

CONTENTS

	PAGE
Normal Chromocytes —Origin—Development—Life Duration—Regeneration—Effect of Change of Temperature—Blood in Malignant Disease—Blood in Diabetes—Number of Chromocytes in Blood—Oligocythæmia—Polycythæmia; Physiological, Pathological—Hæmoglobin Content of Chromocytes—Colour Index—Hyperchromemia—Blood Platelets.....	13
Leucocytes —Non-granular Leucocytes—Small Lymphocytes—Transitional Lymphocytes—Large Lymphocytes.....	26
Granular Leucocytes —Staining Affinities—The Neutrophile Leucocyte—The Eosinophile Leucocyte—Morphology—Origin—Function	28
The Basophile Leucocyte —Percentage—Morphology—Measurements	34
Leucopenia —Etiology—Leucocytes in Pneumonia—Experimental—Leucopenia in Typhoid Fever—Leucopenia in Malaria—Leucopenia in x-ray Workers—Leucopenia in Hæmophilia	36
Lymphocytosis —Lymphocytosis in Infancy—Lymphocytosis in Malaria	42
Eosinophilia —Skin Disease—Ankylostomiasis—Trichinosis—Filariasis—Ascarides—Hydatid Infection	44
Leucocytosis —Physiological—Digestion—Infancy—Pregnancy—Cold—Sleep—Experimental	54
Pathological Leucocytosis —Typhoid Fever—Typhus Fever—Diphtheria—Scarlet Fever—Inflammatory Leucocytosis—Appendicitis—Pneumonia	62
Phagocytosis —Historical—Microphages—Macrophages—Experimental—Time to Appear—Phagocytic Power of Mononuclear Cells—Phagocytic Index.....	78
Degenerative Changes in Blood —Hypochromemia—Chemical Agents—Hæmolysis—Schistocytosis—Poikilocytosis—Polychromatophilia—Granular Degeneration—Origin of Granules—Hydremic Degeneration—Iodophilia—Theoretical—Toxæmia—Toxic Factors—Percentage of Iodophilous Cells—Micro-chemical Changes—Colour Intensity—Value in Diagnosis—Incidence	88
Primary Anæmia —Chlorosis—Etiology—Menstrual Disorders—Intestinal Disorders—Arterial Hypoplasia—Nervous Disturbances—Blood in Chlorosis—Hæmoglobin—Iron in Chlorosis—Experimental	98
