We are turning out to our customers the Lingerie Hat, embroidered in exquisite French styles, the new and beautiful Broderie Anglaise creation, the coming Hat. Children's poke Hats in variety.

William Gordon

BOUGHT PROPERTY

The Chatham, Wallaceburg and Lake Erie Electric Railway Company is composed of men of thorough business ability, who are certainly living up to their promises.

Yesterday they signed articles purchasing the Baby property on King St. West from Dr. Tye's former office to the Third St. bridge, and on it they will immediately commence preparations for the erection of their power house and general business offices. This will be the headquarters of the new railroad company, and a gang of workmen will be put immediately to work tearing down the buildings which are at present on the grounds and clearing up the property for the new buildings.

The building of the road will be commenced immediately now that the company has been placed on a working basis, and it is the determination of the men at the head of affairs to have the road in running shape inside of four months. They are certainly losing no time, and it seems quite probable that the road will be ready for traffic in that time.

AN ABLE MAN

The Chatham, Wallaceburg and Lake Erie Electric Railway Company has now been formally organized and placed on a solid financial and a good business basis, and there seems at present no reason to doubt that Chatham will have a complete electric service between here and Wallaceburg in the course of about four or five months.

This means much to Chatham and to Chatham's merchants and citizens. No more will the farmers of Dover and Chatham Townships be forced to remain at home during the rainy seasons owing to the muddy roads, for they will soon have access to an electric road which will pass right past their doors. They, too, will reap the benefit.

With the coming of such happy conditions in Kent County—conditions that have been so often wished and hoped for—it is only natural to ask how they have been brought about. This is a question which is easily answered, for the railroad has been finally secured through the faithful and untiring efforts of one man, assisted as he was by a few of Chatham's most influential and progressive citizens. This man is W. N. Warburton, to whom unabated credit and gratitude is due.

Mr. Warburton is by no means a stranger in Chatham. It will be remembered that a few years ago he was general manager of the Erie & Huron Railway with headquarters in this city, and ever since he left here he has always had a warm spot in his heart for Chatham, with good wishes for the welfare of the good people of Kent.

Two years ago Mr. Warburton held a mass meeting in Chatham with a view of talking up an electric road. He did not receive much encouragement at that time and many a man would then have given up the scheme but he stuck to it with untiring energy and succeeded gradually in getting a few of the men here interested in the project. After several obstacles, which he was successful in overcoming, he now has the satisfaction of seeing material results from his faithful efforts.

It is with pleasure that those interested in the road will learn that Mr. Warburton has been elected general manager of the new road. He is a man of exceptional ability in railroad work and for the past seven years has been superintendent of the Niagara, St. Catharines and Toronto Electric Road, so that he fully understands the workings of an electric road, and a happier choice for general manager could not have been made. Mr. Warburton also enjoys the confidence and esteem of all who know him, and the road ahead, and no doubt will, prove a splendid business success under his able management.

The average man is quick enough to grasp an opportunity to make a fool of himself.

THESE ARE THE DAYS

Not too hot, nor too cold, but just right, to have that photo taken that you've been intending to have for some time. Don't wait until a sweltering hot day and expect to get the best. **DO IT NOW!** We offer you photographs of every style, at price from \$1.50 Per Dozen to as high as you wish to pay.
