November 22, 1932.

Dear Mrs. Starnmer:

I have your letter of 17th.

Before anything of value could be done, it would be necessary to know just what the materials are and whether or not application for refund of duty has been made. Because goods are not made in Canada may be reason for taking the tariff off, but until the tariff is taken off by statute, I don't think the Department would probably be empowered to refund the duty.

Yours very truly,

Arthur Meighen.
