Ottawa, November 12, 1912.

Sir,-

Referring to your memorandum of the 11th instant, in which you recommend that the water supply for immediate use at the Kootenay Industrial School should be obtained by extending the water pipe which is already installed and furnishing water to the old school building to the storage tank in the new building and be treated by hypochloride of lime, I beg to say that the Department would be glad if you would furnish detailed information as to how this treatment is to be done. Be good enough to reply at your earliest convenience.

Your obedient servant,

Asst. Deputy and Secretary.

D. Chene, Esq., C.E.,
Pierreville, Que.

Dept. of Indian & Northern Affairs, Letterbook,
