get full particulars on the subject and learn all the details of successful incubator hatching and profitable poultry raising send to-day for our superbly printed book, "How to Make Money Out of Chicks." It's FREE.

Send for it now.
