## This 45 Horse Power Touring Car—\$2500

COMPLETELY EQUIPPED

HERE are more Overlands being bought to-day than any other similar car in the world. This great success must be due to the fact that we are giving more car for less money than any other maker in the business. Our factory is the largest and most complete in the industry. Our enormous facilities make possible a method of economical production which the smaller plants cannot touch.

This car is our Model 61. It is a 45 horsepower, five-passenger touring car—priced at \$2,500. A survey of the specifications will actually show you the average \$3,000 value. The wheel base is 115 inches. The selective transmission is fitted with F. & S. bearings which are used on the most expensive cars made. The axles are fitted with the finest Timken bearings. The frame is of pressed steel with a double drop. The magneto is a Bosch. The body is finished in rich Brewster green, ivory striped. All the bright parts are nickel-plated. The lamps are dead black trimmed with heavy nickel. The tires are big. The upholstery is of the finest leather hand stuffed with real hair.

If you wish, we will equip this car with a Self-Starting System. Our system, we believe, to be the simplest, safest and most economical starter made. Always works and a child can work it.

An investigation will prove that this car for \$2,500 is, at least, the equal, speaking very conservatively, of most of the \$3,000 cars now on the market. Write for one of our big 1912 books, which gives you its detailed value.
